And the bill was read a second time

Mr. Kuhn:

Mr. President:

On Bill No. 1467, relating to the contract for maintenance of the barge, I reluctantly must vote against this for reasons that I think were apparent, although I didn't express them in our Committee Meeting last week. This year we had to curtail our support of WQED, the Pittsburgh Symphony, Carnegie Institute, and other cultural and educational activities. I feel that in fairness to these other organizations the continuance of this subsidy for the American Wind Symphony is not fair. By this I do not by any means mean I do not approve of the American Wind Symphony. I highly commend the American Wind Symphony. I think it has done a great service to the public here and fully justifies the public support that it had from the fund we appropriated for it, as

have the Pittsburgh Symphony, WQED, Carnegie Institute, and the Three Rivers Arts Festival. I feel we have to treat them all alike. For that reason I must reluctantly vote against this bill.

Mrs. D'Ascenzo:

Mr. President, I concur with Mr. Kuhn in the expression that everybody should be treated alike, but when the budget was considered the concert barge was being returned to the City of Pittsburgh, and the Dravo Construction Company had to immediately commence to repair it.

The barge is the property of the City of Pittsburgh. So in permitting the barge to be rehabilitated and provide for the insurance and maintenance of the barge, we are really not in effect subsidizing the American Wind Symphony. We pointed out to Mr. Boudreaux that we were doing this for the property of the City of Pittsburgh, and that maybe in 1964 he would have to explore some other means of providing the barge as the stage for the American Wind Symphony.

Frankly, Mr. President, I hope that in 1964 the City will find itself in a secure enough financial position that we not eliminate more of these cultural pursuits, but that we retain the American Wind Symphony and return to those cultural activities the financial help which we so reluctantly had to curtail their grants for 1963.

Mr. Jordon:

Mr. President, I think that is the distinction we should take into consideration. It is not that we are subsidizing or making a grant to the American Wind Symphony, but maintaining property owned by the City of Pittsburgh. Perhaps next year, as Mrs. D'Ascenzo pointed out, we may be able to make grants to the American Wind Symphony and other cultural activities, but we are not making any grants this year. We are only maintaining property that belongs to the City of Pittsburgh.

It is true we have a decision to make—either to maintain that property or sell it. We decided that in view of the situation next year we may be able to

continue our policy as existed in the past and continue the property that belongs to the City of Pittsburgh. I think this distinction must be made and understood.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Several other cases of heroic deeds performed by members of the Police Bureau were reported in the public press, one case being reported that a

police officer in the performance of a heroic act was injured.

These police officers are to be commended for their heroism, which was done without regard for their own safety.

I merely mention these facts so that they may be made a matter of record in the minutes of Council today.

DEPT. OF CITY PLANNING

February 25, 1963.

President and Members
City Council
Fifth Floor, City-County Building
Pittsburgh 19, Pennsylvania

Re: C. B. No. 1441 (43)—Dr. Richard L. Wechsler. Semple Street and Fresco Way, 4th Ward. Change from "R4" to "C4" District.

Gentlemen:

During the past week new information has come to the attention of the Planning Department and the Urban Redevelopment Authority which requires further exploration of this re-zoning by these agencies, and with the Urban Redevelopment Authority's planning consultant, Pittsburgh Regional Planning Association.

As you know, the plan for the redevelopment of the first project area in Oakland is now in the final stages of preparation by the Pittsburgh Regional Planning Association. There have been certain changes in the plan which raise a question over the advisability of granting Dr. Wechsler's zoning request.

We would like the opportunity for these agencies to meet with Dr. Wechsler to discuss the proposal in great detail. We therefore are urging that City Council delay final decision on this matter until this meeting is held. We assure you that this meeting will be called as quickly as possible, and that the facts will be presented to you so that you can

have a more complete picture of the problem and its solutions.

Sincerely yours,

CALVIN S. HAMILTON
Exec. Dir., Department
of City Planning

ROBERT B. PEASE,
Exec. Dir., Urban
Redevelopment Authority

Which was read, received and filed.

The Chair:

Since this legislation was introduced by Councilman Baskin, I think it might be a good idea for him to explain the ramifications of this situation we now find ourselves involved in to Mrs. D'Ascenzo, who wasn't here this morning, so that when she votes she will be able to do so intelligently and constructively.

Mr. Baskin:

Mr. President: I introduced this bill at the request of the proponents so that it would come before Council and be advertised for hearing. At that time no commitments were made by Council nor the Planning Commission. When we had the hearing last week on this matter, there was a Planning Commission recommendation that the change be approved by Council. At that hearing there was no opposition to the change. When it came up in Committee the following day, the Committee voted an affirmative recommendation.

This morning we were informed by the representatives of the Planning Commission, the Mayor's Office and the Urban Redevelopment Authority of Pittsburgh that due to some oversight on the part of all of them, or lack of communication between all of the bodies, they had not brought to Council's attention that a street was being planned which would run right through the area and was contemplated in this zoning change. Unless some modifications were made, or some compromise reached, the result would be that in order to get the two-story building of approximately \$100,000 valuation we might be placing the City in a position where it could

cost the City hundreds of thousands of dollars to relocate streets, and so forth.

Rather than summarily dismiss or vote on this proposed change, we felt it would be proper to give the proponents of the bill another hearing on the matter so they can meet whatever objections are presented by the Planners. We also asked the Planners to meet with the proponents to see if some other solutions couldn't be worked out in the meantime. So rather than have any action which might be too hasty, which we might regret, we thought we might recommit this to Committee and have another hearing on it, so we can discuss it fully and publicly before all the parties.

Therefore, Mr. President, I move this bill be recommitted to the Committee on Planning and Redevelopment.

Which motion prevailed.

Also

Bill No. 1505. An Ordinance entitled, "An Ordinance amending Zoning Ordinance No. 192, approved May 10, 1958, Zoning District Map Sheet Z-N20-O, by changing from a 'C3' District to an 'R1' District all that property bounded by Perrysville Avenue, Gusky Street, Wabana Street, and the easterly line of property, now or late, of R. W. Wallace, 26th Ward."

In Committee on Planning and Redevelopment, February 19, 1963, read and amended in Section 1 and in the title by striking out after the words, "all that property bounded by Perrysville Avenue," the words, "Gusky Street, Wabana Street, and the easterly line of property, now or late, of R. W. Wallace, 26th Ward," and by inserting in lieu thereof the words, "property at the northwesterly corner of Perrysville Avenue and Gusky Street, Wabana Street, and the westerly line of property, now or late, of R. W. Wallace, 26th Ward," and as amended ordered returned to Council with an affirmative recommendation.

Which was read.

Mr. Jordon moved

That the amendment of the

Committee on Planning and Redevelopment be agreed to.

Which motion prevailed.

And the bill, as amended in committee and agreed to by Council, was read.

Mr. Jordon moved

A suspension of the rule so as to allow the second and third readings and final action on the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—

Mr. Baskin	Mr. Kuhn
Mr. Counahan	Mr. Leslie
Mrs. D'Ascenzo	Mr. McCarthy
Mr. Gallagher	Mr. Fagan
Mr. Jordon	(Pres't)

Ayes 9. Noes none.

And there being three-fourths of the votes of Council in the affirmative, the bill passed finally in accordance with the provisions of the Act of Assembly of May 11, 1921, which provides that, where a protest is filed against a proposed zoning amendment, a three-fourths vote of all the members of Council in the affirmative shall be required for final passage.

The Chair:

Members of Council, I might say before we close the meeting that during the weekend we certainly suffered serious losses in the deaths of some very prominent and important citizens of the City of Pittsburgh: Mr. Lester R. Rawlins, Manager of KDKA, H. Stewart Dunn, Mrs. Roy Hunt and Mr. Sumner P. Ely.

Mr. Rawlins was a very public-spirited citizen, having great interest in

Children's Hospital and other prominent civic and fraternal organizations. He was an outstanding citizen, one whom every one had respect and admiration for.

From our own family, there was H. Stewart Dunn, Assistant City Solicitor. Yesterday, when I picked up the paper, I saw his picture. I thought he had been promoted or something. After I started reading, I discovered he had died suddenly. It was an untimely death that is certainly a loss to the citizens of the City of Pittsburgh. He was one of the founders of the American Legion. There is no doubt he was an outstanding, prominent and active citizen of our great city.

Mrs. Roy Hunt, a well-known citizen, contributed over two million dollars to Carnegie Library. I understand her husband had a stroke and is now in West Penn Iospital.

Sumner B. Ely was the first Superintendent of the Bureau of Smoke Pre-

vention in the City of Pittsburgh. He was a prominent engineer and contributed much to the elimination of smoke in our City. He also was on the staff at Carnegie Institute of Technology.

All these prominent citizens will be missed by the citizens of Pittsburgh.

The Chair will now entertain a motion to adjourn this meeting by a rising vote and a moment of silent prayer to the memory of these very fine and prominent citizens, and hope they are enjoying everlasting joy in the presence of their Maker.

Mr. Kuhn moved

That Council now adjourn this meeting out of respect to the memory of Lester R. Rawlins, H. Stewart Dunn, Mrs. Roy Hunt and Sumner P. Ely.

Which motion prevailed by a rising vote and a moment of silent prayer.

And thereupon Council adjourned.

Bill No. 1533. An Ordinance entitled, "An Ordinance amending the Zoning Ordinance, Ordinance No. 192, approved May 10, 1958, as amended, by providing for a restaurant serving intoxicating beverages, as a Conditional Use in the 'RP' District."

Which was read.

Mr. Jordon moved

A suspension of the rule so as to allow the second and third readings and final action on the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Jordon:

Mr. President and Members of Council: I intend to vote against this bill because I don't feel we have incorporated in it the sufficient protective measures for those persons living in small areas. When the "RP" ordinance was established, there was no limitation set forth to determine the minimum number of acres to be included in an "RP" District. It could apply to fifteen, twenty,

a hundred, or two acres. The smaller number of acres are the ones I am concerned with here. I don't feel, as was indicated by the people who came before Council, that this bill protects them. If you read sub-section (a), it points out what I am indicating. It says:

"The use shall be allowed only to the extent that the Commission finds it to be designed to serve primarily the residents of a Planned Residential Unit Development of which it is a part, and compatible and harmoniously integrated into the unitary design of said Planned Residential Unit Development."

sub-section (b) says:

"The use shall be allowed, only provided the same use is unavailable within convenient walking distance."

This could apply to an area comprising one or two acres and be compatible and harmonious in a two-acre "RP" District, or any district that would be changed to an "RP" District. Also, a restaurant serving liquor could be established in the area because others are unavailable and not within convenient walking distance.

I don't think this provides the kind of protection needed in a smaller area. Until we decide what the limitation is in the "RP" District, I don't think we should pass this bill because it opens a small neighborhood to the possibility of having a restaurant or tavern established there. I think the people who appeared before us were right and certainly had a point in pointing out that this could happen in their area, and particularly in certain areas as this has happened before, and I can understand their fear.

What this means is that the Planning Commission or the Members of Council in their judgment and discretion would have to exercise their wisdom to protect the people.

Sometimes when we are not as familiar with a certain area as we should be and therefore may let this slip through, and the people would suffer. I think it would be wiser not to pass this so that Council in effect would not be usurping the zoning function and decide case by case which areas should have

restaurants serving liquor and which should not. The ordinance should be drafted so it sets forth what the limitations are and which areas would qualify for the inclusion of a restaurant serving liquor.

I think it is a violation of the case I referred to in Committee, when the court has ruled that Council or Township Commissioners should not rule on a case-by-case basis in zoning, and what we are doing here would appear to be clearly a violation of what the court says is illegal. I think for that reason we should not vote on this bill but refer it back to the Planning Commission for further study. When the safeguards have been incorporated and it is uniform in its application and set forth in the ordinance rather than requiring the individual judgment of Council, then we will have a proper bill.

The Chair:

You stated in your remarks that it happened before. Where did it happen before?

Mr. Jordon:

I didn't say this particular situation happened before. I was referring to the Ives case. It involved Township Commissioners.

The Chair:

You mean you are talking about something that didn't happen in the City of Pittsburgh? Do you mean one of the smaller municipalities, a borough or township?

Mr. Jordon:

I am talking about whether or not a legislative body, whether Township Commissioners, City Council, or what have you, has the right to exercise their judgment on a case-by-case basis in making zoning decisions; that this is not the proper province of City Council or the Township Commissioners; that it has to be set up so that the standards are incorporated in the ordinance. I think this is clearly improper for us to assume the

responsibility for deciding in each case whether a restaurant serving liquor should not be included.

The Chair:

Do you mean the members of Council have bad judgment in zoning cases?

Mr. Jordon:

It is not a question of bad judgment, but whether we have the power to do it.

The Chair:

Of course we do. Fundamentally and basically, under this ordinance we have the power to do it. We can say whether it is going to be two acres, or five or twenty acres.

Mr. Jordon:

If you say it at the outset, but not if we determine it on each application.

The Chair:

On each application that comes before City Council we have the right to do it. If someone has been injured by City Council—

Mr. Jordon:

I am not going to stand here and argue the law with you. You asked me a question. If you would like to have a legal ruling on this, refer it to the Law Department.

I discussed it with the City Solicitor and he gave me an opinion. I am not asking you to accept my opinion. You tell me we can do one thing and I say we can't. If you want to know what he said, I think you ought to refer it to him and not argue it with me.

The Chair:

If anybody is damaged by us or the Planning Commission, they always have redress to the courts; is that right?

Mr. McCarthy:

Mr. President, I would just like to ask a question of Mr. Jordon.

Do I understand that the City Solicitor said the setting up of an "RP" District is improper?

Mr. Jordon:

No.

Mr. McCarthy:

The setting up of an "RP" is all right? It is not regularly in our text, so everytime an "RP" District is set up the matter must come before Council for Council's approval. Do you mean it is wrong if there is no limitation to the size of the "RP" District?

Mr. Jordon:

No.

Mr. McCarthy:

You said the City Solicitor said this is wrong.

Mr. Jordon:

We discussed two questions. One is whether or not Council, when there were subsequent changes, could request that the bill be called back. This he felt was in violation of the Ives case because we would be making a judgment on a case-by-case basis rather than setting forth an over-all and uniform rule. The question here, again is, when you don't have a designated limitation set forth in the ordinance, may Council exercise its judgment on a case-by-case basis to determine when a restaurant serving liquor should be permitted. He wasn't as positive about this one as the other, but he felt there may be some danger here of such action being illegal.

Mr. McCarthy:

What has this to do with the allowance of a restaurant that serves liquor?

Mr. Jordon:

Because it applies to any number of acres.

Mr. McCarthy:

We have to do that everytime we have an "RP" District. Everytime an "RP" District is set up in the zoning, which allows mixed uses, which is the purpose of the "RP" District, among other things, the matter must be presented to Council and we have to approve or disapprove it; is that right?

Mr. Jordon:

Yes.

Mr. McCarthy:

Whether or not there is a minimum number of acres doesn't seem to me to make a great difference. We still have to act on each case as it comes up. I assume we have been acting legally. There is no indication to me that there is anything illegal about that, about our approving or disapproving it. Is that your understanding?

Mr. Jordon:

We haven't stopped there.

Mr. McCarthy:

You say that because there is no limitation on the size of the land it is wrong?

Mr. Jordon:

Yes. When we have to decide whether or not a restaurant serving liquor should be permitted.

I think Mr. Kuhn had some questions. He has been trying to get the floor for sometime now.

Mr. McCarthy:

I just wanted to explain this so that there is no question about it as far as the people here are concerned. This "RP" District is a new idea in zoning,

as I understand it. Everytime there is an "RP" District set up the Planning Department must present it to the Council and tell us exactly what is to be included in it. Council must then approve or disapprove it. If a restaurant with a liquor license is to be included, we must be told about it, and at the time of the hearing we can approve or disapprove it.

Mr. Jordon:

As a matter of fact, Mr. McCarthy, it is my understanding there is still another question with regard to our power to do this same thing in a "C-1" District. Right now we do not permit restaurants serving liquor in "C-1" Districts. We had exercised our power to deny this use. There is some question among the members of the legal department as to whether or not we have the power to make this exclusion.

The Chair:

In the final analysis that matter is up to the Liquor Control Board.

Mr. Jordon:

The Liquor Control Board has nothing to do with it.

Mr. McCarthy:

What Mr. Jordon seems to be worried about will be covered when the matter comes before Council, for it is up to Council to decide whether this particular use should be allowed in a particular instance. But in every instance the matter comes before Council and there is a public hearing held on the matter. We make the decisions at that particular time. For that reason, Mr. President, I see nothing wrong with the amendment as it is written here.

Mr. Kuhn:

Mr. President, when the "RP" District was created by an amendment to the text of the ordinance a year or more ago, it was submitted with qualifications that related to the minimum size. The Planning Department said that it would like to consider further those questions

because the minimum size requirement was related to legal limitations and some policy limitations. The Planning Department, as I understood it at the time, was not going to come before us with any more "RP" applications until it had given us the further report that related to the minimum size of an "RP" District.

We were asked to approve the change in the text to the ordinance to create the "RP" District and to rezone the territory which is the East Hills Project. We did so for the reason that that mixed use there needed to go forward within the time limitations, but that this legislation, basically on "RP," would be further studied, particularly with respect to the minimum size of the area.

Now when this matter came up for public hearing on this bill, which relates to the permission to be granted on a Conditional Use for liquor license, some people from the Fifth Ward thought it was for rezoning of an area near them. That was not the case. But there had been a bill, or some suggestion of a bill, by the Planning Department with respect to a small two-acre tract in the Fifth Ward that, under the "RP" Section of the Ordinance as we approved it, might conceivably be granted at some time in the future.

I agree with Councilman Jordon. If we are to make it possible for small developments of the size of two acres to include mixed uses which include restaurants serving liquor, or taverns, we are going to be flooded here with small applications of this sort with a number of this same kind of neighborhood objection. I don't think we should adopt this ordinance until the Planning Department has done for us what it said it was going to do—that is, to submit to us a report on its recommendations for the best minimum size of an "RP" District.

I fully sympathize with all of the planning purposes served by an "RP" District and I quite agree with the intent of the present bill, of having in an appropriate "RP" District this kind of use among other mixed uses. It may, as a matter of fact, serve to reduce the number of objectionable liquor-dispensing establishments now clustered in commer-

cial districts and which might be clustered around a small "RP" District, or large one, if an "RP" District could not include a liquor-dispensing establishment. Nevertheless, the Planning Department has not given us that further report which it promised us when we first enacted the "RP" District. Until it has done so, I don't feel I have the best judgment and best thinking of the Planners on it. So I intend to vote against this even though I am in sympathy with the objectives of the ordinance.

The Chair:

Why hasn't the Planning Department given us this report? You say they promised to give us a recommendation?

Mr. Kuhn:

Are you asking me, Mr. President? I don't know if I am to be engaged in debate with the Chair or not.

The Chair:

It has been over eighteen months.

Mr. Kuhn:

It may be, Mr. President. I don't know. Perhaps a representative of the Planning Department might tell us.

The Chair:

If the Planning Department doesn't make a decision, maybe Council will.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

Re: BILL NO. 1441 OF 1963—
ZONING AMENDMENT

Gentlemen:

This is to advise that the covenant promised by the petitioner has now been presented to the Urban Redevelopment Authority and to the Department of Law. We understand from Mr. Kelly of the Urban Redevelopment Authority that the waivers in the covenant and its time periods are satisfactory to the Urban Redevelopment Authority; therefore, the covenant is approved.

Pleased be advised that the covenant has been presented by the petitioner who presently does not have title to the property. After the petitioner receives the deed to the property, the covenant will be acknowledged and recorded.

Respectfully,

DAVID W. CRAIG
City Solicitor

KNOW ALL MEN BY THESE PRESENTS, THAT

George A. Chase, widower, of the City of Pittsburgh, Allegheny County, Pennsylvania, does hereby make the following agreements and covenants, as to which this instrument WITNESSETH:

Whereas, George A. Chase, hereinafter called "Owner," as of the date hereof, is the record owner of a parcel of real estate hereinafter called "premises," in the Fourth Ward of the City of Pittsburgh, Allegheny County, Pennsylvania, as more particularly described in Exhibit A, attached hereto and made a part hereof; and

Whereas, Owner or Owner's grantee proposes, in the near future, to erect upon the premises a commercial building with parking area accessory thereto; and

Whereas, The Council of the City of Pittsburgh, by Ordinance No. 439 of 1961, has authorized expenditures for a General Neighborhood Renewal Plan to be developed by the Urban Redevelopment Authority of Pittsburgh, and the Planning Commission of the City of Pittsburgh, by action dated May 25, 1962, has adopted, pursuant to law, as part of the master plans of the City of Pittsburgh, a plan for the Oakland district, in which the aforesaid premises are located; and

Whereas, Pursuant to said plans, in the future, the City of Pittsburgh, the Urban Redevelopment Authority of Pittsburgh and the Public Parking Authority of Pittsburgh, separately or together, may acquire a portion of the premises, as well as other real estate in the vicinity; and

Whereas, In contemplation of such action, Owner is willing to execute and record this instrument as a covenant running with the land, binding Owner

and Owner's heirs, executors, administrators and assigns; subject, however, to the terms, conditions, limitations and duration hereinafter set forth;

Now, Therefore, Owner, intending to be legally bound hereby, covenants and agrees as follows:

1. Owner covenants and agrees that the building to be constructed by Owner shall be confined to the buildable portion of the premises as described in Exhibit B, attached hereto and made part hereof, or to such part of the buildable portion as Owner may desire to utilize for building purposes.

2. Owner covenants and agrees that the unbuildable portion of the premises, as described in Exhibit C attached hereto and made part hereof, shall not be improved with a substantial structure; however, Owner reserves and shall have the right to construct surface parking facilities thereon and for that purpose may improve the surface for the accommodation of motor vehicles, and also reserves and shall have the right to install fences, non-weight bearing walls, and landscaping.

3. Owner covenants and agrees that the first floor of the building to be constructed shall be designed so as to be usable for retail and service commercial purposes or so as to be capable of conversion to such use in the future.

4. Owner covenants and agrees that the main roof of the building to be constructed shall not extend more than thirty (30) feet in height above the curb line of Meyran Avenue.

5. Owner covenants and agrees that, in the event the unbuildable portion of the premises, as defined in Exhibit C, shall be acquired by the City of Pittsburgh, the Urban Redevelopment Authority of Pittsburgh or the Public Parking Authority of Pittsburgh, Owner shall accept in full settlement and satisfaction of all claims for damages a sum not exceeding Forty-five Thousand (\$45,000.00) Dollars; provided that this limitation shall apply only if the acquiring body shall duly execute and deliver, within three (3) months following conveyance or condemnation, an instrument agreeing that Owner shall be paid therefor not less than Thirty-five Thou-

sand (\$35,000.00) Dollars, and agreeing to be bound by the procedure set forth in the remainder of this paragraph. In the event Owner and the acquiring body shall be unable to agree as to the amount to be paid Owner as compensation, the amount of compensation shall be determined by a Board of Viewers as provided by law. In such proceeding, no evidence shall be offered as to the minimum and maximum amounts set forth herein. In the event the instrument aforesaid shall have been executed by the acquiring body, neither Owner nor the acquiring body shall appeal from the final award of the Board of Viewers; however, if the award of the Board of Viewers shall be less than Thirty-five Thousand (\$35,000.00) Dollars, the acquiring body shall nevertheless pay Owner Thirty-five Thousand (\$35,000.00) Dollars; if the award of the Board of Viewers shall be more than Forty-five Thousand (\$45,000.00) Dollars, Owner shall nevertheless accept Forty-five Thousand (\$45,000.00) Dollars in full satisfaction and discharge of all claims.

6. Owner covenants and agrees that no claim for damages shall be made, and the right to do so is hereby expressly waived and released, by reason of any one or more of the following actions which may be taken by the City of Pittsburgh, the Urban Redevelopment Authority of Pittsburgh and/or the Public Parking Authority of Pittsburgh:

- (a) The vacation of Fresco Way.
- (b) The restriction of Meyran Avenue to pedestrian use only.

- (e) The impairment of light, air, or view, due to the construction of a public parking facility on the unbuildable portion of the premises.

7. All of the foregoing provisions of this instrument shall be null and void

for all purposes unless, within five (5) years of the date hereof, the unbuildable portion of the premises shall have been acquired by the City of Pittsburgh, the Urban Redevelopment Authority of Pittsburgh, or the Public Parking Authority of Pittsburgh, and, furthermore, unless within said time, public parking facilities shall have been constructed within one hundred (100) feet of the buildable portion of the premises.

8. All of the provisions of paragraph 1-6 inclusive of this instrument are based upon the assumption that no benefits will be claimed from or assessed against the owner of the premises or against the premises themselves by any public body by reason of any public action which may be taken with respect to any matter referred to herein or with respect to any other feature of the aforesaid plans, and upon the further assumption that the premises will at all times have vehicular access to at least one public street actually open and in use. If either of the foregoing assumptions should, by the course of events, prove to be incorrect, all of the provisions of paragraphs 1-6, inclusive, of this instrument shall be null and void for all purposes.

9. The agreements and covenants herein contained shall remain in force and effect, unless sooner terminated by the provisions of paragraph 7 or 8 above, for a period of forty (40) years from the date hereof, at which time they shall all expire.

10. All of the foregoing agreements and covenants shall bind Owner and Owner's heirs, executors, administrators and assigns and are expressly declared to be and have the full force and effect of covenants running with the land so as to bind Owner's successors in title to the premises and any portion thereof.

11. The benefits of and the right to enforce the foregoing agreements and covenants, other than those contained in paragraphs 5 and 6, shall extend to the Urban Redevelopment Authority of Pittsburgh only and no abutting property owner or assignee of the Urban Redevelopment Authority of Pittsburgh and no other person or governmental entity shall have any right or interest therein. The agreements and covenants herein contained may be modified at any time

by written instrument executed by the Urban Redevelopment Authority of Pittsburgh, or in the event of the dissolution or termination of its active existence, then by any governmental body, agency, or instrumentality which shall succeed to any of its powers.

Whereas, The Council of the City of Pittsburgh, by Ordinance No. 439 of 1961, has authorized expenditures for a General Neighborhood Renewal Plan to be developed by the Urban Redevelopment Authority of Pittsburgh, and the Planning Commission of the City of Pittsburgh, by action dated May 25, 1962, has adopted, pursuant to law, as part of the master plans of the City of Pittsburgh, a plans for the Oakland district, in which the aforesaid premises are located; and

Now, Therefore, Owner, intending to be legally bound hereby, covenants and agrees as follows:

1. Owner covenants and agrees that the building to be constructed by Owner shall be confined to the buildable portion of the premises as described in Exhibit B, attached hereto and made part hereof, or to such part of the

buildable portion as Owner may desire to utilize for building purposes.

2. Owner covenants and agrees that the unbuildable portion of the premises, as described in Exhibit C attached hereto and made part hereof, shall not be improved with a substantial structure; however, Owner reserves and shall have the right to construct surface parking facilities thereon and for that purpose may improve the surface for the accommodation of motor vehicles, and also reserves and shall have the right to install fences, non-weight bearing walls, and landscaping.

benefits will be claimed from or assessed against the owner of the premises or against the premises themselves by any public body by reason of any public action which may be taken with respect to any matter referred to herein or with respect to any other feature of the aforesaid plans, and upon the further assumption that the premises will at all times have vehicular access to at least one public street actually open and in use. If either of the foregoing assumptions should, by the course of events, prove to be incorrect, all of the provisions of paragraphs 1-6, inclusive, of this instrument shall be null and void for all purposes.

9. The agreements and covenants herein contained shall remain in force and effect, unless sooner terminated by the provisions of paragraph 7 or 8 above, for a period of forty (40) years from the date hereof, at which time they shall all expire.

10. All of the foregoing agreements and covenants shall bind Owner and Owner's heirs, executors, administrators and assigns and are expressly declared to be and have the full force and effect of covenants running with the land so as to bind Owner's successors in title to the premises and any portion thereof.

11. The benefits of and the right to enforce the foregoing agreements and covenants, other than those contained in paragraphs 5 and 6, shall extend to the Urban Redevelopment Authority of Pittsburgh only and no abutting property owner or assignee of the Urban Redevelopment Authority of Pittsburgh and no other person or governmental entity shall have any right or interest therein. The agreements and covenants herein contained may be modified at any time by written instrument executed by the Urban Redevelopment Authority of Pittsburgh, or in the event of the dissolution or termination of its active existence, then by any governmental body, agency, or instrumentality which shall succeed to any of its powers.

Whereas, Paragraph 11 of the Agreement provides that it shall be subject to the approval of the Mayor and Council of the City of Pittsburgh;

Now, Therefore, Be It Resolved, That the Council of the City of Pittsburgh hereby approves the Agreement between the County of Allegheny and the Board of Trustees of the Carnegie Library of Pittsburgh for the year 1963.

Which was read.

Mrs. D'Ascenzo moved

The adoption of the resolution.

Mrs. D'Ascenzo:

Mr. President: I think it is appropriate at this time, when we are considering this resolution, to note that the amount contributed by the County to the library system, which employs about 400 persons, is less than \$500,000. We should note further that the City of Pittsburgh's current 1963 budget allocation out of its regular budget for the Carnegie Library is \$2 million!

The original concept of the library system by Mr. Carnegie when he donated the buildings, was that the municipality should provide all the services. Over the years, the City of Pittsburgh and the taxpayers of the City of Pittsburgh have done a magnificent job doing just this.

With the spread of suburbia and the people moving to the suburbs from the City of Pittsburgh, I think it was very generous of the City to make it possible for people not to forego the library privileges they had enjoyed when they lived in the City of Pittsburgh.

Rather than make a total percentage of the use of the library by County residents, there has been a breakdown into different categories. In some categories, we find there has been more use made of the facilities by the County residents than City residents. This is a matter of record, and I would have to have those records before me to quote the exact figures. However, the fact remains that in this modern day and age, the facilities that are available in a metropolitan city must be made available to those people who have moved out of the city. This can only be done by the closest cooperation on the part of the people in the suburbs, and an understanding on their part that these services are only made possible to them by the City of Pittsburgh.

Another factor to consider is that some people like to make a division be-

tween the City and County. Unfortunately, this division works to the detriment of the City taxpayers who pay their taxes not only to the City, but also pay about forty percent of all the taxes collected by the County. I think we need to remember this—that the City taxpayers do more than their share in being good neighbors to the suburbs surrounding the City of Pittsburgh, and to all the municipalities in Allegheny County.

I don't say that this is a bad thing. Rather, I say this is a good thing, because I can't imagine a metropolitan district such as ours supporting more than one fine library, namely, the Carnegie Library in Schenley Park. On the other hand, too much has been said about how people fear the City of Pittsburgh. Too little has been said about how much the City of Pittsburgh contributes to the good life of all the citizens of this entire metropolitan area.

The Chair:

Are there any further remarks?

I am happy to concur with your remarks, Council Lady D'Ascenzo. There isn't any doubt that the County should contribute more towards the upkeep of Carnegie Library. All the citizens of Allegheny County receive great benefits from this library.

And the question recurring on the motion, that the resolution be adopted.

The motion prevailed.

Mr. McCarthy moved

That the Minutes of Council of Monday, April 15, 1963, be approved.

Which motion prevailed.

And on motion of Mr. Kuhn,

Whereas, It is desirable and in the public interest that the Urban Redevelopment Authority of Pittsburgh make surveys and prepare plans, presently estimated to cost approximately Two Hundred Sixty-seven Thousand Two Hundred Eight Dollars (\$267,208.00) in order to undertake and carry out an urban renewal project of the character contemplated by Section 110 (c) of Title I, in that area proposed as an Urban Renewal Area, situated in the City of

Pittsburgh, County of Allegheny and State of Pennsylvania, which is described as follows:

Bounded generally by Stranahan Street, extended to Pinedale Way, on the north; Pinedale Way to Ferndale Street, the rear property lines of the properties on the east side of Brushton Avenue to Baxter Street, and Brushton Avenue on the east; Frankstown Avenue, North Braddock Avenue and Forest Way on the south; and North Homewood Avenue on the west.

Now, Therefore, Be It Resolved by the City of Pittsburgh:

1. That the proposed Urban Renewal Area described above is a slum, blighted, deteriorated, or deteriorating area appropriate for an urban renewal project and that the undertaking by the Urban Redevelopment Authority of Pittsburgh of surveys and plans for an urban renewal project of the character contemplated by Section 110(c) of Title I in the proposed Urban Renewal Area is hereby approved.

2. That the financial assistance available under Title I is needed to enable the Urban Redevelopment Authority of Pittsburgh to finance the planning and undertaking of the proposed Project.

3. That it is cognizant of the conditions that are imposed in the undertaking and carrying out of urban renewal projects with Federal financial assistance under Title I, including those prohibiting discrimination because of race, color, creed or national origin and including those relating to the relocation of site occupants, to the provision of local grants-in-aid, and to the requirement that as a condition to the execution of a contract for a loan and capital grant for an urban renewal project the locality present to the Housing and Home Finance Administrator a Workable Program, as set forth in Section 101(c) of Title I, for utilizing approximate public and private resources to eliminate and prevent the development or spread of slums and urban blight; and that it is the sense of this body (a) that a feasible method for the relocation of families displaced from the urban renewal area, in conformity with Title I, can be prepared, and (b) that the local grants-in-aid can and will be provided

in an amount which will be not less than one-third of the Net Project Cost of the Project and which, together with the Federal capital grant, will be generally equal to the difference between Gross Project Cost and the proceeds or value of project land sold, leased, or retained for use in accordance with the urban renewal plan.

4. That the filing of an application by the Urban Redevelopment Authority of Pittsburgh for an advance of funds from the United States of America to enable it to defray the cost of the surveys and plans for an urban renewal project in the proposed Urban Renewal Area described above is hereby approved.

Mr. Jordon:

Mr. President: I realize this is unusual, but since this is the first application of its kind and the citizens of Homewood-Brushton have worked so hard for the last two or three years to bring this about, I would appreciate it if Council would grant its permission for Mr. George Davis, Chairman of the Homewood-Brushton Renewal Council, and Mr. Richard Adams to be heard. Following that, I will move the adoption of this resolution.

The Chair:

If there are no objections from the members of Council, permission is granted.

Will you kindly come forward please.

Mr. Holahan:

Mr. President and Members of Council:

I am Francis E. Holahan, Member of the Board of the Homewood-Brushton Renewal Council. Mr. Davis will not be here today, so I will speak generally on behalf of the desires of the Renewal Council in Homewood-Brushton.

I am sure Council knows by now that this is an organization of the citizens in the Homewood-Brushton area who have united for the purpose of improving and renewing our community. The effort we are making is unique. We are trying, by means of organization of the citi-

zens themselves rather than primarily through the professional planners, to renew our community. In doing this, we hope to avoid some of the mistakes that were made in the past by urban renewal. We hope to save what we regard as a very fine community.

Homewood-Brushton is, in many respects, physically sound. People who live there for the most part want to live in Homewood. They don't want to be removed from Homewood. They don't want to be uprooted.

Now, a conservation program as we envision it for Homewood would involve the removal of some of the buildings there. More important, it will mean the preservation of many of the fine buildings we have now. We hope by means of conservation in Homewood to be able to institute a program of code enforcement to insure the present City laws are being complied with. We hope to better the traffic situation. We will, incidentally, (and I am sure this will be of interest to Council) preserve the tax base of the City of Pittsburgh. But we hope to prove something that is very important to us, and we know it is important to you as well—we hope to establish that Pittsburgh is now a good place to live, and can be made a better place to live. We believe conservation can enable us to do this.

There are gentlemen here better qualified than I who can answer questions having to do with particulars. In Homewood, I can say we want conservation.

The Chair:

Thank you, Mr. Holahan.

Mr. Adams:

I am Richard Adams. I am representing the citizens of Homewood-Brushton. We need a program like this—the conservation program. The bulldozer, as we are all aware, is not the answer. We need more than that. In fact, we have to go out and preserve some of our neighborhoods. The people cannot be pushed from district to district. They must stay where they are. We can't keep uprooting and uprooting. This is our best chance to stay and preserve what we have. This is what is needed.

Also, we have been speaking of renewal and how we are trying to bring Homewood along. But we had nothing concrete. This is the first thing that is concrete, something we need and will make the people say that the City Fathers are behind us. Therefore, if we can produce this program and solidify the interest of all the people out in Homewood, I think this is the best program we will ever have.

The Chair:

Thank you, Mr. Adams.

MOTIONS AND RESOLUTIONS

Mr. Jordon:

Mr. President: You asked me at the last legislative session to inquire as to why the Conditional Use ordinances

came over from the Planning Department at such a late date. I thought I would answer that question for you today.

As I told you before, the Planning Commission meets late Friday afternoon. Then they rush and try to have the bills ready for us by 2:00 P. M. Monday, which means they have to have the various departments sign the ordinances before they come to Council.

I discussed this matter with the Law Department. I find that they sometimes sign the bills at one o'clock in order to get them here. Sometimes they even anticipate passage by the Planning Commission.

The Planning Department would be perfectly willing to let them lay over for a week. This would mean the petitioner would have a delay of one week. If you prefer it that way, the department would be willing to hold them over a week.

The Chair:

In the first place, the Planning Commission used to meet on Tuesday. The bills were then in the City Clerk's office on Monday. There is no reason why they can't meet on Tuesday again. If the bills have to be rushed over, then they should be laid over for a week, as far as I am concerned.

Mr. Jordon:

I don't know if it makes any difference whether they meet on Friday or Tuesday; we would still get them on Monday.

The Chair:

Mr. Boxheimer had them in the afternoon on Friday so he could do his work.

Mr. Jordon:

If we wish to have them hold it over a week, they would be happy to do so.

The Chair:

I have no complaint with the Commission. It is the Staff that I have the complaint with. I make that plain and

will continue to make that plain as long as I have breath.

Mr. McCarthy:

I think the Commission ought to be told of our problem, and ask if they could meet on Wednesday instead of Friday.

Mr. Baskin:

They ought to be reminded of our situation. If we undertake this procedure of delaying bills, which means the Commission adopts them Friday and they wouldn't be introduced until the following Monday, and we hold it over two more weeks under the new procedure, then it is possible that a Planning Commission recommendation wouldn't get through Council for a month. It seems the whole procedure ought to be reviewed with that in mind.

Mr. Jordon:

Most of these bills that come over aren't controversial. If there is a bill that is controversial, it could be held over for a week. Even if they get here just before our meeting, this still gives us an opportunity to consider it on Tuesday.

I haven't talked to the Commission as to whether each member could meet on Wednesday or Friday, but I will convey our wishes to them. Do you wish them to meet on another day?

The Chair:

We are merely making a suggestion. It is for them to decide.

Mr. Jordon:

But if they decide to continue meeting on Friday, I would like to know what you intend to do.

The Chair:

If a bill has an affirmative recommendation, it is not so bad. If a bill comes over with a negative recommendation, there may be a lot of discussion.

Anything further on the matter?

No. 2012. Whereas, The population of the City of Pittsburgh consists of men and women of various races, religions, creeds and national origins; and

Whereas, Each individual is entitled to equal treatment with every other individual; and

Whereas, The publication of racial, religious and ethnic identification of criminals and persons suspected of crimes can create tensions in the general community and impair the good relations between groups within our city and thus adversely affect the general public welfare; and

Whereas, It has been established by Sociologists, Anthropologists and other authorities on Human Behavior that continual reference to race, religion, or national origin of criminals or persons suspected of crimes creates stereotypes

in the public mind, attaches stigmas to minority groups and provides a basis for prejudiced and bigoted thinking which is carried over into every area of community life, such as housing, employment and public accommodations; and

Whereas, We in the City of Pittsburgh wish to do everything within our power to eliminate stereotypes, stigmas and erroneous opinions of any group; to encourage people to live together harmoniously, and to emphasize respect for the individual and the dignity and worth of every citizen regardless of race, religion or national origin;

It is Hereby Resolved, That the Director of the Department of Public Safety and the Superintendent of Police consult with members of their department, the Law Department of the City of Pittsburgh, the Commission on Human Relations, representatives of the Press, Radio and Television, Interested Citizen groups and any other City Departments involved to develop specific and detailed descriptive characteristics, skin tones and colors which may be substituted for racial, religious and ethnic designations; to determine how much descriptions may be substituted and still carry on effective law enforcement; prepare appropriate regulations consistent with the intent of this resolution and within thirty (30) days submit such regulations to the Mayor and City Council for review and approval before making such regulations effective. HOWEVER, if the Director and Superintendent should find in the course of their study and investigation that the policy set forth in this resolution or parts thereof cannot be adopted without lessening the effectiveness of its law enforcement activities, then this information should be submitted within thirty (30) days to the Mayor and City Council for review.

Mrs. D'Ascenzo:

Mr. President:

A point of information. The resolution simply states what we would like to see done. Who implements the resolution

and orders the groups to meet and start working on this report that should be ready in thirty days? I don't see any directive for the time to start working on this resolution.

The Chair:

Is there any understanding or agreement, Mr. Jordon?

Mr. Jordon:

Director Dillon and Louis Mason, Executive Director of the Mayor's Commission on Human Relations, have agreed to serve as co-chairmen of this committee. I understand they will start immediately.

Mrs. D'Ascenzo:

That answers my question.

The Chair:

I might say that I have had a number of communications and two telegrams concerning this resolution.

I might also say for the interest of Council that we have a Fair Employment Practices Act, a Fair Housing Act, A Human Relations Committee, an Interracial Council (Catholic) and the National Conference of Christians and Jews. I think all of these organizations are doing an outstanding job.

I remember when the FEPC law was passed. I worked with the Pennsylvania Federation of Labor for eighteen months. It was the Industrial Union Council and Federation of Labor. I finally got them to agree to go along with it—then the Central Labor Union and some of our public spirited citizens. The bill was to be introduced by me in September of 1952, when Eisenhower was candidate for president. The late Mr. Magee (of happy memory) asked the then Mayor Lawrence to postpone it until the election was over. I agreed with him. So we laid it over and passed it after the election.

There is no doubt that this administration and the administration of David L. Lawrence did and have been doing everything humanly possible to help. We had the Urban League in here. I

was connected with them and the National Conference of Christians and Jews. I think the City of Pittsburgh is far ahead of every city in doing everything humanly possible to see that we have good human relations and good religious relations. There is no doubt that His Excellency, Bishop John J. Wright, has done more since coming to Pittsburgh than any other person in trying to have good race relations, good religious relations, good public relations and good employee-employer relations as is possible.

For that reason we ought to go very slow, because we would then start dictating to the police and telling them what to do. The letter I received stated that nothing should be mentioned until the man is indicted. If you wait until he is indicted, you will never catch him. I just wanted to make my position clear on that.

Also, I happen to be Chairman of the Committee on Hearings. All matters to be considered by Council should be presented at the legislative session and if a hearing on any particular subject is required or desired, the committee can refer such matter to me for fixing the time and place of the hearing. I don't wish to be ignored in matters of this kind as it is my prerogative as Chairman of the Committee on Hearings to fix the time when public hearings shall be held. I am glad that the Chairman of the Finance Committee, Mr. McCarthy, was in the Chair at the time of the hearing last Tuesday, and I wish to commend him on the wonderful manner in which he conducted the hearing.

Mr. Jordan:

Mr. President:

I didn't want to become involved in this. There has been enough said already. I had jotted down some notes, but had decided not to say anything.

I feel that your remarks are well taken. We in the City of Pittsburgh have been doing a great job. It has been a long, hard fight to get us where we are. I have been involved in a good bit of it, too. I have been on the boards of every organization you mentioned, with the exception of the Catholic Interracial Council.

I am perfectly aware of the progress and struggle. I can remember as a boy in this town when our theatres were segregated. I can remember when I sat in the balcony of the Enright Theatre, because we couldn't sit on the first floor. But we can't stop there. If this were true, we wouldn't have the difficulty we now have throughout this country. This is a new age and new demands are being made. People are not willing to be content with what has happened.

The objective of our democracy is that each person be treated equal; that each person have equality. This we have not achieved in this city or any other city. Therefore, everything we can do to bring this about as rapidly as we can we must do, because this is what we want. This is the genius of our democracy.

When this matter came up, there was considerable unrest in the community. I received calls and letters asking me to do something. People I had never heard of told me that something must be done. I thought of this a great deal. If you remember, I said at Committee Meeting that I proposed to introduce a resolution. Then it was agreed we should have a report from the Departments of Law and Public Safety. There was a period of two weeks that elapsed before anything was done. During that time I received calls and letters asking what was being done. I told them this would come up when the reports were submitted to Council on Tuesday. I talked to our City Clerk to make sure. Others decided they should have groups come in. I thought we ought to have a constructive expression of opinion, because this is the way we do things in Pittsburgh, and I wanted it to continue. The only people I talked to were the Sociologists from the University of Pittsburgh. I went out and discussed with them how to constructively present this to the community.

Now this matter is rather subtle. I can remember some years ago when we had the fight with regard to whether or not race, creed and national origin should be excluded from our applications for employment in the City of Pittsburgh. There was discussion as to how we could do this, or whether it would render ineffective the employment of our people. Well, today it is illegal to include on

applications any reference to race, religion or national origin, and we have been able to survive.

This had an affect. When you saw this on an application, you didn't have to see the person. All you saw was his race, creed or national origin, then you exclude him. This matter is more subtle.

Now, Anthropologists and Sociologists have said that by the use of these terms, referring to persons with regard to race, creed, color or national origin, and pointing it up that this group is more prone to crime, that this creates in the minds of people a kind of stereotype that has a bearing on that person in their community.

Again, the objective in this country is to de-emphasize; that every person is important; that every person is entitled to the same rights and privileges. We are not concerned with one person's racial identity nor giving him less than anyone else. By eliminating this, what occurred several weeks ago would not occur again. More important, it would begin to create in the minds of our police force and news media a kind of respect and dignity that is extremely important.

There has been a question raised that this would lessen law enforcement. All through our law books we have laws protecting the dignity and identity of a person more than anything else. I mentioned wire tapping and a few other things. Yes, it makes conviction much more difficult on the part of our courts and law enforcement officers, but more important it protects the safety and security of individuals. This is what we have to weigh whether or not the lessening of enforcement or effectiveness is less important than the greater good that it does in our community.

For that reason I have struggled with this a long time. I have written and rewritten this resolution. I have taken into consideration the suggestions of everyone who attended last Tuesday's Committee Meeting. I wanted everyone to express his opinion. That is the reason it is being introduced today.

I was up until two-thirty this morning drafting and redrafting this. I think it is important in the City of Pittsburgh that we prevent the things that

are happening in Philadelphia and other parts of the country. We can't prevent it by putting our heads in the sand. We must do more and more and do it faster and faster. This is the times and the trend of the times. This is the thinking of the people. Unless we recognize this and move in the right direction, Pittsburgh will not be the peaceful place it has been in the past.

It doesn't bother me that we don't have it highly developed in the rest of the country. Pittsburgh is accustomed to doing things first. We must begin to think of people as individuals, not by racial or religious tags. This is what I am interested in. It is the whole purpose behind this. It is difficult and delicate, but must be done.

The Chair:

After your resolution is passed, we are going to introduce a resolution honoring the late Pope John XXIII, a great man who has done more than any pope in America in bringing about the thought of the fatherhood of God and the brotherhood of man.

You mentioned Anthropologists in your remarks. I happened to be at a meeting honoring George Washington Carver. There was an Anthropologist there who said that everybody comes into the world with a right-hand. Bishop Wright and I both are Left-handed, so we haven't come in to the world yet. We're still out.

And the question recurring on the adoption of the motion, the motion prevailed.

The Chair presented

No. 2013. Whereas, Pope John XXIII was a man of Grace and of graciousness, seeking to fulfill in his life the Will of God and endeavoring to be kindly, considerate of and concerned about the wishes of men; and

Whereas, He has proved that poverty does not lessen the nobility of a man and that out of honest humility true greatness is born; and

Whereas, Among good men he was shown as excellent and good men became better for having known him; and

Whereas, He discharged his pastoral duty with indomitable zeal, tenderness and solicitude and with equal vigor, kindness and care demonstrated that he was a shepherd to all; and

Whereas, He labored incessantly and unstintly for his fellowman, he was highly esteemed by them; and

Whereas, He served his fellowman with such obvious affection and, therefore, joy, he was loved by them; and

Whereas, He desired and worked for peace, he could deserve no enemies; and

Whereas, He dreamed of and prayed for unity, no one could take sides against him;

Therefore, Be It

Resolved, By the Council of the City of Pittsburgh, Pennsylvania, that it record this tribute to His Holiness, Pope John XXIII, a great man and a great humanitarian, and we do hereby pledge ourselves, and recommend all men, to strive for the accomplishment of those Divine and human concerns which were the objects of his so dedicated life.

At this time, David A. Smith, City Treasurer, appeared, and Mr. McCarthy called up the following ordinances:

Bill No. 1960. An Ordinance entitled, "An Ordinance transferring \$4,500.00 from Code Account No. 42, Contingent Fund, to Code Account No. 1363, Materials, Department of Lands and Buildings."

Which was read.

ment in the office of the City Treasurer, City-County Building, and for the payment of the cost thereof."

Which was read.

Also

Bill No. 1968. An Ordinance entitled, "An Ordinance amending Ordinance No. 362, approved November 16, 1962, providing for contracts for the leasing of 80 column tabulating machines and data processing equipment for the Department of the City Treasurer for 1963 and for the payment thereof; and providing for the modification and expansion of existing equipment in order to create an interdepartmental data processing center; and for the payment thereof."

Which was read.

Mr. McCarthy:

Mr. Smith, I believe Mrs. D'Ascenzo asked that we hear from you on these three bills before we act on them. I would like to have any comments you would like to make on all three, or any one of the three bills.

David A. Smith, City Treasurer

I am not familiar with the bills in their proper order, but I assume it involves the contract for the machines in accounting.

James J. Hughes, Director, Dept. of Land and Buildings

I have a detailed list of the cost of the material to do that job. It comes to \$4,387. We made the bill \$4,500 in case there were any additions. As of now, it will do the job.

Mr. Leslie:

Will this \$4,500 meet the cost for the partitioning needed for the air conditioner? Will it complete the job?

Mr. Hughes:

This will complete the cost of material which the Department of Lands and Buildings will need to put this in before the air conditioners come in.

Mr. Leslie:

Who will do the labor?

Mr. Hughes:

We will do the labor.

Mr. McCarthy:

That is out of appropriations you already have?

Mr. Hughes:

If it runs into overtime, it will cost more. If our code account runs short at the end of the year, I will have to come to Council for more. Because of the location of the machines, we may have to work these tradesmen overtime. Then we will run into a lot more cost.

Mr. Leslie:

My purpose for bringing you up was to show that you were working on short time and to find out if these are realistic estimates.

Mr. Hughes:

To the best of my knowledge, they were made in a terrific hurry, a day or eight-hour period. On a big job like this it was the only thing we could do at the time. The Superintendent of Maintenance went over this. It was the only thing we could come up with.

The Chair:

Why would they have to be made in such a hurry?

Mr. Hughes:

I didn't know anything about it until I was called in at the meeting and asked how much it would cost on something I never heard of. We were called in at the last minute.

The Chair:

Was it a mandate?

Mr. Hughes:

Well, I was out of the City, with the permission of the Mayor, on the 31st of May. My superintendent was called and told that he was to get those figures by Monday morning if he had to work all day and night Friday, Saturday and Sunday.

The Chair:

Who gave those orders?

Mr. Hughes:

Mr. Hamilton.

The Chair:

Mr. Hamilton has no right to give those orders.

Mr. Hughes:

He said the orders came from the Mayor's office.

The Chair:

The Mayor was out of town.

Did you give those orders, Mr. Smith?

Mr. Smith:

No.

Mr. Leslie:

That is the reason I asked Mr. Hughes to come up. I felt he was under the gun. He was given limited time to come up with these estimates. If he is not right, he will be criticized later.

While we are at it, Mr. Hughes, is this a realistic cost of the air conditioner, to the best of your knowledge at this time?

Mr. Hughes:

Bill Pyle, at my suggestion, got in touch with an air conditioning and ventilating man. He came in under the gun, too. The \$40,000 figure was given to us by a ventilating man. I would have to depend on his figures because

we are not capable of coming up with a figure like that. If he had more time to sit down and go over it, maybe he would have come up with a more definite thing. As I said, Declaration Day was on Thursday. The first time I heard of it was on Tuesday.

Mr. Jordon:

Mr. Hughes how long has this question been under consideration?

Mr. Hughes:

As far as I am concerned, I was notified to attend a meeting on Tuesday before Declaration Day.

Mr. Jordon:

You never heard of this before?

Mr. Hughes:

Never.

Mr. Jordon:

It is my understanding that this has been under consideration for a year.

Mr. Hughes:

If so, not under my consideration.

Mr. Leslie:

That is exactly my point. This was under consideration for a year and then they expect him to come up with an estimate in a few hours.

Mr. Jordon:

Were you aware of it, Mr. Smith?

Mr. Smith:

Yes.

Mr. Jordon:

How long?

Mr. Smith:

Since September of 1962.

Mr. Jordon:

Then it did not become the concern of the Department of Lands and Buildings until the project was finalized and ready for estimate?

Mr. Smith:

I don't know that it is finalized yet.

Mr. Jordon:

But the procedure had to be worked out.

Mr. Smith:

In September of 1962, I wrote a letter to the Planning Commission. The letter reads as follows:

September 4, 1962

Mr. Calvin S. Hamilton,
Executive Director
Department of City Planning
200 Ross Street
Pittsburgh 19, Penna.

Re: Use of Computer
Equipment in City
Treasurer's Office

Dear Mr. Hamilton:

The Proposal to use a Grant from the Federal Government to acquire Computer Equipment which will be placed in operation under the Contract of the City Treasurer and used by the Planning Commission has been reviewed, and, under proper conditions, this can be accomplished.

It is suggested that you arrange with the Mayor's Office and City Council for a discussion of all preliminary matters at which this office will be represented.

Very truly yours,.

Mr. Jordon:

The question I was asking was whether

or not this was being worked out over this period of time. Apparently, it was. Whether it was worked out to your satisfaction, I don't know.

Mr. Smith:

It was under consideration, yes.

Mr. Jordon:

The Department of Lands and Buildings would not be concerned. There was some thinking that it was time to move ahead.

Mr. Leslie:

This matter came in on a Friday, with a solution to the problem expected by the following Monday. I don't think it was fair. They should have given a little more time, especially when you are spending \$100,000.00. I don't think it gives this department a fair shake in giving an estimate. Then they would be criticized later on when they ask for a larger amount. I think they should have had more time to consult with experts in this field. It is a highly technical field. Competition is keen. I don't rely on one man's estimate.

Mr. Jordon:

I am just trying to find out the facts. There seems to be two questions: Why was the rush? Why was there a delay? Why was there such a short period of time to act?

We are still on the first question, I believe, Mr. President.

The Chair:

Yes.

Mr. Jordon:

We know this was under consideration since 1962. We know some deliberations were apparently going on. Perhaps Mr. Hamilton can tell us why action had to be taken in such a short period of time.

The Chair:

Can you answer Councilman Jordon's questions, Mr. Hamilton?

Mr. Calvin S. Hamilton, Executive Dir. Dept. of City Planning.

Mr. President and Members of Council: We did write in September mentioning requirements and what would be the necessary requirements to add tape units to the computers. We noted there would be a necessity for air conditioning around the computers.

In November, we wrote a more detailed memorandum and started discussions. Mr. Pyle worked with George Anderson since, I believe, late January or early February of this year. We informed him at that time and have worked with him and urged that there be an estimate of the cost, construction and necessary materials. We felt it was only logical to ask him. We did not mean to circumvent Mr. Hughes. But since he was the architect and had worked with us on the Post-Gazette Building, we thought it only logical to ask him for these estimates. We have been working with him for three or four months during this year.

The Chair:

Since this is a federal investigation, we will hear from Mr. Pyle.

Mr. William Pyle, City Architect, Department of Lands and Bldgs.

Mr. Anderson, the architect from Mr. Hamilton's office, called me and asked me what I thought would be a good figure to use for air conditioning this area in the Treasurer's office. I said, "Well, I have some information on that. I think Council paid \$500 for an air conditioning engineer in 1960 to survey that, and we have that report." I gave him a copy of that report. I also gave him a floor plan of our building and told him he could make a sketch of that building. I told him the figure I gave Mr. Smith was \$50,000, and that it would be a pretty good figure to use. I arrived at that figure on the basis that if forty or fifty tons is required, we know from the bids that came in from the Post Gazette Building, and that is a pretty good figure. We went down, and not to embarrass anybody, were shown the area they might want air conditioned.

Mr. Jordon:

When did all this occur? For example, you said Mr. Anderson called you. When did he call you?

Mr. Pyle:

Maybe two months before the meeting down there.

Mr. Jordon:

When did this occur? When you actually went down?

Mr. Pyle:

Following the Tuesday that they had this meeting. Mr. Hamilton and Mr. Smith at that time couldn't make up their minds where they wanted the air conditioning to go. First, they said the machines, then, the whole floor. Then, they thought maybe they could do the balcony, too. So it was back and forth. I was asked the cost. I said I couldn't tell what it would cost until they decided what they wanted. They decided they would like to air condition the whole business.

The Chair:

That was on Friday, May 31?

Mr. Pyle:

Then Mr. Hamilton told me the Mayor had ordered us to get figures on this by Monday even if we had to work day and night to get them.

I would still say \$50,000.00. The air conditioning men figured we needed twenty-five horse power for the first floor for the machines. If we wanted the comfort air conditioning for the balcony, which is badly needed, we would use a twenty-five horse power unit. Twenty-five horse power is twenty to twenty-five tons.

The Chair:

Mr. Hamilton, since the Mayor's office has been injected, I would like you to give us some information after Mr. Pyle completes his remarks.

Mr. Pyle:

We arrived at a figure of around thirty to thirty-six thousand dollars, which I think we should get a bid on. But in allowing for unforeseen conditions. I put in a contingency and asked for \$40,000.00. So that's the story.

Our shop work is pretty realistic; I added \$350.00.

The Chair:

Did you work on Saturday and Sunday?

Mr. Pyle:

We worked Friday. Mr. Kennedy and I worked Saturday morning. By two o'clock the refrigeration people, after I gave them a call, had what they thought would be a satisfactory amount of air conditioning there, and we arrived at that price.

Mr. Jordon:

When Mr. Anderson first called you two months ago or so, you didn't feel it was necessary during that period up until the time you looked at the location to mention this to Mr. Hughes?

Mr. Pyle:

I didn't feel it was our problem at all. I figured all he wanted was a figure for a budget he was setting up that would take care of a condition if it arose. I had no knowledge that it would become activated. I expressed to him, if he can recall, that to do this accurately we should have thermopane glass and aluminum mullions that will fit in with the architecture of the Treasurer's office, which would run into eighty or ninety thousand dollars.

Mr. Jordon:

Do you think the figure we quoted for air conditioning is a good figure?

Mr. Pyle:

It will do the job. The partitioning will perhaps give you the atmosphere of

a barricade, but we can decorate it and paint it. It won't be a classic piece of ornamentation.

Mr. Jordon:

Have you ever worked Saturday and Sunday to meet a deadline?

Mr. Pyle:

Many times before.

Mr. Jordon:

So this is not an unusual thing.

Mr. Pyle:

I worked day and night here many, many years ago for a Controller. He thanked me and gave me a box of Christmas cigars, and that was in June.

Mr. Leslie:

That is not the point, Mr. President. That didn't involve an expenditure of hundreds of thousands of dollars.

I am not objecting to the air conditioners. I get legislation from my Director, Jim Hughes. I don't get it from Mr. Pyle or any man that works under him. He told me he received no communication about this. This was started on a Friday. I felt he was under duress because of his responsibility to come up with an estimate. I don't think it's the point of working overtime. I know a lot of County and City employees who work many, many hours and don't get the credit they deserve.

As a councilman, I was asked to present legislation and act on it. I didn't have the information from my Director. We met and discussed legislation and departmental work. He complained to me that it is not justifiable to push things through. I think I have a perfect right to come here and bring this out in the open, because if the expenses involved in this matter become greater, he will have a perfect excuse, in my opinion.

That's all I have to say.

The Chair:

I would like to ask the architect a question. After this is installed, what is it going to take to keep this in operation monthly or annually? When you are figuring these things, you have to figure not only the installation and overhead but everything in connection with it. At least that is what they did wherever I have been.

Mr. Pyle:

I am sure nobody can pick out a figure of the electric cost on the machines installed now. If it has been broken down, I don't know of it.

The Chair:

You know the number of cycles an engine goes, and so forth. The West Penn Power Company and Duquesne Light wouldn't be in business if they didn't know those things.

Mr. Pyle:

It requires maintenance from year to year. That is why we carry refrigeration and maintenance contracts.

Aldo Colautti, Executive Secretary to the Mayor:

Mr. President:

I haven't heard all the conversation. I do think Council should bear in mind that Pittsburgh is one of two cities in the United States that has been designated by the Housing and Home Finance Agency to use this computer equipment for planning purposes. Based on preliminary work by City Planning, the federal agency was impressed and felt it would be proper to make a grant for a two-year period to determine whether this equipment could be used in planning procedure.

We have an opportunity to experiment, and it is an experiment, frankly, with this equipment in the Community Renewal Program at no cost to the City. The only expenditure is the cost of the air conditioning and the monthly service bill you refer to. I think we should keep in mind that this is an opportunity

to experiment with a new technique that may bear fruit in many ways for the City, and may give City Planning a lot of flexibility.

The Chair:

If it is put in the City Treasurer's office, they will have to work at night.

Mr. Colautti:

The staff Mr. Hamilton has employed has the understanding that they would work at night. It will in no way impinge on the use of the machines by the City Treasurer's office.

The Chair:

With all of this equipment, they will still have to punch the cards by hand anyway.

Mr. Smith:

A lot of talk here is about the air conditioner. The initial air conditioning is a requisite of the machine supplier. One type of computer they are supposed to furnish the City generates so much heat that they really won't lease it to a customer unless he has air conditioning.

Now, to house the unit in air conditioning isn't practical from our point of view. Many of the units have to be housed in the same temperature to make them function properly. So the air conditioning requirements of the machine aren't the air conditioning requirements we think we should have. I think this is the reason why there was a delay.

Since the necessity arose for air conditioning a larger part of the machine accounting section, I am the one that proposed that they air condition the whole section and balcony. That is why it didn't come to light until a couple of weeks ago, although the matter of the computer system has been under study for a year. This computer system the Planning Commission is speaking of will furnish a capacity which the City Treasurer's office does not need (This probably relates to Bill 1968, but I guess all three bills are related), but will do the job the Planning Commission proposes to

do. They can't do it effectively on the equipment we have.

Without getting into too much detail, this is equivalent to taking an eight-cylinder engine and putting it into a four-cylinder car. It will probably take a weekend or forty-eight hours for IBM to do it. If they don't, this thing isn't worked into our contract. If they have to rent new computers, I doubt if the Planning Commission could get it for another year.

Mr. Counahan:

In other words, you are of the opinion that this isn't going to work out anyway? Are you of the opinion that we, in effect, should have a different setup? Will it tie into your work?

The Chair:

He said it was like putting an eight-cylinder engine into a four-cylinder machine. From what he says, the whole thing should be restudied, because the details are not worked out satisfactorily.

Mr. Counahan:

I thought I heard it that way.

Mr. Jordan:

On that question, I would like to ask for some clarification, Mr. Smith. You say this is like putting an eight-cylinder engine into a four-cylinder car. It was my understanding that all we were doing was adding tape-drives to the present equipment.

Mr. Smith:

That's part of it. They are building up the capacity of the computers we now have. The tape-drives are extra units.

Mr. Jordan:

What will you do to build up capacity?

Mr. Smith:

IBM will do it. When they put a larger wheel on they charge you for it. They

can put a smaller wheel on to reduce it. It will add more digits. I don't know if you want to get into the details of each unit. I am talking about the over-all planning now; what will be necessary as far as our equipment is concerned in order to furnish the Planning Commission with what they need.

Mr. Jordon:

It seems to me that the impression created here is that we are doing something with this machine that will make it less effective. From what I understand of it, this isn't so. I know IBM can add equipment to increase the number of digits.

Mr. Smith:

Maybe the example I gave wasn't so good. Did I say it was like putting an eight-cylinder engine into a four-cylinder car?

Mr. Jordon:

Yes.

Mr. Smith:

Then that is what I meant.

Mr. Jordon:

Then it will improve the efficiency?

Mr. Smith:

It will provide the Planning Commission with what they want and get the service out of the computers we have installed now.

Mr. Jordon:

It will get more out of the computers?

Mr. Smith:

Yes.

The Chair:

It has been working until the Department of Lands and Buildings got into it.

Mr. Smith:

It can work also. As I understand it, it can be done and the cost of it will be paid by the federal government over a two-year period.

The Chair:

And the taxpayers will pay for it.

Mr. Smith:

If the Planning Commission continues their program, somebody will have to pay for it.

Mr. Baskin:

You want this air conditioner, don't you?

Mr. Smith:

I asked for it for a couple of years.

Mr. Baskin:

You think it is required for your operation?

Mr. Smith:

General operation, yes.

Mr. Leslie:

You need it for the equipment there?

Mr. Smith:

Yes.

Mr. Baskin:

So the money we spend on equipment would benefit your program.

Mr. Leslie:

I repeat, I am not against air conditioning. I am against the way this thing was handled.

Mr. Counahan:

They didn't have time to give us a firm figure. I think that is the problem.

The firm figure may be a lot higher. I am of the opinion that the department that has had as much to do with it as anybody wasn't notified in time. That department is the Department of Lands and Buildings. I base that on the fact that they didn't have sufficient time to make a complete, thorough and comprehensive report of the situation.

Now, we have before us something that I don't think is in such a big hurry. I don't know what the commitments are, but when it comes down to air conditioning and its study I think a couple of weeks would help everybody concerned.

Mr. President, I would suggest we refer these bills back to Committee.

Mr. McCarthy:

Mr. Counahan, before you proceed with that action, I would like to make a few comments on this matter.

My understanding of this matter is that if we are going to have this done we have to act quickly. That was the purpose for holding these bills up until we could hear from Mr. Smith. I believe I am correct on this next statement. If not, please correct me. If we don't act quickly, we may lose the grant which the federal government is willing to give. Of course, this doesn't excuse the department for coming in late. But if we hold this over too long we may run into the problem of not getting the money to perform the function we want to perform.

I think Mr. Leslie is perfectly right in bringing up this matter of his department not having sufficient time to go into the problem further. And if we find that the cost is higher after we advertise for contracts, we shouldn't blame the Department of Lands and Buildings because they have done the best they could in such a short period of time. But unless Mr. Smith objects to it being done, or feels that it can't be done (and I didn't get that from his remarks), I don't think we should hold these bills up unless we are going to eliminate this project entirely. The problem of getting the money from the federal government is a big one.

Mr. Counahan:

I wouldn't want the money from the government if we couldn't use it on this particular equipment. And after all, the federal government's money is our money.

Mr. McCarthy:

I would agree with you.

Mr. Smith, in your opinion, can this be done without interfering with your operation?

Mr. Smith:

Yes, it can. I said that. We are increasing the capacity.

Mrs. D'Ascenzo:

Mr. Smith, in tabulating equipment, by additional attachments, does your department need this to expedite your work? Will this help your department in any way?

Mr. Smith:

There are two questions in your statement. We don't need it. If we have computers with more capacity and tape, our people would probably use it on some applications. We don't need tape in our equipment now because we don't have enough applications to justify that additional expense.

Mrs. D'Ascenzo:

Out of your Code Accounts comes \$25,000 to pay for these additional services—from August 1, 1963 to December 31, 1963. What happens after that? Does it have to be an official appropriation in 1964 added to the \$95,000 contract?

Mr. Smith:

It will be more than \$25,000. That only covers five months. The increase in 1964 will be based on twelve months. This is a condition I am not familiar with nor have any control over. It is between the Planning Commission and the federal government.

Mrs. D'Ascenzo:

Is there an appropriation from the federal government?

Mr. Hamilton:

Yes. The whole cost of this will be paid fully by the federal government, except for the air conditioning.

The Chair:

When was the appropriation made?

Mr. Hamilton:

It was contingent upon our getting the air conditioning.

The Chair:

When?

Mr. Hamilton:

April 1.

We made a detailed memo to the Mayor's office in December which outlined precisely what should be done. We sent a detailed memo outlining this February with Mr. Pyle, and we have memos in our office where we pointed out we needed air conditioning. We did everything in our power to make it clear what should be done. I don't think the blame should be put on the Planning Department.

The Chair:

If it is in the Mayor's office, the Mayor's office is at fault.

Mr. Hamilton:

We tried, members of Council, to inform everybody of what needed to be done. The reason the deadline occurred was because we had this deadline of August first. Nothing was being done to do the job needed to be done. We would lose the components to the computers and the money from the federal government. It was so urgent and, we think, extremely important because the City would be losing an important part of an innovation. And that is the reason we are attempting to do it.

Mrs. D'Ascenzo:

Following the use of the federal grant you now have, would you have to retain the new computers whether we used them or not?

Mr. Hamilton:

No. We have made this very clear. There will be no more expenses to the City if they don't want to use these tape units. We are convinced of the service it can do for the City, and that the City will save more money in the service our department can do for the City in these intervening years.

Mrs. D'Ascenzo:

In order to do what you want to do, you can only do it if the Treasurer's department permits you to add this machine to their existing machine for which they have a yearly contract?

Mr. Hamilton:

Yes. The City is spending \$95,000 a year. We are adding federal money to that. It allows City Planning to do their work at night, which is slightly modified, and allows the City's Treasurer's office to use the machines as they are doing now. There will be no conflict. We are enabling the City to get a lot more out of them.

The Chair:

The budget doesn't close until the end of the fiscal year. They are still good until the 30th of June, 1963.

Mr. Counahan:

We have one group who wants to use this machine and thinks it can be adopted for their use. We have the City Treasurer, who is familiar with the machine in operation now, stating in effect that we are trying to do too big of a job with this machine. What is the use of spending money on something that eventually won't work out?

Mr. Hamilton:

We are in complete agreement.

Would you not agree, Mr. Smith, that our work on your machine, with these changes, will not in any way interfere with your work?

Mr. Smith:

Yes.

Mr. Hamilton:

Secondly, the work we are doing can't be done without these additional facilities. We are trying to use what the City has, adding something to it. The entire total will allow Mr. Smith to do what he is doing and the Planning Commission to do what they want to do at night.

Mr. Counahan:

Your statement a little while ago was altogether different.

Mr. Smith:

My example was a little off. I didn't mean the equipment wouldn't be effective after being souped up. I went one step further. I said if the contractor of the machine were not permitted to increase the capacity of the computers we have in service now and the Planning Commission attempted to negotiate for the computers they need, it wouldn't be available for another year. That is one reason for their trying to get this thing worked out in connection with the Treasurer's office.

Mr. Jordan:

Is it correct that not only would it not be available, but we would be duplicating what is in your shop somewhere else? Which, of course, would cost more money.

Mr. Leslie:

If he couldn't use the one in Mr. Smith's office, the Planning Commission would do without it.

Mr. Baskin:

Mr. President, I think we have exhausted the subject. We found out the

experiment the Planning Commission is carrying on wouldn't cost us any money. Whether it works or not, nobody knows. If it doesn't, we have wasted some federal funds which the federal government says it is willing to risk. Also, Mr. Smith tells us that he will benefit from this.

I agree with Mr. Leslie that this was badly bungled by the various departments. I don't know where to put the blame. Since it is the program of the City Planning Department, I think they should have taken steps to bring this about and not put it on other departments. But I don't think this should hold up approval of the bills before us now.

Therefore, Mr. President, I move we have a question on the bills before us.

Mrs. D'Ascenzo:

Mr. Smith, this air conditioning as it is presently presented, would it be what you would like to have in your department?

Mr. Smith:

I have been informed that it would—the first floor and the balcony.

Mr. McCarthy moved

A suspension of the rule so as to allow the second and third readings and final action on the bills.

Which motion prevailed.

And the bills were read a second time and agreed to.

And the bills were read a third time and agreed to.

And the titles of the bills were read and agreed to.

And on the question, "Shall the bills pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—

Mr. Baskin
Mr. Counahan

Mrs. D'Ascenzo
Mr. Jordan

Mr. Kuhn
Mr. Leslie

Mr. McCarthy
Mr. Fagan
(Pres't)

Ayes 8. Noes none.

And a majority of the votes of Council
being in the affirmative, the bills passed
finally.

Mr. Kuhn moved

That the Minutes of Council of

Monday, June 3, 1963, be approved.

Which motion prevailed.

Mrs. D'Ascenzo moved

That Mr. Gallagher be excused
for absence from this Council meeting.

Which motion prevailed.

And upon motion of Mr. Jordon,

Council adjourned.

During the past several months the United Steelworkers of America, headed by David J. McDonald, and the Human Relations Committee, of which R. Conrad Cooper, Vice President of the United States Steel Corporation, was co-chairman, have worked out an agreement which will be beneficial to all parties concerned, and which agreement will be in effect until 1965.

This agreement was reached by the parties at interest as the result of the free exercise of collective bargaining, and was the means of an avoidance of a strike.

This agreement was concluded after many hours of patient, constructive, hard working efforts on the part of those participating in the negotiations, which provides many benefits for the thousands of workers in the industry.

Therefore, the Mayor and the members of Council of the City of Pittsburgh extend congratulations to David J. McDonald, President and his associates of the United Steelworkers of America, and to R. Conrad Cooper, representing the steel industry, on the early and amicable agreement that has been reached between these two great organizations. Under this agreement the welfare of the steel workers, the steel industry and the public are equally secured.

Also, that a copy of this resolution be sent to each of the respective individuals mentioned herein.

Frederick Bigger, who pioneered the work in city planning and which led to the adoption of the zoning ordinance of the City of Pittsburgh, died Monday evening, June 17, at the age of 82

Mr. Bigger was a native of Pittsburgh since 1914. He was an architect but remained in that field for only a few years before turning his energies to city planning. He joined the City Planning Commission in 1922 as a member, became Chairman in 1924 and served in that capacity until 1954.

Former Mayor David L. Lawrence called him "Pittsburgh's Mr. Planner".

In 1918 he helped organize a plan for Pittsburgh which was the forerunner of the Pittsburgh Regional Planning Association, and this Association plays an important role in our municipal planning in Western Pennsylvania.

Mr. Bigger during his life fought for better highways and playgrounds and many other projects that promote the well-being of the city.

For his work he received numerous honors and earned a national reputation as a planner, and in 1948 he was named by then President Harry S. Truman to serve on the National Park and Planning Commission in Washington.

In 1953 he was awarded a special citation by the Pittsburgh Chapter of the American Institute of Architects; was named a fellow of that Organization, and at various times served as President of the United States Institute of Planners. He served as consultant on development programs in other cities and as consultant for the Federal Agency in the field of housing, planning and natural resources. Some of the other governmental agencies he worked with included the Federal Emergency Administration, the Suburban Resettlement Administration, the National Resource Planning Board, the Federal Buildings Administration. He was also a member of the Art Commission of the City of Pittsburgh and the Pennsylvania Art Commission. Following his retirement from city planning he worked as consultant to the Pittsburgh Urban Redevelopment Authority.

Mr. Bigger was a mild-mannered man and was loved by all his associates and those with whom he came in contact.

Therefore, the Council of the City of Pittsburgh express their deep sorrow and heartfelt sense of loss which the death

of Frederick Bigger has brought to this community, whose greatness, whose confidence and whose progress is due, in a large measure, to his enlightened thought and courageous leadership.

Which was read.

Mr. McCarthy moved

The adoption of the resolution.

Mr. McCarthy:

Mr. President:

Mr. Bigger was one of the original members of the Planning Commission and was instrumental in drafting the Zoning Legislation of 1923. He served on this Commission for many years without pay. I know he was a man of simple means. He did a great deal in bringing about the progress of our Planning Commission, helping to bring it to the point where it now is. Therefore, Mr. President, I think it is fitting and proper that Council take cognizance of this great citizen of the City of Pittsburgh.

The Chair:

I am in complete accord with your remarks, Mr. McCarthy. Mr. Bigger was one of America's greatest Planners. He was recognized not only in the City of Pittsburgh and Commonwealth of Pennsylvania, but throughout the United States. President Harry S. Truman recognized his ability and appointed him a member of the National Park and Planning Commission in Washington.

There is no doubt that he was an outstanding Planner. He came to Pittsburgh in 1922 and helped to draft zoning legislation which was passed in 1923. He gave of his time, effort, energy and intellect. He is certainly a man we can all be proud of.

And the question recurring on the adoption of the resolution, the motion prevailed by a rising vote and a moment of silent prayer.

Mr. McCarthy moved

That the Minutes of Council of

Monday, June 17, 1963, be approved.

Which motion prevailed.

Mrs. D'Ascenzo moved

That Mr. Gallagher be excused

for absence from this Council meeting.

MOTIONS AND RESOLUTIONS

Mr. Jordon presented

No. 2131. Whereas, The City of Pittsburgh desires to file an application with the United States of America for an advance to provide for the planning of public works under the terms of Public Law 560, 83d Congress of the United States, as amended; and

Whereas, The City of Pittsburgh after thorough consideration of the various aspects of the problem and study of available data, has determined that the construction of certain public works, generally described as the construction of a multi-purpose sports stadium with parking and related facilities is desirable and in the public interest, and to that end it is necessary that action preliminary to the construction of said public works be taken immediately; and

Whereas, Under the terms of Public Law 560, 83d Congress, as amended, the United States of America has authorized the making of advances to public bodies to aid in financing the cost of

engineering and architectural surveys, designs, plans, working drawings, specifications, or other action preliminary to and in preparation for the construction of public works; and

Whereas, The City of Pittsburgh has examined and duly considered such Act and considerations to be in the public interest and to its benefit to file an application under said Act and to authorize to the action in connection therewith;

Now, Therefore, Be It Resolved,

1. That construction of said public works is essential to and is to the best interests of the City of Pittsburgh, and to the end that such public works may be provided as promptly as practicable, it is desirable that action preliminary to the construction thereof be undertaken immediately;

2. That the City of Pittsburgh is hereby authorized to file an application (in form required by the United States and in conformity with said Act) for an advance to be made by the United States to the City of Pittsburgh to aid in defraying the cost of plan preparation for the construction of a multipurpose sports stadium with parking and related facilities, which shall consist generally of:

The architect-engineers (consultants) shall furnish complete architectural and engineering services as required for the final planning, surveys, design, preparation of working drawings, construction specifications, construction cost estimates, and contract documents for construction of the proposed 55,000-seat stadium and the development of the stadium site. The design shall be based on the preliminary plans and specifications prepared by the architect-engineers for the project, and the service shall include participation in necessary conferences for the implementation of the approved scheme of the Stadium Project.

The architect-engineers shall supervise the making of test borings and test pits necessary for the design, and they shall perform the field surveys as required for the design of the project.

3. That if such advance be made, the City of Pittsburgh shall make the necessary arrangements to provide such

funds in addition to the advance, as may be required to defray the cost of the plan preparation of such public works;

4. That William F. Clair, Director of the Department of Supplies of the City of Pittsburgh is hereby authorized to furnish such information and take such action as may be necessary to enable the City of Pittsburgh to qualify for the advance;

5. That William F. Clair, Director of the Department of Supplies of the City of Pittsburgh is hereby designated as the authorized representative of the City of Pittsburgh for the purpose of furnishing to the United States such information, data and documents pertaining to the application for an advance as may be required; and otherwise to act as the authorized representative of the City of Pittsburgh in connection with this application; and

6. That certified copies of this resolution be included as part of the application for an advance to be submitted to the United States.

Which was read.

Mr. Counahan moved

The adoption of the resolution.

Mr. Kuhn:

Mr. President:

I intend to vote against these resolutions for the following reasons: My opposition to the stadium is well known. Independently of that, my opposition to these resolutions flows by reason of the fact that one of them expresses our intention to acquire the land and the other to undertake to have further architectural work done on this structure, with the government providing the funds for this.

Never before has the government provided the money to such an extent as we are asking here. This is an unprecedented large grant for its purchase, and the likelihood of its being granted is reduced. That being so, if we are to proceed with the stadium and buy this land, we may end up having to pay up

out of our operating revenues for a structure that may ultimately be priced out of the field entirely.

For that reason I would oppose both of these resolutions.

Mr. Baskin:

I think Mr. Kuhn recognizes that we are not required to pay any fees of any type. This is the first step for requesting funds for architectural plans. The other resolution is simply an expression of intent, which doesn't legally bind the City to purchase anything at this time. I think his fears are groundless. As I said before, there is no commitment by the City of Pittsburgh at this time.

And the question recurring on the adoption of the resolution, the motion prevailed. (Mr. Kuhn voting No.)

Mr. Jordon also presented

No. 2132. Whereas, the Planning Commission of the City of Pittsburgh on November 10, 1959, approved the Lower North Side as the site for a new municipal sports stadium; and

Whereas, The Planning Commission of the City of Pittsburgh on November 30, 1961, certified an area of approximately 84 acres in the North Side as blighted and in need of redevelopment, and such development be known as Redevelopment Area No. 16—North Side Stadium Renewal Project; and

Whereas, The Planning Commission of the City of Pittsburgh on December 21, 1961, recommended to City Council rezoning the project area for stadium use; and

Whereas, The Planning Commission of the City of Pittsburgh in November of 1962 completed the preparation of the redevelopment area plan for the project area and proposed that the major land use be a sports stadium with related parking and access roads; and, further, the Planning Commission has certified that the redevelopment area plan is in conformance with the City's comprehensive general master plan; and

Whereas, The Urban Redevelopment Authority of Pittsburgh by resolution of

June 7, 1963, authorized the submission of a loan and grant application for Federal assistance under Title I of the Housing Act of 1949 (as amended), and such action has been taken for and behalf of the City by the Urban Redevelopment Authority in order to acquire and redevelop the project site; and

Whereas, The Board of Commissioners of Allegheny County by resolution of May 14, 1963, agreed to provide a grant of \$5,745,000 to the Urban Redevelopment Authority, over a three-year period, to assist in meeting the local contributions required by the Title I application of the Urban Redevelopment Authority; and

Whereas, The City in its 1962-1967 schedule of cash contributions to the Urban Redevelopment has programmed the funds required to meet its share of the local contributions, such schedule including funds for purchase of the site for the proposed stadium and related public improvements; and

Whereas, The Baltimore and Ohio Railroad, chief present owner of the site, by letter of June 5, 1963, to the Urban Redevelopment Authority, confirmed that it is willing to sell 52.7 acres of the 84-acre site to the Urban Redevelopment Authority at a mutually acceptable price, and whereas the railroad holdings is the precise location of the new stadium structure; and

Whereas, The preliminary plans of the stadium structure, prepared by the Public Auditorium Authority of Pittsburgh and Allegheny County, were approved by Resolution No. 11 of City Council, approved January 23, 1962;

Now, Therefore, Be It Resolved, That the Council of the City of Pittsburgh expresses its intent to have the City, or its legal agents, by means of the financing procedure and financing assistance recited above, and pursuant to the satisfactory conclusion of negotiation with the present owner(s), purchase the site for the proposed stadium structure, parking area and related public improvements at such time as this action is required in order to proceed with the construction of said facilities which are to be designed with a planning advance for final construction drawings now be-

ing sought from the Community Facilities Administration of the Housing and Home Finance Agency.

MOTIONS AND RESOLUTIONS

The Chair presented

No. 2314.

Pittsburgh,

September 9, 1963.

To the President and Members
of City Council,
Pittsburgh, Pennsylvania.

Gentlemen:

I do hereby tender my resignation as a member of Council of the City of Pittsburgh effective at the close of business on Monday, September 9, 1963.

Respectfully yours,

Charles D. McCarthy.

Which was read.

Mr. Baskin:

Mr. President, it is with mixed emotions that I rise to move the acceptance of this resignation.

Mr. Counahan:

Mr. President, I second the motion.

The Chair:

Members of Council:

Mr. McCarthy has been in Council for a number of years and has been connected with the City administration since the Democrats have been in power. We regret that we are losing him, but our loss will be the County's gain.

Are there any remarks on the motion?

Mr. Baskin:

Mr. President:

As I stated, it was with mixed emotions that I moved to accept Mr. McCarthy's resignation. We are all very pleased that he is being elevated to the position of judge of the County Court of Allegheny County. On the other hand, I think we all recognize that we are losing a member of Council who has been a mainstay here and who has been a source of countless support to each one of us.

Charles McCarthy has demonstrated through years of public service a loyalty not only to the Democratic party but also to all of the people of the City of Pittsburgh. He has been unfailing in his courtesy and good humor. He has a great deal of common sense and sound judgment. He has shown an awareness of problems not only on a financial basis but also on a human basis. The qualities he has disclosed in Council will serve him equally well as a judge and the public is fortunate to have the benefit of his experience, knowledge and temperament.

I feel that I was particularly fortunate that my first two years on Council were served with Charles D. McCarthy so I could see and observe what he was doing, and learn from him. I know that every one of us, although we really regret that he is leaving, want to wish him the best of luck and assure him that he has our

warmest regards and, indeed, our affection.

The Chair:

Members of Council:

The Honorable Joseph M. Barr, Mayor of the City of Pittsburgh, has been called to Washington, D. C. on an assignment. He has asked me to read this statement:

I view the resignation of Charles D. McCarthy from City Council with mixed emotions.

Naturally, I am pleased as are all his friends and admirers—of his appointment as a Judge of the Allegheny County Court.

But believe me, I am sincerely sorry to see him leave the City's legislative branch.

In Council, as in every public position he has held, Charley was a stalwart. His common sense, his fairness, his unswerving courtesy and warm disposition will be sorely missed in the chambers of City Council.

Too often, the role of City Council in the program and progress of this City has been overlooked or denigrated. I repeat today what I have so often said before. Not one single Renaissance project from smoke control to urban renewal would have been possible without the action and affirmation of City Council.

Charles McCarthy typifies the kind of constructive and progressive thinking we have come to expect from City Council—and perhaps take too much for granted.

As Mayor, I can only say thanks to Charley McCarthy for the more than two decades of responsible service to the people of Pittsburgh as a municipal employee and public official.

At the risk of embarrassing him, let me state publicly, I wish we had 6,000 more like him.

The Chair:

The Chair now recognizes Councilman McCarthy.

Mr. McCarthy:

Mr. President and Members of Council:

I was going to bore you with a long oration on my resignation. Since that has already been taken care of, I will just say a few words.

I just want to say this is a sad and a happy day for me. Sad because I am going to leave these familiar surroundings which I have known for many years. I have been a member of this Council which I enjoyed very much for more than five years.

I do want to say I worked with the finest people in Pittsburgh who serve here in Council, both serving now and former colleagues who have preceded me to the bench. I don't think any period of my life has been more enjoyable than the period I served in this Council. I certainly hate to leave here.

Of course, I am happy for the opportunity to go to court and serve as Judge of County Court. I am looking forward to that. It is going to take place on Friday, September 13, 1963, at 4:00 P.M. Of course, everybody here is invited to be there.

The Chair:

Thank you, Charley.

It is a joy for McCarthy, his family and friends that he has been appointed to serve as a Judge of County Court. And, naturally, here in Council that joy is tinged with sadness, Charles, on your departure.

We have had your friendship for over the past five years. We have had it before you ever came into Council, when you were secretary to the Mayor, Director of Supplies, and when you worked in other departments where you served so capably. You are a very competent man. There is no doubt that you are a dedicated public official. We know you will make good as County Judge. We are going to miss you here in Council. In the final analysis, we haven't even voted yet whether we are going to accept your resignation. So you might have to stay with us.

As I look back over the years, City Council has produced a lot of judges for Federal Court, Common Pleas Court, Orphans Court, and Juvenile Court. Now we are losing one of our members to the County Court, which is also an important court.

It is regrettable, Charley, that after all the training that Gallagher, Counahan and I gave you, you are leaving us. Of course, Jordon, Baskin and Leslie haven't been here as long as the rest of us, but we have all been through a lot of things in the past twenty years; haven't we, Charley?

Mr. McCarthy:

That's right, Mr. Fagan.

The Chair:

You have been a great asset to the administration. The administration regrets your departure the same as the members of City Council. Of course, you can always come back to see us. We hope none of us ever have to appear before you. If we do, we might be in trouble.

It has been both a joy and pleasure to work with you. I hope you will have great success as a Judge of County Court. We hope that you will have a long, happy, healthy and prosperous life. Good luck to you and God bless you.

Mr. McCarthy:

Thank you, Mr. President, Thank everybody.

And the question recurring on the adoption of the motion that the resignation be accepted, the motion prevailed.

The Chair announced the appointment of Mr. Baskin as Chairman of the Committee on Finance.

Mrs. D'Ascenzo moved

That the appointment by the President of Council of Mr. Baskin as Chairman of the Committee on Finance be confirmed.

Which motion prevailed.

The Chair announced the appointment of Mr. Leslie as Chairman of the Committee on Filtration and Water.

Mr. Counahan moved

That the appointment by the President of Council of Mr. Leslie as Chairman of the Committee on Filtration and Water be confirmed.

Which motion prevailed.

Mr. Counahan:

Mr. President:

I rather think sometime ago we made a commitment to a group of ladies that appeared before us with regards to our bills of importance; that they would be held over for one week. A program has been worked out to the satisfaction of everyone concerned. I don't know whether any of the bills here today come under that category or not. I imagine there are some.

Since we have agreed to that program, I think we should inaugurate that right now. We will have our regular Committee Meeting tomorrow. If there are any bills of a controversial nature, they should be held over until next Tuesday.

The Chair:

The Chairman of the Committee on Finance will be so instructed. Of Course, if any member of Council wishes to raise a question concerning any bill to be held over, he may do so.

Mr. Counahan:

I don't know the exact wording of the agreement, but it should be lived up to.

The Chair:

That's right. We agreed that when we convened in September we would institute this new program.

Mr. Baskin:

Mr. President, I have only one modifi-

cation to make on the statement Mr. Counahan made. I think the understanding is that we hold up all bills except those of an emergency nature. The only thing we would take action on would be those bills which we feel should be passed without immediate delay.

As I further understood it, the newspapers had agreed with the civic organization that suggested this procedure that they would publicize the bills that had been introduced and would be considered next week so that anyone who wanted to bring a matter to the attention of Council would have an opportunity to do so.

Mr. Counahan:

I stand corrected, Mr. President. That is the procedure we agreed upon.

The Chair:

Does the agreement with the fourth estate still stand, Mr. Artis?

Bryant Artis, Pittsburgh Press:

I haven't been informed of it, Mr. President.

Joseph Browne, Pittsburgh Post-Gazette.

We are going to run a schedule.

Mr. Leslie moved

That the Minutes of Council of Monday, August 5, 1963, and of Friday, August 9, 1963, be approved.

Which motion prevailed.

Mr. Baskin moved

That Council recess until Wednesday, September 11, 1963, at 2:00 o'clock, P.M. (E.S.T.).

Which motion prevailed.

And Council recessed.

Pittsburgh, Pa.

Wednesday, September 11, 1963.

The hour of 2:00 P.M. (EST) having arrived and the time of the recess having expired, Council reconvened, and there where present:

Mr. Baskin	Mr. Jordon
Mr. Counahan	Mr. Kuhn
Mrs. D'Ascenzo	Mr. Leslie
Mr. Gallagher	Mr. Fagan
	(Pres't)

The Chair:

Let me say this for the information of those who are in attendance here this afternoon for the election of a member of City Council to fill the unexpired term of Charles D. McCarthy, that His Honor the Mayor, Joseph M. Barr, is privileged to participate in the election and vote for his choice of the candidate to fill the vacancy in City Council.

We are honored this afternoon by the presence of the Assistant Pastor of Holy Family Church of Lawrenceville, who will deliver the invocation. He is a dear friend of a man who is a candidate for this office.

I am happy to present the Reverend Stanislaus J. Jozwiak.

Rev. Jozwiak:

O Gracious Father, we implore Thy divine assistance as we gather here this afternoon, humbly acknowledging our dependence upon Thee for guidance. Teach us, O God, that the roads to earthly happiness and to eternal life are one and the same road. For the only true happiness is in Thee.

We humbly beg for understanding, that Thy grace may so mold our lives that we may be an example for good to our associates, and influence for the betterment of our community.

Guard us from the errors of human misunderstandings and weakness. Let the beauty and the wisdom of Thy holy presence guide every thought, and word, and action of this honorable assembly, and may its deliberations be a manifestation of Thy eternal law.

May the divine assistance remain with you and your newly appointed member, through Christ our Lord, Amen.

The Chair:

Thank you, Father, for the beautiful prayer.

The Chair is now ready to receive nominations for the election of a member of Council to fill the vacancy caused by the resignation of Charles D. McCarthy.

The Chair now recognizes Councilman Philip Baskin.

Mr. Baskin:

Mr. President:

I would like to place in nomination the name of Walter T. Kamyk.

As you know, we had a vacancy created by the resignation of Charles D. McCarthy. He has been elevated to the judgeship of the County Court of Allegheny County. As we said when we accepted Mr. McCarthy's resignation, he has been a very able member of Council and we will miss him sorely.

It was, therefore, most important that we have a replacement equal in caliber to that of Mr. McCarthy. I think in Walter Kamyk we have a man who can bring to this Council the same kind of experience that Mr. McCarthy had in the years he was with us.

Mr. Kamyk has been a Legislator in the State Legislature for at least 18 years. He is very experienced not only in legislative matters but he knows the affairs of the City of Pittsburgh very intimately. I think there is no election to City Council that we have had in past years that has aroused such popular support and interest as the information that Mr. Kamyk would become the successor to Mr. McCarthy. I think the throng that is here in this room attests to the popularity of that choice.

We have here not only his family and his friends but the people who have worked with him in the State Legislature. We have here, also, our friends from across the street in County government, the County Commissioners, Dr. McClell-

land and John McGrady, District Attorney Edward C. Boyle, County Controller James Knox, the Register of Wills, Rita M. Kane and Prothonatary David B. Roberts, which shows the interest that all of us have in this successor to Mr. McCarthy.

Therefore, it is with much pleasure and gratification that I nominate Walter Kamyk as successor to Mr. McCarthy.

The Chair:

Thank you, Mr. Baskin.

The Chair now recognizes Councilman J. Craig Kuhn.

Mr. Kuhn:

Mr. President:

I take great pleasure in seconding the nomination which Mr. Baskin has made. In doing so, I want to express personally my regrets in Mr. McCarthy leaving us, as I was unable to be at our meeting when his resignation was presented the other day.

It is a matter of gratification to me to second the nomination of Walter Kamyk, because of all of the members of the Legislature from the City of Pittsburgh I think there has been no one who has been as keenly aware of the problems of the citizens and residents of this City in all respects. No one has worked so sincerely for all the many problems, including especially those of education of the young. And though no one has worked more sincerely than Mr. Kamyk, he brings to this body a knowledge of the needs of the citizens and of the work that is necessary for them in the laws that are passed in our General Assembly in Harrisburg that I know will be of great value to us.

I personally look forward to serving with him, and I am very proud to second the nomination.

The Chair:

Thank you, Mr. Kuhn.

Are there any further nominations?

Mayor Barr:

Mr. President, Members of Council, Father Jozwiak, Members of the General Assembly, distinguished public officials from the Court House:

You know, to live with a person is to know him. I had the happiness of serving in Harrisburg in the Legislature with Walter Kamyk. From there I was able to observe Walter Kamyk as a man, Walter Kamyk as a family man, and Walter Kamyk as a Legislator. It was my deep conviction that Walter's knowledge of city government from the many years he has spent in the office of the City Controller Edward Frey, the keen interest he took day in and day out as the president or leader of our delegation in Harrisburg, that he knows more than any other member of Council when they came into Council because he has had this background.

As you know here in County government and City government, many men of the House and Senate have been elevated to public office within the City and County. I don't think any had more background than Walter.

I say to you, Walter, and your family—and I think I am speaking for all the members of City Council—how happy we will be to have you with us.

I would like to say of Charley McCarthy, as I said yesterday in the public press, that I don't think there has ever been a more sincere public servant, one who gave more of his time and talents—and I am positive I am speaking for everyone in this room—that they are happy to see Charley elevated to the County Court.

In conclusion, Mr. President, I also wish to second the nomination.

The Chair:

Thank you, Mayor Barr.

Mr. Counahan:

Mr. President, I move that the nominations close on the name of Walter T. Kamyk.

Mr. Jordon:

I second the motion, Mr. President.

And the motion prevailed.

The Chair:

The question is on the election of Walter T. Kamyk to be a member of Council to fill the vacancy for the unexpired term of Charles D. McCarthy.

The Clerk will call the roll on the name of Mr. Kamyk.

And the result of the voting was as follows:

For Walter T. Kamyk:

Mr. Baskin, Mr. Counahan, Mrs. D'Ascenzo, Mr. Gallagher, Mr. Jordon, Mr. Kuhn, Mr. Leslie, Mr. Fagan (Pres't), and Mayor Barr.

And Mr. Kamyk having received all of the votes of the members of Council and the Mayor, is duly elected to fill the vacancy in Council caused by the resignation of Charles D. McCarthy, in accordance with the Act of Assembly, approved May 31, 1911.

The Chair:

I appoint Messrs, Counahan and Leslie escort the member-elect, Walter T. Kamyk, to the Council Chamber.

(The committee returned, escorting Walter T. Kamyk, who was presented to the President of Council.)

The Chair:

The committee is discharged with the thanks of Council. The oath of office will be administered to Walter T. Kamyk by Honorable John G. Brosky, Judge of the Court of Common Pleas of Allegheny County. Judge Brosky.

Judge Brosky:

President Fagan, Members of Council, Reverend Father Jozwiak, Mayor Barr, Public Officials, Ladies and Gentlemen:

Before administering the oath of office to my close, personal friend, The Hon. Walter Kamyk, I wish to express my sincere gratitude in having been given

this cherished privilege on this memorable afternoon for Walter, a dedicated public servant, who will soon join you members of Council, equally dedicated public servants of the City of Pittsburgh.

Much praise could be given Walter at this time but I am always mindful of an essay by Roger Bacon in which he says "The odor of appointments is more durable than those of flowers. Too much magnifying of a man doth irritate contradiction and procure envy and scorn."

Let me briefly say, however, that Walter Kamyk, in coming to City Council, brings with him years of experience in the field of Government, sincere convictions, keen understanding and judgment most beneficial to the performance of his duties as a Councilman. For a politician he is one of the most humble men I have ever met.

His service to the people goes back some thirty years when as a graduate from Duquesne University he entered political life and was elected constable of the Ninth Ward in 1939. His activities in the community are many and varied. His great interest centered on those activities pertaining to the culture, the heritage and education of Americans of Polish descent.

In this area he has served as President of the Western Division Polish American Congress and President of the Central Council of Polish organizations in Allegheny County. He has never forgotten the cause of veterans who served our country, as he, himself, has done in World War II. In 1948 and for six terms thereafter he was elected and re-elected to the House of Representatives, serving most recently as Chairman of the Democratic Delegation from Allegheny County. Many important Legislative Bills have been sponsored by Walter not only for the people of the City of Pittsburgh, but for the Commonwealth of Pennsylvania. A devoted family man, he lives with his wife and three children.

Being a deeply religious man, I know Walter, in your heart you must be thanking God for the gift of good life that has come to you and your family, for your talents and abilities, for your many fine friends, for the opportunities and challenge received through many years in political office, and especially

now, as a Councilman-to-be, investing your future in the common good that comes through enriching others by your wisdom, understanding and good judgment carried out in your usual manner of high performance, with dignity, sincerity and humility for the growth and progress of Pittsburgh as a city and for Pittsburgh as a good place to live and work. As I congratulate you, Walter, in the presence of your wonderful wife and children, Legislators who have come from all parts of the Commonwealth to be with you today, in the presence of your many friends of the various Polish organizations, in the presence of this distinguished body of Councilmen, I offer you this thought:

Do not pray for tasks equal to your powers, but pray for powers equal to your tasks. May your minutes, days, months and years give you a good life of health and happiness serving our people in this wonderful City.

The member-elect, Walter T. Kamyk, took and subscribed to the oath of office, which was administered to him by Honorable John G. Brosky, Judge of the Court of Common Pleas of Allegheny County.

The Chair:

Reverend Father Jozwiak, Mayor Barr, Members of Council, County Commissioners of Allegheny County, Members of the Legislature, Ladies and Gentlemen:

We are all delighted that Council has made a wise selection in the person of Walter Kamyk. He has been extolled by the man who nominated him, Philip Baskin, and by J. Craig Kuhn who seconded the nomination, also the Mayor of the City of Pittsburgh, Joseph M. Barr.

We are happy that his mother and father, his lovely wife, devoted daughters and relatives and friends are here today. I think there are more people here this afternoon to see Walter elected than there was at the inauguration of President Kennedy.

It is delightful to know that we have, in our wisdom, selected a man who has so many friends and followers. This is all due to his years of service in the

General Assembly of the State of Pennsylvania. He has been an outstanding Legislator. He is a man who has been admired by his friends and respected by his opponents. Everything he did, he did in the best interest of all of the people of the Commonwealth of Pennsylvania. He has an outstanding record in the General Assembly and there is no doubt that he is going to contribute greatly to the wisdom, knowledge and courage that it takes to be a member of the Council of the City of Pittsburgh.

I remember the time when I was sworn in as a member of Council. After I had taken the oath of office, I said, "Now that I have been sworn in, the time has come when I can be sworn at," and there is no doubt that I have been. I also recall the words of my late father (of happy memory) when I became affiliated with organized labor. He said, "If you don't have the hide of a rhinoceros, don't take the job." And you have to have that kind of hide to be a member of Council, in fact any public office.

We have a man here who is honored, revered and respected because of the wonderful service he has rendered as an outstanding, dedicated public official. As President of Council and on behalf of the members of Council, I am delighted to welcome Walter as a member of Council. And I hope that all of you here this afternoon will go out on the 5th day of November, 1963, and get another fellow to vote for him, and there will be no doubt that he will have another four-year term as a member of Council.

Good luck and God bless you, Walter.

Mr. Kamyk:

Mr. President of our City Council, Reverend Father Jozwiak, Mayor Barr, Commissioners McClelland and McGrady and other County officials, my former boss City Controller Edward R. Frey, officials of the City of Pittsburgh, my colleagues on City Council, my former colleagues of the State Legislature from Allegheny County and other counties:

I am especially proud of my colleagues in the Legislature, particularly in this session, because they have made a won-

derful record in the Legislature for themselves in defending the City against various harassments—and those things happen in the Legislature, too. I would like to say that we are the defenders of our administration in the City of Pittsburgh.

Now, I want to say that I am speaking to my parents, my dear wife, my daughters, my brothers and sisters, my nephews, especially that little one there who is already beginning to applaud, my other relatives of whom I see many, my friends from the 9th Ward, including the Ward Chairman Charles Haloran, fellow employees from the City Controller's office, my friends all, ladies and gentlemen.

It isn't easy to speak on an occasion such as this, for your heart is filled with joyful emotion; your mind sometimes gets a little blunt because of this emotion; your lips sort of quiver and your knees shake. However, I will admit that I enjoy all of this. If I didn't admit it, I wouldn't be telling the truth. But at the same time I wonder how much I deserve it.

Some people ask me, "Walter, why do you want to get into City Council?" because I have been wanting to get into Council for a number of years. They want to know why I want to get into Council because the Legislators' pay is getting better and better. However, ladies and gentlemen, the Legislature is the highest law making body in the Commonwealth of Pennsylvania. In my opinion, a Legislature should have an office with dignity, and that should also include pay. Legislators have more responsibility today than they did years ago. In defense of my former colleagues, I will say that they are not overpaid.

Now, I would like to tell you why I

wanted to be a Councilman. I will read you a short paragraph from my letter of resignation which I sent to Speaker Hill. It is the third paragraph of the letter. It reads as follows:

"Mr. Speaker, it is not an easy task to leave the wonderful members of the House. However, I always wanted to give most of my time to the city I love so much—Pittsburgh."

(At this time Mr. Kamyk introduced to those in attendance the members of his immediate family, together with other relatives and friends.)

Ladies and Gentlemen, in conclusion I would just like to say that as a Councilman I will conscientiously strive to perform my duties to the citizens of the City of Pittsburgh to the best of my ability.

I thank you very kindly for attending.

The Chair:

The Chair now announces the appointment of Mr. Kamyk as Chairman of the Committee on Lands, Buildings and Housing.

The Chair also wishes to announce the appointment of Mr. Leslie as a member of the Board of Trustees of Carnegie Library of Pittsburgh.

If there is no further business to come before the meeting, the Chair will entertain a motion to adjourn this meeting.

Mr. Kuhn moved

That Council adjourn.

Which motion prevailed.

And Council adjourned.

CERTIFICATE OF EMERGENCY

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, John A. Murphy, Director of the Department of Water, in letters dated September 3, 1963, addressed to the Mayor and City Controller, has stated that on January 7, 1963, the Pennsylvania Public Utility Commission issued an order increasing the water rates of the South Pittsburgh Water Company, thereby increasing the water charges due from the City of Pittsburgh to the South Pittsburgh Water Company for the balance of the year 1963; and

Whereas, In order to meet these increased charges an emergency appropriation of \$145,000 is required to Code Account No. 1702, Water Rents; and

Whereas, Such appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, Joseph M. Barr, Mayor of the City of Pittsburgh, and Edward R. Frey, Controller of the City of Pittsburgh, do hereby certify to the Council of the City of Pittsburgh the existence of an emergency requiring the appropriation of the sum of \$145,000 to Code Account No. 1702, Water Rents, to pay the increased water rate charges ordered by the Pennsylvania Public Utility Commission in favor of the South Pittsburgh Water Company for the remainder of the year 1963.

Mr. Jordon:

Yes. We are being asked to take them over to be public streets. I discussed

this with the Director of Planning. He feels it would be in the best interest of the City to have these as public streets rather than private streets because of the problem of maintenance and the division of the ownership abutting them. He feels it would be a better plan for the City to have them as public streets and maintain them as such.

Right.

Which was read.

Mr. Jordon moved

The adoption of the resolution.

Which motion prevailed.

Mr. Jordon:

Mr. President: I have a comment I would like to make, if I may.

I have before me the annual report of the Regional Industrial Development Corporation. I also have a copy of an article which appeared in the Post-Gazette entitled "1500 Jobs Credited to RIDC." The article states that 800 jobs were created and some 700 jobs were saved.

I wish to congratulate RIDC and its President, Robert Ryan, and Dr. Weidlein, Director of the Industrial Development Fund of RIDC, for the fine job they have done in creating 800 new jobs and saving 700 jobs by making 22 loans totaling \$2,194,540 in the nine counties which it serves. This activity will go a long way toward establishing the new economic basis in this area. I think it is absolutely necessary that this work

continue and even become accelerated. We can no longer rely on the metals industry to supply the jobs it once did. No longer will our fathers, brothers be able to go to the mill and earn a living without some technical training.

I also congratulate the Mayor for appointing a coordinator to coordinate the retraining activities. It is necessary that the people know what courses are offered, and that we have as little duplication as possible, and that we provide the courses that are necessary to enable people to work in these new industries we are talking about. I hope the amendments proposed by Congressman Elmer Holland in Washington will provide more for those who are now ineligible to engage in our manpower activities, to have preliminary training at government expense, and also a new one to enable our high school graduates to participate. Presently, they can't because they haven't had work experience, and the bill requires that they have work experience.

However, I must go on record, gentlemen, saying that I am not at all satisfied with these results. As one Pittsburgher, I am not satisfied with what we are doing in the City to meet this problem. I am not fighting with anyone. I am only concerned with the large number of people of this City who are unemployed and cannot get jobs.

As James Reston said when he was here last year, we have almost begun to accept unemployment as a way of life. We have become accustomed to it. In 1961, in a four-county area, the State spent 100 million in unemployment compensation and 37 million for assistance. In other words, our total unemployment bill was \$137 million for the year 1961. This is a far cry, in my opinion, from lending two million dollars for establishing new businesses.

The Vocational Education Committee found that very few companies in this area forecast an increase in their employment over the next ten years. In addition, even the construction brought about by Urban Renewal does not benefit as many people locally as we think. I have seen a study showing that at least 50% of the construction workers are brought here from out of town by the contractors.

Gentlemen, may I re-emphasize that the work of the RIDC is extremely important and must continue. The Mayor's Committee on Economic Development, of which I was chairman, recommended that it be reorganized and helped in every way possible to bring this about. But this program is long range. We are looking five and ten years ahead. I say we must also have more activity now. We must have more of the various institutions of segments of our community become excited and concerned about the problem. We must mobilize the community. Labor, business and the rest of the community must join government to develop action programs. We cannot, as we have been doing, leave the entire problem to RIDC or the Oakland Corporation to solve. Local government must become much, much more active.

In closing, I, just as one citizen of Pittsburgh, say I am not satisfied with what we are doing to cope with this problem. I don't have the answers any more than anyone else. But I am willing to work at a solution. I don't think the problem will solve itself. We cannot let George do it, or the RIDC or the Oakland Corporation, and just sit back and wait for it to be solved.

I think one thing that should be explored is the possibility of having local government, through the establishment of some vehicle, perhaps an authority, conduct a combination training-work program. Where possible the training could be combined with out already established retraining programs. Then, in the afternoons people could be put to work performing functions which are needed in our communities and which are not being done presently. These people would be paid for their efforts until they can be placed in one of these new jobs as they become available.

I don't think it is a public works program. It is the only way, in my opinion, to put large numbers of people to work right now, providing a means for establishing new business, particularly the kind of businesses that must be established in this area, the kind the Oakland Corporation is trying to bring into this area. Even if they are successful in bringing them in, the people who are able to work in them are not the people who formerly worked in the steel

mills. There will be again people brought out of the city to man these businesses. We must train our people and we must find some way of letting them work today and not think just in terms of five or ten years from now. This government must assume this responsibility.

There is a question of whether we can raise this money by the raising of bonds. We raised millions of dollars for urban redevelopment. I think we can also raise millions of dollars to put our people to work so they can take advantage of these new facilities and these new homes that our Planning Commission and Redevelopment Authority are showing us.

I repeat, I am not fighting with anyone. I can't sit here without expressing an opinion. I think we must do more and must recognize the problem. I said it before that I think local government must take a more active interest in this and must take leadership. I don't think the private sector is geared to do this. RIDC is not geared to provide the employment opportunities needed. I think that we in the City must find the funds to do this. We must do this not by just subsidizing people but giving them an opportunity to help themselves, and paying them at the same time they are receiving this training.

I plan to say more about this kind of thing from time to time. There is a group of us who are working on some plans. I hope we can find some approach to this. When it is ready, it will be presented.

Mr. Leslie moved

Mr. Baskin:

Mr. President: One of the bills we have introduced today calls for the expenditure of approximately \$7,300.00 for an actuarial study of the effect of recent legislation on the pension benefits for widows of firemen and policemen.

Now, the purpose of this bill is to provide Council and the Mayor's office with an equitable and fair study of the re-

sults of this legislation. In short, how much will this cost the City of Pittsburgh in the future? How much would it take if we were to fund it in a proper manner? Now, these are questions to which we should have the answers when we consider these as part of our budget problems this year and in subsequent years. For that reason I am hopeful this will receive the affirmative vote of Council, and I am sure that it will since all the members of Council have expressed to me their desire to have this knowledge available to us so we can make an intelligent decision on the problem when it comes up.

The Chair:

Thank you.

Mr. Kuhn:

Mr. President, I would like to add only this to what Mr. Baskin has said, that the first part of this, which involves the cost of these amendments which were made by the State Legislature, comes, unfortunately, too late for the light that would have been shed by this to have shown in Harrisburg at the time when it was in consideration then. This is one of those instances where the Legislature is prompted to expend the taxpayers' money in the City of Pittsburgh without necessarily having the adequate clarification that we might be able to obtain if we had the study that we are here going to have. Also, the portion of this which will give us the information about the cost of funding not only the police and firemen's pension fund but also the municipal employees' pension fund, I think, will be of value to us.

I don't think there is any doubt that to put these funds on a sound actuarial basis will cost us more money than we foresee the possibility of having to expend for these purposes. It is only a matter of time before we will have to do this. The nonactuarial funds we have been living with over these years and appropriating out of current operating expenses to support annually are just too much of an expense for what the benefits are for the employees. It is only a matter of time until we are going to have to put these on a firm actuarial basis.

I think the light we get from the study as to that cost should be kept in our minds, not only in this budget session coming up this year but future years as well. I hope it won't be too many years before we can put this on a firm actuarial basis.

UNIVERSITY OF PITTSBURGH
Pittsburgh 13, Pennsylvania

Lawrence L. Monnett, Jr.
Assistant Chancellor
Business Affairs

17 October 1963

Mr. George Boxheimer
City Clerk
510 City-County Building
Pittsburgh 19, Pennsylvania

Dear Mr. Boxheimer:

This is in reply to your letter of 15 October 1963 concerning parking in connection with Bill No. 2435 for the enlargement of the Physical Education Building of the University of Pittsburgh. The extension of the Physical Education Building in question is part of the overall Urban Redevelopment Area 8 project, which has been approved by the City Planning Commission and the City Council.

As stated in the Conditional Use Application, the construction of the Playing Fields will provide thirty-two (32) permanent parking places and an area of 107,250 square feet, which can be used for special events parking. This area would provide parking for more than 400 automobiles. These additional parking facilities are being constructed by The General State Authority in connection with the Playing Fields Project in Urban Redevelopment Area 8. The construction of these playing fields requires thorough coordination with the work to be done by the City in connection with the rerouting of Robinson Street. These details have all been worked out, and it is understood that the City has gone out for bids on their part of the work. The construction of the Playing Field areas themselves and the parking which will be embodied therein will be accomplished by The General State Authority. The General State Authority has funds available for

this construction, the plans are substantially complete, and there is no reason why they should not go out for bids on their work in early 1964. Thus, the parking area for special events described in the Conditional Use Application will be completed by the time the Physical Education Building extension is complete.

I will be glad to furnish any further details that you may desire in connection with these projects.

Yours very truly,

L. L. MONNETT, JR.

Which was read, received and filed.

Mr. Kuhn:

Mr. President: When this matter came before us in Committee last Tuesday, I asked that it be held over in order that we may have the opportunity of knowing whether the parking facilities that would be taken away by the construction of the addition to the athletic building would be replaced. As we anticipated, this answer was given satisfactorily to us. That is to say, it was suggested at our Committee Meeting then that the answer might appear directly to our inquiry, although it didn't appear from the report given us with this legislation from the Planning Department.

It appears from Mr. Monnett's letter that the additional parking spaces will be available at the time that the building itself is completed, and that these parking spaces will be in the playing fields which are to be constructed as part of this project, and they will be completed contemporaneously. That being the case, the objections that I had to the granting of the Conditional Use have been removed.

I would also like to say at this time, for the record, in order to correct an apprehension that I was laboring under at the time I spoke last Tuesday with respect to the status of some of the University's real estate, specifically related to the University Book Center, that I was in error in connection with the taxable status of this real estate for local real estate purposes. In order that the record would be corrected here, I would like to correct it in that respect.

At the same time, I would also like to note for the attention of my colleagues in Council the fact that this activity of the University, which was described in Mr. Monnett's letter to me, which he made public to the newspapers as a commercial venture, is nevertheless exempt from the Mercantile Tax which commercial ventures generally, in the City, must pay. This is by virtue of a provision in our Mercantile Tax Ordinance, which generally exempts nonprofit educational and charitable institutions from the Mercantile Tax.

I would recommend that as a part of our consideration of tax legislation for the next year that we consider the distinction between commercial and commercial businesses conducted by otherwise nonprofit organizations and their otherwise exempt activities, similar to the distinction which is made by the federal government in the Internal Revenue Code.

The Chair:

I might say for the information of Council and the Fourth Estate that when File No. 1256, Bill No. 2435 was before the Committee on Planning and Redevelopment last week I made an affirmative motion that it be returned to Council. However, my motion was amended, asking the University of Pittsburgh to furnish information as to the parking facilities in the vicinity of the structure. I voted against the affirmative motion, as amended, which was later made. However, I was the mover of the first motion to adopt this legislation. Of course, I am going to vote for it today.

With reference to the book store and the statement I made about the indecent literature sold there and the activities of the Legion of Decency, I have no apologies. Indecent literature has no place in the book store or any other place. For that reason I don't care to make an apology.

Mr. Jordon:

Mr. President, in order to clarify the position of the bill, it was my understanding as Chairman of the Committee that the motion was amended and was

passed affirmatively, that this inquiry would be made, and if the inquiry produced satisfactory information the bill would be presented to Council for final passage. It is now my understanding that the bill is now before Council for the approval of the Conditional Use.

The Chair.

That is correct. We had the information from the Planning Commission that all these things were worked out when I made the motion last Tuesday.

Mr. Jordon moved

A suspension of the rule so as to allow the second and third readings and final action on the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

MOTIONS AND RESOLUTIONS

Mr. Jordon presented

No. 2504. Whereas, Pursuant to Ordinance No. 147, approved May 5, 1960, and in the manner prescribed by the Urban Redevelopment Law, Act of May 24, 1945, P. L. 991, as amended, the Redevelopment Proposal for Redevelopment Area No. 11 in the Twenty-first and Twenty-seventh Wards of the City of Pittsburgh was approved; and

Whereas, The Urban Redevelopment Authority of Pittsburgh has submitted, by letter dated October 21, 1963, a form of Contract for Disposition by Sale of Land for Private Redevelopment by and between the Urban Redevelopment Authority of Pittsburgh and Stets Manufacturing Company, in connection with Parcel 11, in the Twenty-first Ward of the City of Pittsburgh in Redevelopment Area No. 11; and

Whereas, The Council of the City of Pittsburgh believes that the proposed Contract is in the best interests of the City of Pittsburgh and desires to give its approval in accordance with the provisions of the Urban Redevelopment Law.

Now, Therefore, Be It

Resolved, That the form of Contract for Disposition by Sale of Land for Private Redevelopment by and between the Urban Redevelopment Authority of Pittsburgh and Stets Manufacturing Company, submitted to this Council by the Urban Redevelopment Authority of Pittsburgh by letter dated October 21, 1963, in connection with Parcel 11 in the Twenty-first Ward of the City of Pittsburgh, be and the same is hereby approved, it being in substantial con-

formity with the Redevelopment Proposal for Redevelopment Area No. 11 in the Twenty-first and Twenty-seventh Wards of the City of Pittsburgh.

Which was read.

Mr. Jordon moved

The adoption of the resolution.

Which motion prevailed.

Mr. Jordon also presented

No. 2505. Whereas, Unemployment in Pittsburgh still poses a serious threat to the economic health and vitality of our community; and

Whereas, We acknowledge the contribution of the RIDC, Oakland Corporation and other groups toward the solution of this problem and commend them for their efforts, there is still the urgent need to reduce further the large number of persons unemployed; and

Whereas, The new space, electronics or science oriented businesses are being attracted to Pittsburgh, these will not solve the problem of the unskilled worker, because he will not be qualified to perform most jobs which will be available in such companies; and

Whereas, We recognize the need for conservation and productive use of human resources, which entails an obligation to help people increase their skills, thereby enabling them to compete in today's job market, thus encouraging the dignity of self-support, and counteracting the humiliation and the demoralizing effect of continued public assistance;

Therefore, Be It Resolved, That the Public Works Committee of City Council explore fully the possibility of establishing a Work-Training Program in the City of Pittsburgh, such program to provide for:

1. A combination work-training plan under which unemployed persons could receive training in large numbers during part of the day, and would work during the remainder of the day at jobs in businesses related to the training they are receiving. These persons would be compensated from a combination public-private fund.

2. Businesses would be encouraged to find within their organizations functions which can be performed part-time, which unemployed persons can fill, and for which they would be compensated by the company. Such persons would also participate in established training programs.

3. Other persons who could not be utilized in the above mentioned jobs would be employed in public works projects, such as cleaning the hillsides and other areas, thus improving and beautifying the city. These workers would be compensated from the combination public-private fund.

4. Businesses would be encouraged to contribute needed equipment and make available facilities for setting up necessary training courses.

5. The combination public-private fund referred to would be raised through private contributions, federal and state aid where available, plus any local financing plan deemed necessary.

6. Qualified public spirited citizens would be encouraged to volunteer their abilities and training in serving as teachers or instructors in training programs, or wherever their skills and abilities would enable them to fit into the overall development and carrying out of this program. In short, the entire city and all of its resources should be mobilized in this vital undertaking.

Which was read and referred to the Committee on Public Works.

Mr. Jordan:

Mr. President and Members of Council,

You will recall, I presented a statement to Council on Monday, October 14, 1963, urging that we vigorously explore new and different ways of coping with our serious unemployment situation, and not merely rely on present programs for solution. My remarks were prompted by the report of the Regional Industrial Development Corporation (RIDC) and the statement which appeared in the newspapers that they had been successful in creating 800 new jobs and saving 700 more in a nine county area. You will recall, I commended RIDC for its

efforts, but said I felt this was not enough, and that we must do more. I am still of the opinion that 800 or even 1500 jobs are not enough when those unemployed in Pittsburgh number 60,700 (total population 604,332).

On last Monday, I made a specific recommendation which was apparently obscured by the name calling which followed. The next day after my remarks, I was the subject of a personal attack. Though one is tempted to engage in retaliation, I will not do so because I believe the issues involved are far too important, and transcend this approach. There was also an attempt to imply that Mayor's Committee on Economic Development, of which I am chairman, had done nothing but sound a "clarion call." Again, I will set the record straight with regard to the Committee's work and also to restate the specific proposal I made last week.

President John F. Kennedy made a statement recently which I believe bears repeating here. He said and I quote: "Success has many fathers, but failure is an orphan." The Committee has never claimed to have resolved the unemployment problem, but we do claim to have made a contribution. The Committee has never tried to claim credit for reorganizing RIDC, but in fairness to the fine group of citizens who gave their time and ideas, I would like to point out that without the Committee's efforts, very probably there would have been no RIDC today.

I also point out that before the Area Redevelopment Act or the Manpower Training Act were enacted, the Committee was hard at work developing ideas for a retraining program, first on its own and subsequently in cooperation with the Board of Education. In fact both the Board of Education Committee and the Mayor's Sub-Committee on Retraining had the same chairman, Mr. Robert Ferguson of Bell Telephone Company. This resulted in the Board of Education Committee and the Mayor's Committee jointly submitting an application under the Area Redevelopment Act to establish the first retraining courses in Pittsburgh. I signed the application as chairman of the Mayor's Committee.

I had assumed these articles were sent before to the members of Council because of the report submitted to the Mayor and Council and the publicity which followed. But apparently this is not so, and there is still much question as to the effectiveness of the Committee. I have here a clipping from the Pittsburgh Press dated September 14, 1934 and also one from the Pittsburgh Post Gazette dated September 14, 1934 setting forth the recommendations of the Mayor's Committee on Economic Development. Both articles appeared on the front page of the respective papers. The articles state that the Committee urged the establishment of governmental and private resources to combat the Pittsburgh area's chronic unemployment problem and that the Committee also recommended a complete reorganization of U.S.I.C. and finally the Committee set forth a four-year plan program for action. Mr. President, although I decline telling the time to do this I think it is necessary to read these articles to set the record straight.

I have said before that following the submission of this report to the Mayor the members of the Committee went to work to bring about the reorganization of U.S.I.C. Mr. Joseph Stetson and Mr. Roy Lee Lipman, both worked with individual labor leaders and with the Labor Council to gain their cooperation and support. Mr. Leonard Shuman worked with Mr. Frank Brown and the members of the U.S.I.C. Board to encourage them to carry out and to agree to the proposed reorganization. Because of that time there was every intention of disorganizing the activities of U.S.I.C. I worked with the Mayor and directly with Mr. Stetson and Mr. Brown and Mr. Shuman and we would agree to a reorganization only if labor and general fund would also make a financial contribution along with industry. This had not been done in the past but in this instance an agreement was reached. U.S.I.C. was then reorganized and Mr. Richard B. Brown designated as its President.

The Committee decided to accept the activities and assume the program of the new U.S.I.C. of four members. President, Council City as the executive, and one or two members each. This was on April 1, 1935 when the City's annual contribution of \$10,000 was up for approval by the Finance Committee of

City Council. I have here also the Pittsburgh Post Gazette dated April 1, 1935 in which my position is stated. It states my position is that we did not have time then with the program a referendum passed of Finance Committee Council and Council as chairman we to meet with Mr. Ryan and about \$10,000.

Upon receipt of the last of of U.S.I.C. and the disorganization that to the newspaper the this resulted in the question and the coming of the new U.S.I.C. nearly one whole it is very strongly that we want to develop an additional plan to put larger numbers of job at one time I put this matter over if it has to be a combination of public funds I see again the the reorganization started right Washington. When any leader this time are plan they are of so being important. The concept is accepted that capacity and large scale of it are are expected to all the reorganization activities. I then and especially of the U.S.I.C. reorganization program reorganized the financing to it and reorganization. The same and largely about to disorganizing the reorganization destroyed areas such as it

to be no proper plan for I am sure on all reorganization of the rate of all continued cooperation and of one with one state to a industry and jobs to this activity represents the U.S.I.C. program but again we will the signature of each member.

By the the disorganization of I group are disorganizing workers strike which are greater group and when time will come, they will at least the U.S.I.C. group will be able to these groups growth to I growth as business to the one of one group disorganized affected businesses with a study of these past efforts

• Thousands of students have reported that these exchanges have come to them as a "very exciting event." Participants in the last program share a graduate education in the sciences of Great Britain.

• The University of Pittsburgh has the largest share and thus carried part of the important share in educating future managers and engineers.

Efforts to operate the plant would require a combination of Public and Private funds. The latter have apparently no existing funds to which contributions to setting out programs to provide other and indirect operations from the West Publishing Program is restricted. It would be proposed to have a two operation to be offered to others. Operating Public funds have been public financing plans have been to be directed the same, through private contributions, the entire balance in The Public Fund. I can provide the three five or two entire balance can be used to finance a West Publishing Program to employ them five or six thousand copies of each time table.

In order to have this proposal properly before Council, I have prepared a resolution calling for the exploration of establishing a Work Training Program in the City of Pittsburgh. After the resolution is read by the clerk, I wish to have it referred to the Committee on Public Works for further consideration.

This proposal has excited some public interest to the extent that some economists and others have offered to meet and develop specific plans for such a program. The first meeting will be held tomorrow morning at 10 A.M. I invite Councilman Counahan, the Chairman of the Committee on Public Works to participate in this discussion. Any other members of City Council, who are interested, will be welcomed at this meeting.

In addition, the Mayor's Committee on Economic Development will be convened to appraise developments since our last meeting, and to consider recommendations for appropriate next steps. The members of the Mayor's Committee on Economic Development are Leland Hazard, Professor Graduate School of Industrial Administration, Carnegie Institute of Technology; Edward Green, Vice President of Marketing and Planning, Westinghouse Air Brake Co.; Nathan Lipson, lawyer economist, United Steelworkers of America; Joseph Sabel, President of Local 590, Amalgamated Food Employees Union; Robert Ferguson, Commercial Manager, Bell Telephone Company of Pennsylvania; Marshall Robinson, Dean of the Graduate School of Business, University of Pittsburgh; James L. Hayes, Dean of the School of Business Administration, Duquesne University; Edgar M. Hoover, Director of the Center for Economic Studies, and George McGill, Manager of the Bureau of Employment Security Office.

Mr. President, I am sure you and the members of Council join with me in expressing our gratitude to these persons for the fine contribution they have made.

The Chair:

The men on this committee are to be congratulated. The only thing I want to know is where you are going to get the money.

Mr. Jordan:

We have some ideas on that, too.

The Chair:

You talk about the United Fund. They are going to have a rough time raising money for that great organization. I have been doing a little collecting for another great institution, the Pittsburgh Guild for the Blind. We have been trying to raise money to rehabilitate those people and we are really having a rough time.

How many mills are you going to put on the citizens of Pittsburgh to work this program out?

Mr. Jordan:

I think these questions should be properly raised when it comes up in the Committee on Public Works. We are also having a meeting tomorrow morning. Some of these questions can be answered then.

The Chair:

I have a meeting tomorrow morning myself. I didn't know anything of the meeting you are having until now. It would be wise to notify the members of Council of what you are going to do because other people have meetings scheduled, too. As far as I am concerned, what my son said the other night on television is true, that the trouble here in Pittsburgh and Allegheny County is that too many people have two jobs while others are out of jobs. That's the trouble.

Mr. Jordan:

The reason the others are meeting would be to enable them to make a study of this and formulate some of the things we have been talking about over the months and present these to the Committee on Public Works at the proper time. It seems that all these things would be considered in Committee at the time the resolution comes up. It is one idea. It may not work. All I am

saying in this whole statement is to point out the problem before us. I think we are going to have to do more.

The Chair:

Men are known more for what they do than what they say. That is really a wholesome fact.

Mr. Jordon:

My statement speaks for itself.

Mr. Baskin:

I would like to ask a question of Mr. Jordon. Was this idea or proposal referred to the Mayor's Committee on Economic Development?

Mr. Jordon:

It has been discussed with the members.

Mr. Baskin:

This is their recommendation?

Mr. Jordon:

No. We have discussed it with the members of the Mayor's Committee and we have been talking about it over the summer. We were not going to make a formal recommendation. I was just prompted by the remarks of RIDC to make this at this time. That is why I made an outline last week which was not as specific as this. As a result of having done that, I was placed in the position of being more specific. There are still some problems we recognize and still some problems I don't want to make public at this time.

Mr. Baskin:

This is not the Mayor's Committee on Economic Development and the Mayor's Committee on Economic Development has not proposed this plan that you have given to us?

Mr. Jordon:

No, it is not.

Mr. Baskin:

Do you intend to meet with the Mayor's Committee on Economic Development on this particular plan?

Mr. Jordon:

Yes, we intend to. In fact, it is our thinking that once this committee meets tomorrow morning and considers this their findings should be presented to the Mayor's Committee, and a recommendation can be forthcoming from one or both.

Mr. Baskin:

Why wasn't this proposal submitted to the Mayor's Committee to get their thinking on it and to get a more workable program? That is the only question, since that committee has been appointed for this purpose and it is the committee you worked with in the past.

Mr. Jordon:

Mr. Baskin, I understand your confusion and perhaps it is a little difficult to understand. We have been discussing it. The members of the Mayor's Committee called me on the telephone and urged me to make this recommendation at this time. Also, last week, which I did.

Mr. Baskin:

I just asked did the Committee make this recommendation.

Mr. Jordon:

We have been discussing this since last spring. We have not met formally as a committee on this question. If you can't understand it, just read my statement.

Mr. Baskin:

The only thing I would like to know is whether we have a recommendation from the Committee itself.

Mr. Jordon:

What difference does it make? It is

coming up before the Committee on Public Works tomorrow. If a recommendation is forthcoming or not, it is still as a Councilman and elected official that I have recommended a resolution to come before the Committee.

Mr. Baskin:

I was just curious to know why this committee was bypassed.

Mrs. D'Ascenzo:

You say here that this proposal has excited some public interest to the extent that some economists and others have offered to meet and develop specific plans for such a program. The first regular meeting will be held tomorrow morning at 10:00 A.M. May I ask you if you want to tell us who is going to meet with you tomorrow morning?

Mr. Jordon:

Several members of the Mayor's Committee on Economic Development and others.

Mrs. D'Ascenzo:

Were they invited to come to this meeting?

Mr. Jordon:

Yes.

Mrs. D'Ascenzo:

Who invited them?

Mr. Jordon:

I invited them.

Mr. Counahan:

Mr. Jordon, the committee you have set up is a committee by invitation and you haven't discussed it with the Mayor's Committee. I can't understand why it wasn't set up that way.

You have invited me as Chairman of the Committee on Public Works, but I received this rather belatedly. Here is the first time I have heard of it. Tomorrow morning I am very busy. I have a meeting. Whether I can call this meeting off, I don't know. I would rather think that this has taken quite a bit of study. If you were going to bring it in here, I think you should have notified us and given us an opportunity to decide to come or not to come, rather than have us tied up with appointments.

Mr. Kuhn moved

That the Minutes of Council of Monday, October 14, 1963, be approved.

Which motion prevailed.

And upon motion of Mr. Counahan,
Council adjourned.

The Chair:

Members of Council:—Today's Council Meeting will be opened by a salute to the flag in memory of our late Commander-in-Chief, John F. Kennedy, who died in battle, fighting for the things you and I believe in—fighting for social justice, human rights, the upholding of the Constitution of the United States and the Bill of Rights; the things he promised when he was a candidate for the Presidency of the United States, and the things he promised in his inaugural address.

Therefore, I ask that you rise and salute the flag in memory of our late President of the United States—John Fitzgerald Kennedy.

Then followed the recitation of the pledge of allegiance to the flag of the United States of America:

I pledge allegiance to the flag of the United States of America, and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

The Chair:

It is now my pleasure to present the Mayor of the City of Pittsburgh who will deliver his budget message.

Honorable Joseph M. Barr, Mayor, said:

Mr. President and Members of Council:

If our minds and our hearts are not focused clearly on the business at hand, but are rather still numbed by the terrible tragedy that has befallen this nation, it is understandable.

We are all diminished by the death of John F. Kennedy. It is a loss for all freedom-loving people. It is no act of chauvinism to state that the late president was the leader of the free world.

His leadership in gaining approval of the nuclear test ban treaty will, perhaps above all his accomplishments as President, stand as living testimony to his passion for peace—and his courage in exploring all avenues to free this world from the curse of war.

That he should die in such sudden shocking fashion makes his loss all the more senseless. I know I speak for all the Members of Council and for the people of Pittsburgh in expressing our deepest regrets to his wife, his children and the members of his family.

I know that I also speak for the Members of Council in expressing the fervent wish that all citizens of this community will unite in support of our new President, Lyndon B. Johnson, who has assumed the burden and duties of this most awesome position.

John F. Kennedy, great American that he was, would want it so. For in this orderly transition lies one of the great strengths of our nation.

And so with heavy hearts, let us strive to direct our attention to the purpose of this meeting.

I have the honor to present the General Fund Budget for the operation of Pittsburgh's City Government during the 1964 calendar year.

This Budget consists of revenue estimates and the expenditures required to support all phases of the Municipal operation, other than the Water Department, in the year ahead.

The economic picture in the Pittsburgh Labor Market Area is measurably brighter than it was 12 months ago. At the end of September, 1963, the unemployment rate in this district was 6.6 per cent of the work force compared with a high of 12.2 per cent a year ago.

According to State Bureau Employment Security, this is the lowest unemployment figure since November, 1957. To some extent, this improvement is reflected in our revenue collections although there are still a few soft spots.

Foremost among the favorable aspects of our program of Municipal rebuilding and community growth has been the steady increase in real estate assessments despite the tracts of land now cleared and awaiting development.

In 1946, the assessed value of real estate in Pittsburgh, totalling lands and Buildings together, was \$962,476,157.

For 1964, the Allegheny County Board of Property Assessments, Appeals and Reviews, has certified that the total land and buildings assessments will amount to \$1,227,284,184, a growth in the combined valuation during the past 18 years of \$264,808,027.

Bear in mind that prior to 1946, real estate values in Pittsburgh were declining at the rate of \$18 million per year.

This healthy trend in real estate values is reflected in real estate collections for the year which will exceed the original estimate of \$28,910,000 by approximately \$230,000.

Delinquent real estate collection likewise are \$260,000 higher than 1963 calculations, as many property owners made payments to avoid having their homes liened.

These gains, however, are offset by earned income, amusement and water revenues which fell approximately \$545,000 below 1963 forecasts.

In summary, General Fund revenues for 1963 will be \$53,159,602, within less than one per cent of the City Treasurer's original estimate of \$53,497,550.

As Council knows, throughout the year department heads exercised tight control over the purchase of materials and equipment and the hiring of replacement personnel. As a result, it is expected that there will be sufficient cancellations in various accounts to provide an estimated cash balance of \$1,330,000 from 1963 operations which can be applied to balance next year's budget.

To get to the hard figures of the 1964 budget, the expenditure requests, again excluding the Department of Water, which will be dealt with in a separate budget, amount to \$54,529,484. This represents an increase of \$711,818 above appropriations made this year for similar purposes.

In fact, the budget requests of the Departments which came to me totalled \$55,377,225. These were not padded, and did not represent any items which the operating heads of the city's services did not honestly believe were necessary for the proper performance of their duties.

However, recognizing the financial limitations, these requests were carefully reviewed and reduced to the above expenditure figure in the Office of the Mayor.

The biggest part of departmental increases fall in the mandated category including the following:

1. Retirement Funds. Our obligations to the Municipal Police and Firemen's Pension Plans will be \$205,838 higher in 1964. Council should note that our total allocation for employee retirement, including Social Security, will amount to \$2,948,938.

2. Workmen's Compensation. Costs for city employees injured in the line of duty will rise by \$25,000. This primarily reflects increased hospital, medicine and medical charges.

3. Judgments. The accelerated pace of lawsuit disposition by Common Pleas Court has resulted in settlement of 160 cases, half again as many as in prior years. The City Solicitor estimates \$180,000 will be needed. \$50,000 more than the 1963 appropriation.

4. Debt Service Costs will be \$6,244,582, an increase of \$252,920. We were able to hold debt retirement charges down to this figure because of the \$2.6 million in Federal funds allocated to Pittsburgh for Capital Improvements under the Accelerated Public Works Program.

5. Carnegie Library. In 1963 we were unable to grant sufficient funds for a new pay plan for library employees. To

implement this wage plan and furnish the new Library branches at Knoxville and Woods Run, will cost \$133,833. Total City appropriation for free library service to all county residents, \$2,070,599.

6. Not in the mandated category, is the reinstatement of grants on a reduced scale to certain worthwhile cultural institutions. I want to emphasize that the appropriations proposed in this budget are not intended to be in-lieu-of, but over and above, the contributions made by Allegheny County this year. In this manner we reaffirm our belief that these Institutions serve a worthwhile community purpose—and should be aided by Local Government.

The 1964 revenue estimates, as compiled by the City Treasurer, will be \$52,955,679, slightly below the 1963 figure. This reduction is primarily attributable to the non-recurrence of \$525,000 in surplus from the Parking Authority.

In turn, this will be partially offset by a full 12-month collection of the parking tax which will produce an additional \$300,000.

To recap at this point. The 1964 General Fund picture looks like this:

Estimated Cash Surplus—	\$ 1,330,000
1964 Revenues —————	52,955,679
Total Revenues Available—	54,285,679
1964 Departmental	
Expenditures —————	54,529,484
Deficit —————	—243,805

This is a severe budget, designed to preserve our basic services while keeping the costs of these services at the barest minimum. Even so, and without any consideration given to wage adjustments, the requested expenditures exceed anticipated revenues by \$243,805.

Let's direct our attention to our employee status.

The vast bulk of City Employees has been granted one pay increase in the past four years and none since 1961. Meanwhile, practically all other area workers in public and private employment have had upward wage adjustments.

Employees hired since 1961 have been denied their annual increments and today are classified at an unrealistically

low scale. Indeed, I must confess that the job classification plan installed in 1961 has bogged down because of our inability to pay annual increments as do most private and public employers.

We have reached the point, It seems to me, beyond which it would be unfair to ask the municipal employee to go. I therefore propose the following wage adjustments:

1. For classified personnel, including Police and Firemen, a one-step increment increase of approximately five per cent.

2. For employees at the last step of their pay grade, Truck Drivers, Refuse Drivers and Helpers, and Skilled Craftsmen, an increase of two and one-half per cent. I am also recommending to Council that Craftsmen be placed on an annual salary with all fringe benefits including vacation pay granted to other municipal employees.

3. For Laborers and Filtration Plant Maintenance Men, an hourly increase of 15 cents, raising the basis Laborer hourly rate from \$1.85 to \$2.00.

Total cost of this wage plan amounts to \$1,989,077. Added to the above noted deficit of \$243,805, there is a \$2,232,882 imbalance in projected expenditures above revenues.

To provide revenues in this amount, would require a real estate increase of Three mills on Land and one and one-half mills on Buildings; or approximately a 30 per cent jump in Water charges.

In the past four years, this administration has sought to keep the burden on residential and commercial property owners at the lowest possible rate. We must consider what such an increase would do to the basic values of the community, to our hopes for continued growth and development in the City, with all that it means in employment, broader resources, and economic security, and to our aim of increasing the opportunities for home ownership in Pittsburgh. During this period of fierce competition for new industry and new families, this goal seems all the more essential.

We, therefore, have to turn to new revenue sources for as you know we have

reached the legal limit of present act 481 taxes.

I therefore am required to recommend the imposition of an occupational privilege tax of \$10 levied upon all persons employed within the City.

Man has not yet created a popular tax. But this levy, in my judgment, is preferable to the alternatives we face. This tax will not be collected from persons who are unemployed, who are on public assistance or unemployment compensation rolls, or from individuals or families living on fixed retirement income. This should weigh heavily in our thinking for nearly 12 per cent of the City's population is 65 years of age or older.

According to the City Treasurer, we can expect a yield of \$2,300,000 from this measure.

There is not, to my knowledge, any other tax source or combination of taxes, present available to us, which would produce a comparable income.

This, then, is the General Fund outlook for 1964:

Estimated 1963 Cash Surplus	\$ 1,330,000
1964 Revenues (including occupation Privilege Tax) ..	55,255,679
Total Funds available	\$56,585,679
1964 Department Expenditures (including Wage Increase) ..	56,518,561
Net Surplus	67,118

The Water Fund appropriation for next year will be approximately \$6,710,746 this will bring the City's total budget for 1964 to \$63,229,307.

It is evident that the meagre surplus indicated above leaves little room for adjustment or flexibility. In fact, as Council knows, this surplus will be eaten up by increased costs in contracts that fall due after this document is submitted.

You will note there are few new personnel added to the wage and salary ordinance with two significant exceptions.

In the Mayor's Commission on Human Relations, I am proposing the addition

of three staff workers along with a substantial upgrading for existing professional staff. Never has there been a time in history when the work of this agency was more relevant.

During the past summer, over and above its normal work load, the Commission was called on to handle more than 40 tension cases, any one of which could have erupted into serious violence. That they didn't was due in great measure to excellent commission staff work along with generally unacknowledged but excellent cooperation from City Police.

Since 1955, we have added more than 20 neighborhood parklets, ballfields and a variety of play areas to this City's system of Parks and Recreations without a compensating increase in the amount of operating and maintenance personnel for these facilities.

To enable the Recreation Department to meet these expanded responsibilities, I am recommending an increase of \$95,000, primarily for manpower in the Bureau of Grounds and Buildings.

Three other personnel adjustments of interest. In recent months, a number of agencies including the Health and Welfare Association of Allegheny County and Action-Housing have requested the Mayor's Office for assistance in the development and coordination of Job Retraining Programs.

I am convinced that Job Retraining is the most efficient tool available to combat deep-rooted unemployment. To work with these agencies and the State Bureau of Employment Security and the Pittsburgh School Board which have the primary responsibility for this function, I am transferring a position from City Planning to the Mayor's Office.

One of the most effective innovations in the Police Bureau in recent years has been the creation of a 17-man Police Juvenile Unit. To supervise this division, a Lieutenant's position has been added to the Police complement.

There is a grossly inequitable situation in the Public Works Department where Street Maintenance Foremen earn from \$1600 to \$2,000 less than some of the men they supervise. The starting

salary for Foremen will be increased from \$5,097 to \$6,195 to partially ameliorate this discrepancy.

This brings us to one major piece of unfinished business. In this budget, I was hoping to recommend the elimination of the one mill mercantile tax imposed upon the gross volume of wholesalers doing business in Pittsburgh.

The arguments are persuasive that this tax acts as a deterrent upon such wholesale operations as distributors, brokers and Jobbers that should be located within the heart of the metropolitan area. The wholesale levy produces approximately \$700,000 per year. If we are able to obtain financial relief from any source or in any form, I would urge that Council give highest priority to abolishing this regressive measure.

While this budget, like most of those submitted to Council in the past decade is an austere one, needless to say, it is subject to your searching analysis and study.

If we have overlooked or missed some areas of reduction, I know that Council will seek them out and take appropriate action.

On the other hand, if Council should wish to make additions, I must caution that such action will make necessary tax increases beyond what I have been forced to suggest.

Having submitted a balanced budget which enables us to continue our present level of municipal services and move ahead with our rebuilding program on all fronts, there is a strong temptation to breathe a sigh of relief.

But the truth of the matter is that this document, if approved by Council, will solve the dilemma of Pittsburgh's finances for just one year."

We did not make much headway the past year in our attempt to have the cost of area-wide functions, now financed solely by municipal taxpayers, shared on a County-wide level. We believe our position is just and our efforts to obtain a more equitable solution must be continued.

We must likewise continue our massive effort to expand our real estate

values, to search out every means of reducing the cost of Government services, and failing all else, of either curtailing or abandoning those services which are most expendable.

In all these measures, I know I can count on the continued cooperation of the Members of Council.

As difficult as our financial problems appear, I am confident of our capacity to find solutions in the same spirit and with the same determination we have employed heretofore in our efforts toward civic betterment and human advancement.

I believe we have turned the corner on our economic problems.

U. S. Steel Corporation recently announced reorganization plans that reportedly will bring 1,000 to 1,500 new headquarter and management jobs to Pittsburgh at an estimated payroll of more than \$7 million a year.

Oakland Development Corporation is moving forward with its plans for construction of a unique research park in Panther Hollow near Carnegie Tech and the University of Pittsburgh. This new development, privately financed, will provide millions of square feet of research space, off-street parking and related facilities.

Regional Industrial Development Corporation, through its industrial development fund, has created or saved 1600 jobs with in the last year through 22 loan commitments totalling \$2,194,540.

In addition, this agency received approval for financing from the Pennsylvania Industrial Development Authority of New projects totalling \$5,149,269. Of this amount, more than \$4 million represented new construction within the City of Pittsburgh.

Several weeks ago, the Federal Government approved nearly \$2-1/2 million to provide pre-vocational and vocational training for approximately 1200 unemployed in Pittsburgh many of them High School drop-outs.

This carefully conceived proposal by the Pittsburgh School Board and the Local Office of the State Bureau of Em-

ployment Security will bring the total number of persons receiving retraining to nearly 2,000.

Thus Far, B.E.S. has succeeded in placing 75 per cent of all retraining graduates. In my judgment, this dramatic plan is equivalent to a new industry, bringing new hope and employment opportunities to 1200 men and women with outmoded or inadequate skills.

In the Chateau Street—West Project, 80 per cent of Land is committed and construction started on five sites.

In Gateway Center, construction is nearing completion on the I.B.M. building and a new 27-story apartment house.

In the Lower Hill, families are expected to begin moving into the 335-unit Washington Plaza Apartments by May or June of next year.

In East Liberty, construction is slated next Spring on 570 moderate-income apartments to be built by a private developer.

To further improve our housing supply for middle-income and low-income families, the City is cooperating with Action-Housing, Inc., which has built 169 Town-Houses in East Hills and is designing 180 rental units on a section of City-owned land in Sheraden.

In our total renewal effort, we can look forward to more construction over the next several years than in any other comparable period. It is estimated that between \$23 million to \$26 million a year will be spent privately for labor and professional services required in rebuilding our community.

From a credit standpoint, Pittsburgh is in excellent shape. The City's overall per capita debt is the sixth lowest among the 42 largest cities in the United States.

In our most recent bond sale, we received an interest rate of 2.98—one of the lowest rates submitted to any city in the United States which means the saving of hundreds of thousands of dollars of Pittsburgh taxpayers.

These are just a few of the hopeful harbingers.

In the months ahead, we face no easy choices. But timidity has not been in the Pittsburgh lexicon for the past 18 years.

Our approach to the task of government has been the belief that a community cannot be static, that growth and change are healthy, and not to be resisted or resented.

To paraphrase the words of the poet, "Our reach should exceed our grasp."

Our only limit should be our capacity to think and plan and dream ahead toward greater achievement and fuller realization of mankind's enlarging vision.

Last week's observance of the 20th anniversary of the founding of the Allegheny Conference on Community Development serves to remind us that in this community we have unparalleled resources to draw upon in the form of business, civic and labor leadership.

As Mayor, I renew my pledge to work with these groups and with the members of City Council as we have done in the past in the spirit of cooperation which has led to so many good things for Pittsburgh.

The Chair:

Thank you, Mayor.

The Chair presented

No. 2657. John Fitzgerald Kennedy, 35th President of the United States, met his untimely and sudden death at the hands of an assassin on Friday, November 22, 1963.

Mr. Kennedy's tragic death has shocked and stunned the people not only of his own country but the freedom-loving people throughout the world.

After graduating from Harvard University with high honors, he entered the United States Navy and served with distinction and credit in World War II.

As President he tackled the problems of his office with vigor and determination. His tenure in office was marked by struggles and disappointments, but there were triumphs and glory. Even at the moment when he was struck down by a sniper's bullet, he was enjoying the plaudits of the people of the great State of Texas which he was visiting.

Mr. Kennedy was a family man and loved his children and all children; was a genial, friendly, dynamic, effective and familiar public figure. He was a charming and magnetic speaker, a genial and delightful host. His dedication to those principles upon which our Government was established and must stand has been a source of inspiration to all Americans. His personal life has been a brilliant example for all who cherish and respect the truly great things in life. He was a Christian gentleman, practicing daily all the principles he professed. He gave his life for his country, loyal to the end to the sacred principle of good conduct in both his personal and public life.

His memory will always remain sweet and fragrant in the hearts and minds of every American citizen.

He was loved and honored by the people outside the confines of his country, and this mark of respect was shown by the dignitaries and high public officials from abroad who came to Washington to pay homage to his memory.

And he leaves a family—Mrs. Jacqueline Kennedy, Caroline, John, Jr.—who long since captured the affections of all peoples.

To them, and to all surviving members of the Kennedy family, our deepest and most heartfelt sympathy.

Now, therefore, the members of Council and the Mayor on behalf of all the people of the City of Pittsburgh mourn the loss of this great American.

Resolution providing for increase in planned total expenditure for capital improvement projects.

Whereas, Under the terms of Public Law 87-658, approved September 14, 1962, the United States of America has authorized the making of grants to aid in financing construction of specific public works projects, provided the proposed or planned total expenditure of the public body for its capital improvement pro-

jects is increased by an amount approximately equal to the non-Federal funds required to complete such public works projects:

Now, Therefore, Be It Resolved By Council of the City of Pittsburgh as follows:

1. That as of the date of filing of an application by City of Pittsburgh (the "Applicant") with the Housing and Home Finance Agency for a grant to aid in financing the construction of the public works designated as Project No. APW-PA-26G (the "Project") the Applicant had a capital improvements plan or capital improvement budget for the fiscal year or years during which construction of the said Project is expected to occur; and that the total expenditure for capital improvements in said plan or budget was:

\$5,473,843.00 for the fiscal year ending 1962.

\$2,689,600.00 for the fiscal year ending 1963

for a total increase of \$2,689,600.00 in the proposed or planned total expenditure for capital improvement projects (exclusive of Federal funds); and

The Chair:

Members of Council:

Before we adjourn this afternoon, I think it would be fitting to say a word about the Pitt football team, the Pitt Panthers, which I think is one of the outstanding teams in the country. The experts say it is the third best college team in the United States.

It is a very sad commentary that since they have had such a wonderful season, the greatest they have had at Pitt since 1937, that they haven't been able to get an invitation to play in a Bowl game either on New Year's Day or one of the other days they have set for the Bowl games.

Most of us believe that we live in a civilized country and are christians, yet because there are a couple of colored men on the team we can't get bids to certain Bowls, which is a very sad commentary on our social life in the United States. We talk about civil liberties day in and day out, yet in parts of the United States we can't participate in Bowl games because of the pigmentation of a man's skin.

Of course, Council has had an experience similar to this at one time. We were supposed to attend a Mayor's Conference in New Orleans, but because the late Paul Jones (of happy memory) was a Negro he could not stay in the hotel in New Orleans. He would have to stay at a college or with a friend. We decided we wouldn't go to New Orleans. The conference was then held in Miami, Florida, at the Eden Roc Hotel.

Here we have a situation where a young man by the name of Crabtree, who is a star, and another young man

named Jones who are both great football players and both Americans, but because they have a little pigmentation to their skins they can't play football against some of the teams in the South.

If there is no objection, I will appoint a committee to draft a proper resolution commending the Pitt Panthers on the wonderful season they have had in 1963.

If there are no objections, I appoint to serve on that committee Mrs. Irma M. D'Ascenzo, Chairman of the Committee on Parks, Recreation and Libraries, Mr. John F. Counahan, Chairman of the Committee on Public Works, and Mr. J. Craig Kuhn, Chairman of the Committee on Public Safety and a graduate of the University of Pittsburgh.

Mr. Kuhn:

Mr. President, I can't resist comment-

ing at this time on the very happy crowd that filled the stadium on Saturday. Despite what has been said in the past about going up what has been called "Cardiac Hill" in Oakland, I did observe that a nearly capacity crowd of over 50,000 people attended the game. And it is not the first large crowd that has attended and been delighted by the Panthers and Steelers this year.

As an alumnus of the University of Pittsburgh and one who is proud of its accomplishments, not only in athletics but science and advancement of knowledge, I hope in the many years to come the loyal alumni and students of the University will be able to see as fine football games in as fine a location.

And on motion of Mr. Counahan,

Council adjourned.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—

Mr. Baskin	Mr. Kamyk
Mr. Counahan	Mr. Kuhn
Mrs. D'Ascenzo	Mr. Leslie
Mr. Gallagher	Mr. Pagan
Mr. Jordon	(Pres't)

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2626. An Ordinance entitled, "An Ordinance to provide for the general revenue by levying a tax in the amount of ten dollars (\$10.00) upon the privilege of engaging in an occupation within the city in 1964, from the effective date of this ordinance, to be paid by each individual exercising such privilege; requiring the filing of returns; placing upon the employers the duty of collecting and remitting tax owed by employees; providing for the administration and collection of the tax; and imposing penalties for violation."

In Committee on Finance, December 11, 1963, read and amended in Section 4 by striking out paragraphs (d) and (e) which read as follows:

"(d) The failure or omission of any employer to deduct tax shall not relieve the employee from the duty to file a return and pay the tax.

Mr. Baskin moved

A suspension of the rule so as to allow the second and third readings and final action on the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Baskin:

Mr. President, I did want to say one thing about the Occupation Tax. As it is introduced today, it does not have provisions for exemption for anyone. Now, it has been discussed before and I want to make it clear so there is no misapprehension on the part of the citizens of the City of Pittsburgh or non-residents who work in the City of Pittsburgh. We want to put an exemption in the Occupation Tax but we must

await a decision by the Pennsylvania Supreme Court before we can determine whether such exemption is legal. As soon as we have the decision of the Pennsylvania Supreme Court and assuming that that decision is favorable to an exemption, we will amend the Occupation Tax to provide for an exemption within the limits which we feel will be within the law. If anyone falls within that exemption who has previously paid the tax, there will be a provision to provide a refund of that exemption to that person.

The Chair:

With respect to the Occupation Tax, those persons on public assistance, or Social Security pensions, or those collecting unemployment compensation or workmen's compensation will not come under the provisions of the tax; is that correct?

Mr. Baskin:

That is correct, Mr. President.

And the bill as read a second time was agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:

Mr. Baskin	Mr. Kamyk
Mr. Counahan	Mr. Kuhn
Mrs. D'Ascenzo	Mr. Leslie
Mr. Gallagher	Mr. Fagan
Mr. Jordon	(Pres't)

Ayes 9. Noes none.

And a majority of the votes of Council being in the affirmative, the bill passed finally.

Also

Bill No. 2664. An Ordinance entitled, "An Ordinance approving the proposal for the redevelopment of Re-

development Area No. 16, located in the Twenty-first and Twenty-second Wards of the City of Pittsburgh; approving the redevelopment area plan—Urban Renewal Plan and feasibility of relocation for the Stadium Renewal Project No. Penna. R-202, incorporated as a part of and proposal; and making certain findings related thereto."

Which was read.

Mr. Baskin moved

A suspension of the rule so as to allow the second and third readings and final action on the bill.

Which motion prevailed.

And the bill was read a second time.

Mr. Kuhn:

Mr. President: I want to state for the record my reasons for opposing these ordinances relating to the Stadium Project. At the public hearing last Wednesday much was said about civic patriotism in support of them. Notwithstanding the sincerity of the motives of those proponents who equate support of this project with patriotism, I hope that it goes without saying that I am not in the employ of any alien municipality. I do not seek Pittsburgh's downfall as a big league city. Nor do I diminish the attractiveness of the proposal from a planning point of view—I do not cherish the view of the junk heaps in the railroad yards across from the Golden Triangle.

My opposition is based upon what appear to me to be clear economic realities in the major sports and entertainment industries. Since 1948, the year television became generally available, major league baseball attendance has declined in absolute terms while population and urbanization have increased at a record pace. New sports stadia in other cities, built at public expense, have consistently failed to meet debt service requirements and in some cases have not covered operating expenses. Big league franchises have been moved from city and the leagues have been expanded but attendance has not increased. The Pirates' following fell half

a million last year. In 1960, when Pittsburgh won the pennant and the Series, attendance was at a record high, but it has fallen with the standing of the club.

Professional football, I am pleased to observe, appears to have a growing public. The Steelers have played winning football and filled Pitt Stadium—which has a capacity in excess of that planned for the new Stadium—despite the fact that it lies at the top of a steep hill. The Pitt Panthers just completed an outstanding season in which they, too, filled the Stadium in Oakland. I understand from Chancellor Litchfield that, despite its age, this facility is well maintained and was refinanced in recent years. The Panthers have no present plans to abandon their Stadium for the new one.

Assuming the continuance of record-breaking football crowds—an assumption that seems to require record-breaking teams—still, admittedly, the proposed Stadium must look to parking and baseball to earn its operating and debt service revenues. And the debt service, which City Council must appropriate annually from tax revenues, will be a burden of more than \$1,100,000 each tax year, if costs stay within the estimates. The sports entrepreneurs have given assurance within their capacities, but at best these are far less than the ultimate guaranty which the city must meet if the Stadium follows the pattern observed in other cities and fails to pay its own way.

I was impressed with Patrick Cusick's honesty when he said that he believed that the City should provide this Stadium for sports events, take the land off the tax rolls and meet the debt service of more than \$1,000,000 a year to pay off the bondholders. He is an outstanding planner. He knows this area's needs in housing, in mass transit, in industrial development. I do not question his civic patriotism in reaching his opinion. I respectfully differ from him in his conclusion. I believe that our valuable borrowing power should be used discriminatingly in financing redevelopment and renewal projects, keeping to a minimum those which are devoted to tax-exempt uses. Public subsidies for housing, for transit and for new industry seem to me to promise far more in

economic return and human values than does a new sports stadium. I therefore intend to vote against these ordinances.

The Chair:

Are there any further remarks?

Mr. Baskin:

I am not going to answer Mr. Kuhn on the Stadium because I think this has been so thoroughly discussed and all the arguments, pro and con, have been made and there is no need to repeat them. I am merely saying in conclusion what I said when this idea was first presented many months ago. That is, that although we recognize that there are certain risks inherent in this project, it is my judgment—and I think that judgment is shared by most of Council and most of the leading citizens of Pittsburgh—that we will incur far more risks if we did not go ahead with the project than if we do. I think on that basis there is no question that we must vote for the future of the City of Pittsburgh.

The Chair:

With respect to the Stadium, all 84 acres will not be tax exempt; is that correct?

Mr. Baskin:

I think what will happen, Mr. President, is this: If any air rights develop, which we are looking forward to and hope will develop, they will be placed on the tax rolls. That's correct. Then, of course, we have the admission taxes from the Stadium and eventually the parking taxes and the mercantile taxes from this facility.

And the bill as read, a second time was agreed to.

And the bill was read a third time and agreed to.

MOTIONS AND RESOLUTIONS

Mr. Baskin presented

No. 2741.

Whereas, By authority of Ordinance -----, approved December ----, 1963, a tax was imposed upon certain classes of personal property, and

Whereas, Said ordinance provides for the use by the City of Pittsburgh of assessments of personal property made by the Board of Property Assessment, Appeals and Review of the County of Allegheny for the purpose of levying the aforesaid tax; therefore

Be It Resolved, That the Mayor and the City Treasurer are hereby authorized and directed to enter into an agreement with the County of Allegheny upon the same conditions as Agreement dated November 26, 1962, which provides for the payment by the City to the County of \$8,000.00 for services rendered by the County in furnishing certified copies of

assessments made for County personal property tax purposes against all residents of the City of Pittsburgh.

Which was read.

Mr. Baskin moved

The adoption of the resolution.

Which motion prevailed.

Mr. Baskin:

Mr. President and Members of Council:

I would like to make a brief statement, if I may.

We all share the Mayor's keen disappointment on the failure of the County Commissioners to assume more of the County's fair share of the cost of Carnegie Library.

As a result we will be unable, at this time, to remove or reduce the wholesale mercantile tax. However, if the County, at its forthcoming budget sessions, changes its position and gives more support to Carnegie Library, we may be in a position to repeal all or part of the tax.

We had hoped that the County would in 1964 undertake to assume an additional \$700,000 in library costs so that we could repeal the mercantile tax.

In simple arithmetic, what did the City propose? At present, the Library serves the entire County. It costs the City resident \$3.50 per capita in direct annual operating costs, or a total of \$2,070,000 in addition to indirect costs, such as police and fire protection and tax exemption. At present the County contribution of approximately \$400,000 (also paid by City residents) is slightly more than 20 cents per capita. If the County were to assume immediately an additional \$700,000, the result would be that the City's share would still be approximately \$2.33 per capita and the County's total share would be less than 70 cents per capita. This 70 cents will also be a per capita charge on the City residents so that on a per capita basis, the City residents share would be \$3.00 and the non-City residents' share would be 70 cents.

The City is not asking for a handout. The City is asking that the County begin to assume its just obligation for the Library service.

We hope that when the County Commissioners begin their budget hearings, they will give favorable consideration to the library problem.

The Chair:

Thank you, Councilman Baskin.

The Chair:

Members of Council:

I want to congratulate Councilman Philip Baskin, Chairman of the Committee on Finance, for the outstanding job he did in connection with the budget. I would also like to congratulate H. Grant Smith, the Budget Controller, and all of those who worked with the Committee.

It was really a rough task putting this budget together. Of course, we have pleased a lot of people and we have displeased a lot of others. But in the final analysis, we did the best we could, which is all anybody can do. We tried to keep the great name of Pittsburgh in the forefront and to do everything in our power to make the City of Pittsburgh a better place to live in, work in and play in.

We hope that the year 1964 will be one of peace, happiness and prosperity for all of us.

I am not going to wait until the meeting tomorrow to wish all of the members of Council and their families and the citizens of Pittsburgh, in every language that man speaks, a very, very Merry Christmas and a happy, prosperous and holy New Year.

WITNESSETH:

Whereas, The City and the Authority have heretofore entered into an agreement, dated June 15, 1951 (hereinafter sometimes called the "Meter Revenue Agreement"), under which the City transferred and assigned to the Authority the revenues from certain on-street parking meters in the City (hereinafter sometimes called "meter revenues"); and

AN ORDINANCE—Authorizing and directing the Mayor, the Director of the Department of Public Safety and the Director of the Department of Public Works, for and in behalf of the City of Pittsburgh, to enter into an Agreement with the Public Parking Authority of Pittsburgh for the performance by employees of the City of certain services relating to the enforcement of parking regulations, maintenance of parking meters and cleaning of the premises at the Authority's off-street parking lots, one of which is located at the southwest

corner of South 18th and Sidney Streets, in the Seventeenth Ward of the City of Pittsburgh, and the other on Shady Avenue, approximately one hundred fifty-five (155') feet northwardly from Forbes Avenue, in the Fourteenth Ward of the City of Pittsburgh.

Whereas, pursuant to Ordinance No. 262, approved July 11, 1947, the Public Parking Authority of Pittsburgh was created by the City of Pittsburgh under the provisions of the Parking Authority Law, Act of June 5, 1947, P. L. 458, in order to provide off-street parking facilities for the alleviation of the parking crisis and traffic congestion in the City of Pittsburgh; and,

Whereas, the said Authority has acquired and is developing off-street parking lots, one of which is located at the southwest corner of South 18th and Sidney Streets, in the Seventeenth Ward of the City of Pittsburgh, and the other on Shady Avenue, approximately one hundred fifty-five (155') feet northwardly from Forbes Avenue, in the Fourteenth Ward of the City of Pittsburgh; and

Whereas, in order to make the acquisition, development and operation of the parking lots economically feasible, said Authority proposes to install parking meters in said lots and to operate them without an attendant on the premises; and,

Whereas, the Council of the City of Pittsburgh has by Ordinance No. 227, approved June 28, 1957, as amended, made improper and overtime parking in such Authority lots unlawful; now, therefore,

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor, the Director of the Department of Public Safety and the Director of the Department of Public Works, for and in behalf of the City of Pittsburgh, be and they are hereby authorized and directed to enter into an Agreement with the Public Parking Authority of Pittsburgh for the performance by employees of the City of certain services relating to the enforcement of parking regulations, maintenance of parking meters and cleaning of the premises at the Authority's off-streets parking lots, one of which is located at the southwest

corner of South 18th and Sidney Streets, in the Seventeenth Ward of the City of Pittsburgh, and the other on Shady Avenue, approximately one hundred fifty-five (155') feet northwardly from Forbes Avenue, in the Fourteenth Ward of the City of Pittsburgh, in substantially the following form:

AGREEMENT

Made and entered into this ----- day of -----, 1963, by and between the City of Pittsburgh, a municipal corporation of the Commonwealth of Pennsylvania, domiciled in the County of Allegheny, hereinafter referred to as the "City."

AND

Public Parking Authority of Pittsburgh, a body corporate and politic created and existing under the laws of the Commonwealth of Pennsylvania, domiciled in the County of Allegheny, hereinafter referred to as the "Authority."

Witnesseth:

Whereas, the Authority owns and is in the process of developing two off-street parking facilities, one of which is located at the southwest corner of South 18th and Sidney Streets, in the Seventeenth Ward of the City of Pittsburgh and the other on Shady Avenue approximately one hundred fifty-five (155') feet northwardly from Forbes Avenue in the Fourteenth Ward of the City of Pittsburgh hereinafter referred to as the "parking lots"; and,

Whereas, the Authority intends to regulate parking in the parking lots and to make charges therefor by the use of parking meters, without having an attendant present on the premises; and,

Whereas, in order to provide for the efficient and economical operation of the parking lots it is desirable that the City render certain services by its employees; and,

Whereas, the operation of the off-street parking lots will aid in the alleviation of the parking crisis and traffic congestion of the City;

Now, Therefore, In Consideration of the Covenants and Agreements Herein Contained, it is hereby Agreed that:

1. The City, through its Department of Public Safety, shall furnish police officers to check the parking lots as often as may be reasonably necessary for enforcement purposes, but not less frequently than the curb parking meters in the general area are checked, to determine whether the vehicles in the parking lots are parked in conformity with the requirements of Ordinance No. 227, approved June 28, 1957, as amended, that all such vehicles be parked within the marked individual parking spaces, that the operator pay the posted parking rate by depositing coins or tokens in the parking meters and that no vehicle be parked longer than the total time permitted in the lots, nor longer than the time for which payment into the meter has been made.

In the event that any violations of said Ordinance No. 227, approved June 28, 1957, as amended, are found, the police officers and other employees of the City shall follow the procedure in such cases provided in said Ordinance.

Police officers and other employees of the City shall cooperate fully with the Authority and furnish the Authority with all necessary information with respect to the frequency of checks, the number of violations and other data pertinent to the efficient operation of the parking lots.

2. The City, through its Department of Public Safety, shall from time to time and as often as may be reasonably necessary, inspect, maintain and repair the parking meters installed in the parking lots, so that the meters shall be kept in proper and efficient working order and condition. The inspection and maintenance so provided shall be at least equal to the inspection and maintenance provided by the City for its own parking meters. Should any meter be in such condition that it cannot be repaired or that its repair will require its removal for more than one (1) day, the City shall install in the place of the defective meter a new meter, which shall be supplied by the Authority for that purpose.

3. The City, through its Department of Public Works, shall, from time to time and as often as may be reasonably necessary, clean the parking lots' premises with motorized street sweepers or by

other effective methods, so that the parking lots may be maintained in a clean and sanitary condition and at least as clean and sanitary as the surrounding streets of the City.

4. The Authority shall pay the City for the foregoing services an annual fee of Twelve (\$12.00) dollars for each parking meter in the parking lots. This fee shall be paid to the City Treasurer one (1) year after the date of this Agreement and annually thereafter as long as this Agreement is in effect.

5. This Agreement shall be for a period of one (1) year from the date hereof and shall continue thereafter from year to year, terminable at any time upon the giving of sixty (60) days' written notice by either party. In the event that the Agreement shall be so terminated, the annual fee payable shall be proportionately reduced and shall be paid by the Authority upon the termination of the Agreement.

This Agreement is entered into by the City pursuant to Ordinance No.----- approved -----, 1963.

In Witness Whereof, the parties hereto have hereunto affixed their common and corporate seals, duly attested by their proper officers, the day and year first above written.

The regulations hereunder are intended to assure compatibility of uses and avoid detrimental effects associated with indiscriminate mixtures of residential and commercial uses.

No. 383

AN ORDINANCE — Authorizing the Mayor and the Director of the Department of Public Works to enter into an agreement with the Borough of Baldwin and the Municipal Authority of the Borough of Baldwin, which would supplement the agreement entered into by the parties on May 28, 1959, and provide for the conducting of Viewers proceedings by the Municipal Authority arising out of the construction of a sanitary sewer in the Glass Run watershed.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Public Works are hereby authorized and directed to enter into an agreement with the Borough of Baldwin, and the Municipal Authority of the Borough of Baldwin, Allegheny County, Pennsylvania, in substantially the following form:

AGREEMENT

THIS AGREEMENT, dated for convenience of reference as of the _____ day of _____, 1963, by and among

CITY OF PITTSBURGH, (hereinafter called the "City"), a municipal corporation of the Commonwealth of Pennsylvania, located within the County of Allegheny.

BOROUGH OF BALDWIN, (hereinafter called the "Borough"), a municipal

corporation of the Commonwealth of Pennsylvania, also located within the County of Allegheny, and

THE MUNICIPAL AUTHORITY OF THE BOROUGH OF BALDWIN, ALLEGHENY COUNTY, PENNSYLVANIA, (hereinafter called the "Authority"), a body corporate and politic of the Commonwealth of Pennsylvania, duly created and existing under the provisions of the Municipality Authorities Act of 1945, as amended:

WITNESSETH:

Whereas, The City, Borough and the Authority entered into an agreement dated May 28, 1959, providing for the construction of a sanitary trunk sewer system designated as "Sewage Collection Project Contract 6, Part L. Glass Run Interceptor Sewer, Sheets L 1 to L 8";

Whereas, Pursuant to said agreement, the authority has constructed the trunk sewer at a total cost of \$268,105.94, of which cost the City is obligated under Paragraph 6 of said agreement to pay 38% thereof;

Whereas, The City has paid the sum of \$86,174.50 to the Authority, being 38% of the final contract amount of \$226,775.00, and is obligated to pay 38% of right of way acquisition costs, engineering expenses, and other cost incidental thereto;

Whereas, The trunk sewer traverses property located in both the City and the Borough and in the agreement the City reserved the right to institute Viewers proceedings for the assessment of land abutting upon said sewer in the City;

Whereas, It would be extremely difficult for the Board of Viewers to properly allocate the costs if the City and the Authority conducted separate Viewers' proceedings;

Whereas, It seems expedient and in the best interest of all parties hereto that the Authority initiate joint Viewers' proceedings on behalf of the City and the Borough.

Now, Therefore, In consideration of the premises and the undertakings of

each party to the others, the parties hereto, each intending to legally bind itself, its successors and its assigns, covenant and agree as follows:

1. The City and the Borough hereby authorize the Authority to initiate joint Viewers Proceedings to collect the costs of construction of the Glass Run Sanitary Trunk Sewers.

2. The Authority agrees to institute and carry to completion Viewers proceedings with respect to all property involved in the Glass Run Sanitary Trunk Sewer project, whether the property be located in the City or in the Borough. The City and Borough agree to cooperate by providing records and other pertinent information to the Authority to facilitate the Viewers' proceedings.

3. The City agrees that it will pay to the Authority 38% of all expenses properly attributable to the Viewers' proceedings, including but not limited to legal fees, engineering fees, appraisal fees and filing costs. Payment will be made by the City upon submission to it of properly authenticated bills, approved by the City, within thirty days after such submission.

4. All parties agree that the Authority may collect all proceeds paid pursuant to and resulting from the Viewers' proceedings. The Authority agrees to distribute to the City 38% of such proceeds in the following manner:

The Authority shall make such payments to the City quarterly on or before the last day of July, November, February and May. Such payments shall commence with the first such quarter in which payments upon assessment are received by the Authority.

5. All liens shall be filed by and in the name of the Authority. With respect to those liens not satisfied within a reasonable time after filing the parties may hereafter agree to provide for full satisfaction of the Authority's obligation to make payment to the City under Paragraph 4, supra.

This agreement is intended to be a supplement to the original agreement dated May 28, 1959, which in all respects is hereby affirmed.

This agreement is executed on behalf of the City of Pittsburgh by virtue of Ordinance _____, approved the _____ day of _____, 1963.

This agreement is executed on behalf of the Borough by virtue of Ordinance _____, approved the _____ day of _____, 1963.

This agreement is executed on behalf of the Authority by virtue of Resolution _____, approved the _____ day of _____, 1963.

AN ORDINANCE—Authorizing and di-

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Public Works be and they are hereby authorized and directed, for and in behalf of the City of Pittsburgh, to enter into an Agreement with the Allegheny County Sanitary Authority and the Borough of Franklin Park for sewage treatment and disposal service by the Sewage Disposal System that serves the City of Pittsburgh to that portion of the Borough that lies within the Lowries Run Drainage Area (except the part that drains toward Bear Run), in substantially the following form:

AGREEMENT

THIS AGREEMENT, made and entered into as of the first day of December, A. D. 1963, by and among

CITY OF PITTSBURGH

(herein called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny,

ALLEGHENY COUNTY SANITARY AUTHORITY

(herein called the "Sanitary Authority"), a Municipal Authority whose members are the City of Pittsburgh and the County of Allegheny, and

BOROUGH OF FRANKLIN PARK, formerly Township of Franklin

(herein sometimes called "Franklin Park Borough" or just "the Borough"), a municipal corporation of the Commonwealth of Pennsylvania also located within the County of Allegheny,

WITNESSETH:

Whereas, The Borough has no sewers and is planning to provide sewers in that portion of its territory which lies within the Lowries Run watershed; and

Whereas, The Borough cannot obtain a permit from the State Sanitary Water Board (the "State Board") for the construction of such sewers unless satisfactory sewage treatment is also provided, in accordance with the requirements of the Pure Streams Law (Act of June 22, 1937, P. L. 1897 as amended); and

Whereas, The Sanitary Authority has constructed and is operating a large sewage treatment plant and over 69 miles of intercepting sewers leading thereto (herein called the "Sewage Disposal System"); and

Whereas, Under the terms of long-term municipal agreements, the Sanitary Authority is providing, by means of its Sewage Disposal System, sewage collection, transportation, treatment and disposal service (herein called "sewage service") to seventy-one municipalities, including several in the Lowries Run drainage area, but excluding the Borough; and

Whereas, The sewage service provided by the Sanitary Authority enables the municipalities it serves to comply with the requirements of the Pure Streams Law and the orders of the State Board; and

Whereas, Franklin Park Borough and Ohio Township are the only municipalities in the Lowries Run drainage area that are not already receiving sewage service from the Sanitary Authority; and

Whereas, An engineering study made at the request of the said Borough and Township disclosed that the Sanitary Authority's Lower Ohio River intercepting sewer has only a limited uncommitted capacity available over and above that reserved for the other municipalities it is now serving under existing agreements; and

Whereas, The Sanitary Authority can accommodate Franklin Park Borough and Ohio Township only (a) if service is limited to sewage and acceptable wastes from those portions of such Borough and Township which lie within the present natural drainage area of Lowries Run, and (b) if stormwater (from roof drains and other sources), as well as subsurface infiltration, is excluded from their sanitary sewers to the maximum extent feasible, as hereinafter set forth; and

Whereas, The said Borough of Franklin Park has requested the Sanitary Authority to provide sewage service for a part only of the portion of its territory which lies in that drainage area, and the Sanitary Authority is willing to do so; and

Whereas, All of the sewage service agreements of the Sanitary Authority provide that the municipalities served must bring their sewage to points of connection with the intercepting sewers of the Sewage Disposal System, which are located along the Ohio, Allegheny and Monongahela Rivers, Chartiers Creek and Turtle Creek; and

Whereas, The point of connection provided by the Sanitary Authority for the municipalities in the Lowries Run watershed as a diversion structure on the Lower Ohio River intercepting sewer of the Sewage Disposal System at the mouth of Lowries Run; and

Whereas, The municipalities in the Lowries Run watershed now being served by the Sanitary Authority are bringing their sewage to such point of connection through the Ross Township Authority's Lowries Run trunk sewer, by agreement with that Authority and/or the Township of Ross; and

Whereas, The Borough wishes to satisfy the State Board's requirements for a sewer permit for its contemplated sewers in the Lowries Run watershed by making suitable agreements (a) with McCandless Township, the McCandless Township Authority, Ross Township and the Ross Township Authority for the use of the trunk sewer in Lowries Run, and (b) with the Sanitary Authority for sewage service; and

Whereas, The Borough is willing to accept and pay for sewage service from the Sanitary Authority subject to all the foregoing limitations, as more particularly set forth hereinafter; and

Whereas, The Borough has decided that such a solution of its sewage problem in the Lowries Run portion of the Borough will be cheaper and more advantageous to its taxpayers and residents than the construction and operation of a new sewage treatment plant or any other feasible solution.

Now, Therefore, In consideration of the premises and the undertakings of each party to the others, THE PARTIES hereto, each intending to legally bind itself, its successors and its assigns, COVENANT AND AGREE as follows:

Section 1. The City and the Sanitary Authority hereby enlarge the service area

of the Sewage Disposal System to include only the part of the Lowries Run drainage area lying within the Borough of Franklin Park that does not drain toward Bear Run; the remainder of the Borough shall be excluded. The part of the Lowries Run drainage area to be included in the Sanitary Authority's enlarged service area shall be circumscribed by the watershed line determined by the contour lines shown on U. S. Geological Survey Map, scale 1:24,000, Emsworth Quadrangle (1953). In this Agreement the term "Lowries Run portion of the Borough" shall include only the aforescribed part of the Lowries Run portion of the Borough; and any reference to sewage service to the Borough shall mean service limited to such territory only, subject to the provisions of Section 4 of this Agreement.

In no event shall the rights of the Borough under this Agreement exceed the rights of the municipalities in the original service area under the long-term agreements of December 1, 1949, executed by them.

Section 2. The City covenants with the Borough and the Sanitary Authority that the sewage rates and charges (as distinguished from extra charges for construction such as those payable by users of the Upper Allegheny System) to be imposed and collected by the Sanitary Authority as hereinafter set forth, shall be uniform throughout the area served by the Sewage Disposal System and in particular shall be the same within the City as within the Borough, and that all duties and obligations hereinafter imposed upon the Borough (except the sewer limitations set forth in Section 4 and the lump-sum type of payment provided for in Section 7 hereof) will likewise be assumed and borne by the City.

Section 3. The Sanitary Authority, pursuant to long-term agreements with numerous other municipalities, has already:

(a) issued and sold revenue bonds, secured by its revenues and receipts collected pursuant to this Agreement and to similar agreements with other municipalities and by all other revenues and receipts of the Sewage Disposal System, in sufficient amount to pay

(1) the cost of constructing the Sewage Disposal System and placing the same in operation,

(2) all loans and advances heretofore made to the Sanitary Authority by the City and the Federal Works Administration,

(3) all obligations incurred by the Sanitary Authority which were repayable out of such bond proceeds, and

(4) all other lawful requirements of the Sanitary Authority, including, but without limitation, the cost of all lands, property, rights, easements and franchises acquired, financing charges, the cost of legal services, administrative expenses and all other expenses necessary or incident to the construction of the Sewage Disposal System and to the financing thereof;

(b) upon receipt of the proceeds of such bonds, completed construction of the Sewage Disposal System, the actual construction work having been done under separate contracts awarded to the lowest responsible bidder for each contract;

and, pursuant to the instant Agreement, shall:

(c) upon completion of the Borough's sewers in the Lowries Run watershed and the connection thereof—through a sewer or sewers of McCandless Township and/or the McCandless Township Authority—to the Ross Township Authority's Lowries Run trunk sewer (all of which the Borough hereby undertakes to do or cause to be done promptly and at no cost to the Sanitary Authority), intercept all sewage and acceptable wastes of the Lowries Run portion of the Borough which are discharged from such Lowries Run trunk sewer into the Sanitary Authority's Lower Ohio River intercepting sewer, transport such sewage and wastes to its treatment plant, provide such treatment and disposal thereof as may be required by law, and operate the Sewage Disposal System in an efficient and economical manner; and

(d) make such changes in and additions to the Sewage Disposal System as may be necessary to enable the Borough to comply with any fu-

ture lawful orders of the State Board or any other State or Federal Agency in respect of the treatment and disposal of the municipal sewage and acceptable wastes from the Lowries Run portion of the Borough which enter the Sanitary Authority's Lower Ohio River intercepting sewer, and shall issue additional revenue bonds for such purpose or purposes; provided, however, that the Sanitary Authority shall have the right to increase its sewage charges to such extent as will yield the additional revenue needed to meet all bond requirements and operating and other expenses incurred by the Sanitary Authority in the design, construction and operation of such added facilities.

If any portions of the Sanitary Authority's future intercepting sewers and appurtenances thereof are located in the Borough, the Sanitary Authority shall have the right to enter upon and open such streets, public thoroughfares and vacant land owned by the Borough as may be necessary to install, construct, extend, replace, repair and maintain the same or any part thereof; provided, however, that all pavements and underground structures disturbed in the course of such work shall be restored to substantially their original condition. No Borough permit or license shall be required for any such work, and the Borough hereby waives all fees and charges in connection therewith.

It is understood and agreed that the Sanitary Authority shall indemnify and save the Borough harmless from all costs and expenses (except those provided for in this Agreement), liability, claims and demand of any sort arising out of the construction, extension, replacement, operation, maintenance, repair or possession of the Sewage Disposal System by the Sanitary Authority.

Section 4. The Borough understands that the intercepting sewer of the Sewage Disposal System that will serve the Lowries Run portion of the Borough (herein called the "Lower Ohio River intercepting sewer") has been constructed along the right bank of the Ohio River below the Sanitary Authority's treatment plant. The Borough further understands and agrees that the Sanitary Authority will accept for treatment and disposal only such sewage and

acceptable wastes entering sewers in the Lowries Run portion of the Borough as are discharged into the Sanitary Authority's said Lower Ohio River intercepting sewer at the point where the Ross Township Authority's Lowries Run trunk sewer connects therewith, and that it shall be the obligation of the Borough to bring its sewage and wastes to such point at its own cost and expense.

The Borough covenants that it will, as soon as feasible, construct and complete a system or systems of sanitary sewers in the Lowries Run portion of the Borough, and will connect the same to the trunk sewer in Lowries Run (belonging in part to the McCandless Township Authority and/or the Township of McCandless and in part to the Ross Township Authority and/or the Township of Ross), to the end that all the sewage of the Lowries Run portion of the Borough shall reach the Sewage Disposal System for treatment and disposal as herein provided.

The Borough understands that, in compliance with the Borough's request, this Agreement (together with the similar agreement to be executed with Ohio Township) allocates to Franklin Park Borough and Ohio Township the remainder of the full service capacity of the Sanitary Authority's Lower Ohio River intercepting sewer, and that surface, subsurface or storm water from either of these municipalities will overload such intercepting sewer. The Borough therefore covenants and agrees to see to it (a) that only sanitary sewers approved by the Sanitary Authority shall be connected to the trunk sewer in Lowries Run; (b) that no storm water connections to such sanitary sewers will be authorized or suffered to remain; and (c) that all such sanitary sewers will be so designed, constructed, maintained and kept in repair that infiltration of groundwater thereinto shall not exceed 10,000 gallons per day per mile of sewer. The Borough further agrees that the design and construction of all such sanitary sewers shall be subject to the written approval of the Sanitary Authority, the necessary examination of plans, inspection of construction, and testing of completed sewers to be at the sole expense of the Borough.

More specifically, the Borough cov-

enants that it will not authorize or permit any connections of storm sewers and of roof, driveway, yard or other storm or surface water drains to sanitary sewers in the Lowries Run portion of the Borough. The Borough shall also divert and/or exclude the flow of any surface or sub-surface spring or stream or acid drainage of a coal mine which enters into any such sanitary sewer. Upon receipt of written notice from the Sanitary Authority of any such condition, the Borough agrees to proceed promptly and diligently to disconnect, exclude and/or divert every such prohibited connection, drainage or flow from the sanitary sewers. Upon failure of the Borough to take appropriate action promptly after receiving such written notice from the Sanitary Authority, the Sanitary Authority shall have the right to disconnect the offending sewer, or to construct the necessary facilities to divert and exclude therefrom such storm or surface water, surface or sub-surface spring or stream, or acid drainage, and in any such case to charge the cost thereof to the Borough.

Section 5. The City and the Sanitary Authority reserves the right, subject to the approval of the State Board but without consulting or notifying the Borough, to permit other municipalities to pump or drain additional sewage or wastes from territory outside the Sanitary Authority's present service area into the Sewage Disposal System for treatment and disposal by the Sanitary Authority; provided, however, that no such permission shall be given unless an agreement similar to the present Agreement, (or, if the additional territory is served by the Sanitary Authority's Upper Allegheny System, an agreement similar to that executed by the other municipalities served thereby) shall be executed with the affected municipality or municipalities.

The City and the Sanitary Authority also reserve the similar right to enter into agreements with industrial firms within and without the service area for the treatment and disposal of their sewage and wastes which do not enter a municipal sewer; provided, however, that the service charges (if such firms are not served by the Upper Allegheny System) shall be at least as high as those imposed on the Borough and its water

users by this Agreement, or (if such firms are in the service area of the Upper Allegheny System) at least as high as those imposed on the affected municipalities and their residents by the Upper Allegheny Agreement.

Section 6. The Borough covenants and agrees that the Sanitary Authority shall be the sole and exclusive agency, during the entire life of this Agreement, to provide sewage treatment and disposal service to the Lowries Run portion of the Borough and to all water users therein who or which discharge sewage or wastes into municipal or authority sewers. The Borough hereby covenants to pay to the Sanitary Authority its prevailing rates for sewage service to all such water users, and to perform all the acts and discharge all the duties and obligations imposed upon it by this Agreement. The Borough further covenants that it will not itself engage in the business of providing sewage treatment and disposal service to such water users, nor will it authorize or permit any other agency, public or private, to do so in competition with or in substitution for the Sanitary Authority. The provisions of this Section shall not apply to sewage or wastes refused by the Sanitary Authority because of violation of the terms of this Agreement.

Section 7. The Sanitary Authority shall, for the services and facilities furnished or to be furnished by it, impose upon and collect from the Borough, for sewage service to the owner, tenant or occupant of each lot or parcel of land within the Lowries Run portion of the Borough from which sewage or wastes enter a municipal or authority sewer and thence may reach the Sewage Disposal System (hereinafter sometimes called a "user" or "water user"), its prevailing rates, which shall be based or computed upon the quantity of water used in or upon such lot or parcel as determined by gauging or metering or otherwise.

The Sanitary Authority's schedule of rates shall impose reasonable minimum charges, may include such block rates for metered water users and such charges for flat-rate water users as the Sanitary Authority shall determine, and shall provide extra charges for commercial and industrial wastes which impose an extraordinary burden on the Sewage

Disposal System. The schedule shall be adjusted from time to time in such manner as the Sanitary Authority shall deem necessary or proper to insure the collection of adequate revenue to meet financial requirements.

Section 8. All charges for sewage service shall be computed on the basis of the quantity of water used, whether the water is furnished by a municipal or authority waterworks system or secured from any other source.

The sewage service charge to be paid by the Borough for sewage service to each water user shall be computed as follows:

a. Metered water users—by applying the Sanitary Authority's schedule of sewage service rates to the quantity of water delivered to each water user during the preceding quarter year or other meter period, as measured by the most recent water meter reading;

b. Flat-rate water users—by applying the percentage set forth in the Sanitary Authority's schedule of such rates then in effect to the flat-rate water bill;

c. Users of water taken from a private water source or public stream—by applying the Sanitary Authority's schedule of such rates then in effect to the quantity of water used as estimated by the Sanitary Authority; provided, however, that if any such water user or the Borough shall at his or its own expense install and maintain in good operating condition a meter or other measuring device of a type approved by the Sanitary Authority, the amount payable by the Borough for sewage service to such water user shall be based upon the quantity of water used as so measured.

If the Borough or other water supplying agency does not make available promptly to the Sanitary Authority the necessary data for computing the sewage service charge of any water user, the charge for sewage service to such water user shall be based upon the estimated quantity of water used by such water user, and an adjustment in such charge will be made if and when the actual measured usage or flat-rate water

charge is made known to the Sanitary Authority.

There shall be no free services rendered by the Sewage Disposal System, and the Borough's obligations under this agreement shall include payment for sewage service provided to the Borough and to all public corporations, all charitable or non-profit institutions and all school districts and other political subdivisions, in accordance with the established schedule of sewage service charges.

If any substantial portion of the water used regularly on any lot or parcel of land does not enter the sewerage system, the Borough may secure a reduction in the amount of the sewage service charges to be paid for sewage service to such water user, subject to the established minimum charges, if such water user or the Borough shall, at his or its own expense and subject to such regulations as may be prescribed by the Sanitary Authority, install and maintain a separate meter or other measuring device approved by the Sanitary Authority for measuring the water so used, in which event the quantity of water so used shall thereafter be excluded in computing the sewage service charges to be paid by the Borough for sewage service to such water user.

In cases where the character of sewage or industrial wastes from any commercial, manufacturing or industrial plant, building or premises is such that it imposes a burden upon the Sewage Disposal System in addition to the burden imposed by the average sewage, such additional charge shall be made therefor as the Sanitary Authority shall deem to be fair and equitable to meet the additional cost of collecting, transporting, treating and disposing of such sewage or wastes; or the Sanitary Authority may, if it deems it advisable, require the owner, tenant or occupant of such commercial, manufacturing or industrial plant, building or premises to pre-treat such sewage or wastes in such manner as shall be specified by the Sanitary Authority before discharging such sewage or wastes into the sewerage system.

Section 9. In order to enable the Sanitary Authority to compute its sewage service charges based thereon, as provided in Section 8 hereof, the Bor-

ough, as long as it operates its own waterworks system, shall furnish to the Sanitary Authority, not later than the 15th day of the month following the month during which water bills are issued, a list or lists of all water meter readings and flat rate water bills issued during the preceding calendar month, together with the basis for each flat-rate water user's water bill, and shall include therein the meter readings of meters installed by water users taking water from a private water source or public stream. The Sanitary Authority will request similar information from the private water company, municipal authority or other agency supplying water to any water users within the Lowries Run portion of the Borough. If the Sanitary Authority is required to pay more for obtaining water usage data for water users in the Borough than the average cost paid by the Sanitary Authority for similar data regarding all other water users served by it, the excess shall be repaid to it by the Borough.

The Sanitary Authority will reimburse the Borough or other water supplying agency, on or before April first of each year, for the reasonable added clerical expense incurred by it during the previous calendar year in preparing the lists of metered water data and of flat-rate bills hereinabove referred to but not for the cost of reading meters, excepting only the cost of reading such meters as may be installed by or for users of water who are not connected with their respective waterworks systems.

Section 10. The Borough agrees that if the schedule of rates in effect at any time does not, or in the opinion of the Sanitary Authority may not, yield sufficient revenues to meet the Sanitary Authority's financial requirements, or if the Sanitary Authority finds that such schedule has proved to be inequitable, the Sanitary Authority shall have the right at any time and from time to time to revise and adjust its sewage service charges in such manner and to such extent as it may deem advisable.

At least sixty (60) days before any revised rates shall become effective, the Sanitary Authority shall submit in writing to the Borough a statement setting forth the new schedule of sewage service charges and the reasons why it was

found necessary or desirable to put them into effect. Such new schedule of charges shall go into effect at the time specified in said statement (not earlier, however, than sixty (60) days from the furnishing of such statement), unless suspended by a final decree of a court of competent jurisdiction.

Section 11. The Borough covenants to pay to the Sanitary Authority the aggregate amount of all sewage charges which are chargeable under Sections 7-10 of this Agreement for sewage service to its water users, in consideration of the performance by the Sanitary Authority of the Borough's legal duty to avoid the pollution of the waters of the Commonwealth. The individual charges for sewage service to each water user shall be computed in the manner hereinbefore set forth, and all such individual bills shall be totaled. The aggregate amount thereof shall be billed quarterly to the Borough. The Borough covenants that it will pay, within sixty (60) days of the date of the bill therefor, each such aggregate quarterly amount for sewage service to all water users in the Lowries Run portion of the Borough, plus such other charges as may be chargeable to the Borough under this Agreement. The Sanitary Authority will refund to the Borough on or before April first of each year, as a credit for the saving in billing expense, a sum equal to the average cost per customer incurred by the Sanitary Authority during the preceding calendar year for billing and collecting its charges in all municipalities served by it in which individual water users are billed separately by the Sanitary Authority, multiplied by the average number of individual water users in the Lowries Run portion of the Borough.

Section 12. Any connection in the Borough through which sewage or wastes emanating from any territory outside the present natural geographic limits of the Lowries Run portion of the Borough may reach any intercepting sewer of the Sanitary Authority shall promptly be shut off or removed by the Borough. During the time that such sewage continues to enter any sewer leading to the Sewage Disposal System prior to such shut-off or removal, the Borough shall pay to the Sanitary Authority the estimated cost of collecting, transporting, treating and disposing of such sewage,

such estimated cost to approximately the same as if the Borough were subject to the Sanitary Authority's prevailing sewage service charges for sewage service to the water users within such territory.

Section 13. The Borough shall annually provide in its budget for obtaining the funds necessary to meet its obligations under this Agreement. On or before October 1 of each year the Sanitary Authority shall supply to the Borough's governing body a written estimate of (a) the total aggregate amount of all sewage service charges plus (b) the estimated amount (if any) due under Section 12 of this Agreement which the Borough will probably be required to pay to the Sanitary Authority during the ensuing fiscal year. The Borough shall, by proper ordinance, promptly levy a special tax, impose a sewer rental or sewage charge, or provide for obtaining revenues in any other lawful manner, or resort to any two or more methods of securing the funds required under this Agreement, in such manner as to assure that the Borough shall obtain or collect during the ensuing fiscal year, in addition to all other revenues it may require for other purposes, a sum which, together with any unused moneys allocated for payment to the Sanitary Authority hereunder remaining from previous years, will be at least 120% of such estimated amount to become due under this Agreement during such year. If the entire amount due the Sanitary Authority under this Agreement for any year is not paid out of the current revenues of the Borough for such year, the balance thereof shall be paid out of the current revenues of succeeding years. A sufficient portion of the total annual revenues of the Borough to meet the requirements of this Agreement shall be deposited to the credit of a special fund or funds, the moneys in which shall be used by the Borough to meet their obligations under this Agreement, and shall not be used for any other purpose whatever.

Section 14. The Sanitary Authority shall have the right to promulgate, issue, publish and enforce rules and regulations governing its activities and carrying into effect the provisions of this Agreement. Such rules and regulations may include provisions prohibiting or

regulating the discharge into the municipal or authority sewers in the Borough of oils, acids and other substances which may be harmful to the Sanitary Authority's sewers, pumping stations or other structures or which may interfere with the sewage treatment processes at the Sanitary Authority's plant, and prohibiting the discharge thereinto of surface or ground water.

The Borough may, in its own discretion and without let or hindrance from the Sanitary Authority, permit the connection with any sewer that may discharge into the Sewage Disposal System of any and all premises used wholly as private dwellings, but no permit shall be issued by the Borough for the connection with any such sewer of any premises used wholly or in part for commercial or industrial purposes unless the application for such permit shall first have been submitted to and been approved by the Sanitary Authority. The Borough shall supply to the Sanitary Authority promptly a copy of every sewer connection permit issued in the Lowries Run portion of the Borough including those for residential connections, and shall also supply a copy of plans for all municipal or authority sewers therein prior to construction thereof.

The Borough recognizes that the carrying out by the Sanitary Authority of its obligations under this Agreement will enable the Borough to perform the duty imposed upon it by law to provide for the proper treatment and disposal of the sewage of the Lowries Run portion of the Borough, and the Borough therefore agrees to exercise for the benefit of the Sanitary Authority all rights and powers which it may possess to carry into effect the purposes and intent of this Agreement. The Borough accordingly agrees, on request of the Sanitary Authority, to enact an ordinance incorporating all or designated portions of the Sanitary Authority's rules and regulations and providing appropriate penalties for the violation thereof, to amend such ordinance from time to time as requested by the Sanitary Authority, and to enforce the provisions thereof fully and prosecute all violators thereof diligently.

Section 15. This Agreement shall become effective immediately, and shall remain in full force and effect until

the date of expiration of the legal existence of the Sanitary Authority or until the expiration of one calendar year following the payment in full of all bonds, notes and other obligations of the Sanitary Authority, original and refunding, issued by it to finance the construction, replacement, maintenance and operation of the Sewage Disposal System and the Upper Allegheny System and additions thereto, whichever date shall be later.

IN WITNESS WHEREOF, City of Pittsburgh has caused this Agreement to be executed by its Mayor and Director of the Department of Public Works and its official seal to be hereunto impressed, pursuant to Ordinance No. _____, duly enacted and approved on the _____ day of _____, 1963; Allegheny County Sanitary Authority has caused this Agreement to be executed by its Chairman and its official seal to be hereunto impressed and attested by its Secretary, pursuant to a resolution duly adopted by its Board on the _____ day of _____, 1963; and Borough of Franklin Park (formerly Township of Franklin) has caused this Agreement to be executed by the Chairman of its Board of Supervisors and its official seal to be hereunto impressed and attested, pursuant to Ordinance No. _____, duly enacted and approved on the ____ day of _____, 1963.

Section 3. Declaration and Payment of Tax.

(a) Net Profits:

(1) Every taxpayer who anticipates any net profits shall, on or before April 15, 1964, make and file with the Treasurer on a form prescribed by the Treasurer, a declaration of his estimated net profits during the period beginning January 1, 1964, and ending December 31, 1964, setting forth the estimated amount of net profits anticipated by him during the said period and subject to the tax, the amount of tax imposed by this ordinance on such estimated net profits, and such other information as the Treasurer may require.

The first installment at the time of filing the declaration and the other installments on or before June 15, 1964, September 15, 1964, and January 15, 1965 respectively.

(2) Any taxpayer who first anticipates any net profits after April 15, 1964, shall make and file the declaration hereinabove required on or before June 15, 1964, September 15, 1964, or December 31, 1964, whichever of these dates next follows the date on which the taxpayer first anticipates such net profits. The taxpayer making the declaration shall, at the time of filing thereof, pay to the Treasurer the estimated amount of tax as due thereon. Provided, however, that the taxpayer shall have the right to pay the estimated tax in equal installments on or before the quarterly installment payment dates which remain after the filing of the declaration.

(3) The Treasurer is hereby authorized to provide by regulation for the making and filing of adjusted declarations of estimated net profits, and for the payments of the estimated tax in cases where a taxpayer who has filed the declaration hereinabove required anticipates additional net profits not previously declared or finds that he has overestimated his anticipated net profits.

(4) On or before April 15, 1965, every taxpayer who has received net profits shall make and file with the Treasurer, on a form prescribed by him, a final return showing all his net profits for the period beginning January 1, 1964, and ending December 31, 1964, the total amount of tax due, the amount of estimated tax paid under the provisions of this section, and the balance due. Every taxpayer making such return shall, at the

time of filing thereof, pay to the Treasurer the amount of tax shown as due thereon.

Section 4. Collection at Source:

(a) Every person within the City of Pittsburgh who employs one or more persons on a salary, wage, commission or other compensation basis, other than domestic servants, who has not previously registered, shall, within fifteen (15) days after becoming an employer, register with the Treasurer his name and address and such other information as the Treasurer may require.

(b) Every person within the City of Pittsburgh who employs one or more persons on a salary, wage, commission or other compensation basis, other than domestic servants, shall deduct monthly, or more often than monthly, at the time of payment thereof, the tax imposed by this ordinance on the salaries, wages, commissions and other compensation due to his employee or employees, and shall, on or before April 30, 1964, July 31, 1964, October 31, 1964, and January 31, 1965, file a return of taxes deducted on a form prescribed by the Treasurer, and pay to the Treasurer the amount of taxes deducted during the preceding three-month periods ending March 31, 1964, June 30, 1964, September 30, 1964, and December 31, 1964, respectively.

(c) On or before February 28, 1965, every such employer shall file with the Treasurer on forms prescribed by him:

(1) An annual return showing the total amount of salaries, wages, commissions and other compensation paid, the total amount of tax deducted, and the total amount of tax paid to the Treasurer during the period beginning January 1, 1964, and ending December 31, 1964; and

(2) A return for each employee employed during all or any part of the period beginning January 1, 1964, and ending December 31, 1964, setting forth the employee's name, address and Social Security number, the amount of salaries, wages, commissions or other compensation paid to the employee during said period, the amount of tax deducted, the amount of tax paid to the Treasurer, and such other information as the

Treasurer may require. Every employer shall furnish a copy of the individual return to the employee for whom it is filed.

(d) Every employer who discontinues business prior to December 31, 1964, shall, within fifteen (15) days after the discontinuance of business, file the returns hereinabove required and pay the tax due.

(e) The failure or omission of any employer to make the deductions required by this section shall not relieve any employee from the payment of the tax or from complying with the requirements of this ordinance relating to the filing of declarations and returns.

Section 5. Powers and Duties of Treasurer.

(a) It shall be the duty of the Treasurer to collect and receive the taxes, fines and penalties imposed by this ordinance. It shall also be his duty to keep a record showing the amount received by him from each person paying the tax and the date of such receipt.

(b) The Treasurer is hereby charged with the administration and enforcement of the provisions of this ordinance, and is hereby empowered to prescribe, adopt, promulgate and enforce rules and regulations relating to any matter pertaining to the administration and enforcement of this ordinance, including provisions for the re-examination and correction of declarations and returns, and of payments alleged or found to be incorrect, or as to which an overpayment is claimed or found to have occurred, and to prescribe forms necessary for the administration of this ordinance.

(c) The Treasurer and agents designated by him are hereby authorized to examine the books, papers and records of any employer or supposed employer, or of any taxpayer or supposed taxpayer, in order to verify the accuracy of any declaration or return, or if no declaration or return was filed, to ascertain the tax due. Every employer or supposed employer, and every taxpayer or supposed taxpayer, is hereby directed and required to give to the Treasurer, or to any agent designated by him, the means, facilities and opportunity for such examinations and investigations, as are hereby authorized.

(d) Any information gained by the Treasurer, his agents, or by any other official or agent of the City of Pittsburgh, as a result of any declarations, returns, investigations, hearings or verifications required or authorized by this ordinance, shall be confidential, except for official purposes and except in accordance with a proper judicial order, or as otherwise provided by law.

(e) Any person aggrieved by any action of the Treasurer shall have the right to appeal as provided by law.

Section 6. Suit for Collection of Tax.

(a) The Treasurer may sue for the recovery of taxes due and unpaid under this ordinance.

(b) Any suit brought to recover the tax imposed by this ordinance shall be begun within six (6) years after such tax is due, or within six (6) years after the declaration or return has been filed, whichever date is later. Provided, however, that this limitation shall not prevent the institution of a suit for the collection of any tax due or determined to be due in the following cases:

(1) Where no declaration or return was filed by any person although a declaration or return was required to be filed by him under provisions of this ordinance.

(2) Where an examination of the declaration or return filed by any person, or of other evidence relating to such declaration or return in the possession of the Treasurer, reveals a fraudulent evasion of taxes, including, but not limited to, substantial understatement of taxes deducted and of actual or estimated net profits or earnings.

(3) Where any person has deducted taxes under the provisions of this ordinance, and has failed to pay the amounts so deducted to the Treasurer.

Section 7. Interest and Penalties.

If for any reason the tax is not paid when due, interest at the rate of six percentum (6%) per annum on the amount of said tax, and an additional penalty of one-half of one percentum (1/2 of 1%) of the amount of the unpaid tax for each month or fraction thereof during which the tax remains

unpaid, shall be added and collected. Where suit is brought for the recovery of any such tax, the person liable therefor shall, in addition, be liable for the costs of collection and the interest and penalties herein imposed.

Section 8. Payment under Protest and Refunds.

The Treasurer is hereby authorized to accept payment under protest of the amount of tax claimed by the City in any case where any person disputes the validity or amount of the City's claim for the tax. If it is thereafter judicially determined by a court of competent jurisdiction that there has been overpayment to the Treasurer, the amount of the overpayment shall be refunded to the person who paid under protest. All refunds shall be made in conformance with the procedure prescribed in Ordinance No. 162, approved May 9, 1962.

Section 9. Applicability.

The tax imposed by this ordinance shall not apply:

(a) To any person as to whom it is beyond the legal power of the City of Pittsburgh to impose the tax herein provided for under the Constitution of the United States and the Constitution and laws of the Commonwealth of Pennsylvania.

(b) To institutions or organizations operated for public, religious, educational or charitable purposes, to institutions or organizations not organized or operated for private profit, or to trusts and foundations established for any of the said purposes.

This section shall not be construed to exempt any person who is an employer from the duty of collecting the tax at source from his employees and paying the amount collected to the Treasurer under the provisions of Section 4 of this ordinance.

Section 10. Fines and Penalties for Violation of Ordinance.

(a) Any person who fails, neglects or refuses to make any declaration or return required by this ordinance, any employer who fails, neglects or refuses to register or to pay the tax deducted from his employees, any person who refuses to permit

the Treasurer or any agent designated by him to examine his books, records and papers, and any person who makes any incomplete, false or fraudulent return, or attempts to do anything whatsoever to avoid the full disclosure of the amount of his net profits or earnings to avoid the payment of the whole or any part of the tax imposed by this ordinance, shall, upon conviction thereof before any alderman or magistrate, be sentenced to pay a fine of not more than Three Hundred dollars (\$300.00) for each offense, and costs, and, in default of payment of said fine and costs to be imprisoned in the Allegheny County Jail or the Allegheny County Workhouse for a period not exceeding thirty (30) days.

(b) Any person who divulges any information which is confidential under the provisions of subsection (d) of Section 5 of this ordinance, shall, upon conviction thereof before any alderman or magistrate, be sentenced to pay a fine of not more than Three Hundred dollars (\$300.00) for each offense, and costs, and, in default of payment of said fines and costs to be imprisoned in the Allegheny County Jail or the Allegheny County Workhouse for a period not exceeding thirty (30) days.

(c) The penalties imposed under this section shall be in addition to any other penalty imposed by any other section of this ordinance.

(d) The failure of any person to receive or procure the forms required for making the declaration or returns required by this ordinance shall not excuse him from making such declaration or return.

Section 11. Severability.

The provisions of this ordinance are severable. If any sentence, clause or section of this ordinance is for any reason found to be unconstitutional, illegal or invalid, such unconstitutionality, illegality or invalidity shall not affect or impair any of the remaining provisions, sentences, clauses or sections of this ordinance. It is hereby declared to be the intent of the City Council that this ordinance would have been adopted had such unconstitutional, illegal or invalid sentence, clause or section not been included herein.

Section 1. This ordinance shall be known and may be cited as the "City Amusement Tax Ordinance".

Producer: Any person, as herein defined, conducting any place of amusement, as herein defined, where the general public or a limited or selected number thereof, may, upon the payment of an established price, attend or engage in any amusement.

The singular shall include the plural and the masculine shall include the feminine and the neuter.

Section 3. (a) On and after the effective date of this ordinance, it shall be unlawful for any producer to continue to conduct, or thereafter to begin to conduct, any form of amusement at any permanent or temporary place of amusement, or any itinerant form of amusement, within the City of Pittsburgh, unless an amusement permit or permits shall have been issued to him, the fees paid therefor as now prescribed by law, and the tax herein imposed paid in accordance with the provisions herein made.

(b) Every producer desiring to continue to conduct, or hereinafter to begin to conduct, any amusement within the City of Pittsburgh, shall file an application for a permanent, temporary or itinerant amusement permit or permits, as the case may be, with the Treasurer. Every application for such permit or permits shall be made upon a form prescribed, prepared and furnished by the Treasurer, and shall set forth the name under which the applicant conducts or intends to conduct a permanent or temporary place, or an itinerant form of amusement, the location of the permanent or temporary place of amusement, whether or not the applicant is the holder of a mercantile license in effect when the application is made, and, if so, the number of such license and such other information as the Treasurer may require. If the applicant has or intends to have more than one place of amusement within the City of Pittsburgh, the application shall state the location of each place of amusement, and in the case of an itinerant form of amusement, the date and length of time such amusement is to be conducted at

each place. In the case of an application for a permit for a temporary place of amusement, the application shall state the name and address of the owner, lessee or custodian of the premises upon which such amusement is to be conducted. If the applicant is an association or a corporation, the names and addresses of the principal officers thereof and any other information prescribed by the Treasurer for purposes of identification shall be stated. The application shall be signed and verified by oath or affirmation by the producer, if a natural person, and in the case of an association by a member or partner thereof, and in the case of a corporation by an executive officer thereof, or some person specifically authorized by the corporation to sign the application, to which shall be attached the written evidence of his authority.

Upon approval of the application and payment of such fees as are now required by law, the Treasurer shall grant and issue to each applicant an amusement permit for each place of amusement within the City of Pittsburgh set forth in his application. Amusement permits shall not be assignable, and shall be valid only for the persons in whose names issued, and for the conduct of amusements at the places designated therein, and shall at all times be conspicuously displayed at the places for which issued. The producer of an itinerant form of amusement shall notify the Treasurer promptly of any change in the original contemplated itinerary, either as to date or time of the conduct of the amusement at each place.

(c) The Treasurer may suspend or after hearing revoke an amusement permit whenever he finds that the holder thereof has failed to comply with any of the provisions of this ordinance. Upon suspending or revoking any amusement permit the Treasurer shall request holder thereof to surrender to him immediately all permits or duplicates thereof issued to him, and the holder shall surrender promptly all such permits to the Treasurer as requested. Whenever the Treasurer suspends an amusement permit, he shall notify the holder immediately, and afford him a hearing if desired and if a hearing has not already been afforded. After such hearing the Treasurer shall either rescind his order of suspen-

sion, or good cause appearing therefor shall continue the suspension or revoke the permit.

Section 4. (a) For the calendar year 1964 a tax is hereby imposed upon the admission fee or privilege to attend or engage in any amusement at the rate of ten percentum (10%) of the established price charged the general public, or a limited or selected group thereof, by any producer for such privilege, which shall be paid by the person acquiring such privilege.

(b) In the case of persons admitted free to any place of amusement at a time and under circumstances for which an established price is charged to other persons, the tax imposed by this ordinance shall be computed on the established price charged to such other persons for the same or similar accommodations, to be paid by the persons so admitted. In the case of persons admitted at a reduced rate, the tax imposed by this ordinance shall be computed on the reduced rate paid. Provided however, that children under twelve (12) years of age, disabled veterans and members of the armed services when on active duty and in uniform, who are admitted free of charge to any place of amusement, shall not be required to pay the tax imposed by this ordinance.

(c) In the case of persons having the permanent use of boxes or seats in any place of amusement, or a lease for the use of such boxes or seats in such place of amusement, the tax imposed by this ordinance shall be computed on the price charged for such boxes or seats, or rental charged for the use of such boxes or seats, in such place of amusement, such tax to be paid by the holder or lessee.

Section 5. (a) Producers shall collect the tax imposed by this ordinance and shall be liable to the City of Pittsburgh as agents thereof for the payment of the same into the City treasury as hereinafter provided in this ordinance.

(b) Where permits are obtained for conducting temporary amusements by persons who are not the owners, lessees or custodians of the places where the amusements are to be conducted, or where the temporary amusement is permitted by the owner, lessee or custodian

of any place to be conducted without the procurement of a permit or permits required by this ordinance, the tax imposed by this ordinance shall be paid by the owner, lessee or custodian of such place where such temporary amusement is held or conducted, unless paid by the producer conducting the amusement.

Section 6. For the purpose of ascertaining the amount of tax payable, by producers to the City of Pittsburgh, it shall be the duty of:

(a) Every producer, except as hereinafter provided, conducting a place of amusement, on or before the last day of each month, to transmit to the Treasurer, on a form prescribed and prepared by him, a report under oath or affirmation, of the amount of tax collected by him during the preceding month.

(b) Every producer conducting a temporary place of amusement, or itinerant form of amusement, shall file a report with the Treasurer, or any duly authorized agent of his, promptly after each performance.

All reports required under this section shall show such information as the Treasurer shall prescribe.

Every producer, at the time of making every report required by this section, shall compute and pay to the Treasurer the taxes collected by him and due to the City of Pittsburgh for the period for which the report is made. Provided, however, that such producer may deduct therefrom two percentum (2%) thereof, if payment is made on or before the due date thereof. The amount of all taxes imposed under the provisions of this ordinance shall in the case of places of permanent amusement be due and payable on the last day of the next succeeding month, and in the case of temporary or itinerant forms of amusement it shall be due and payable on the day the reports in such cases are required to be made under this section, and all such taxes shall bear interest at the rate of one percentum (1%) per month or fractional part of a month from the date they are due and payable until paid.

If any producer shall neglect or refuse to make any report and payment

as herein required, an additional ten percentum (10%) of the amount of the tax shall be added by the Treasurer and collected.

Section 7. All such taxes shall be recoverable by the Treasurer as other debts of like amount are now by law recoverable.

Section 8. All taxes, interest and penalties received, collected or recovered under the provisions of this ordinance shall be paid into the treasury of the City of Pittsburgh for the use and benefit of said City.

Section 9. The Treasurer is hereby charged with the administration and enforcement of the provisions of this ordinance, and is hereby empowered to prescribe, adopt, promulgate and enforce rules and regulations relating to any matter pertaining to the administration and enforcement of this ordinance, including provision for the re-examination and correction of returns and payments alleged or found to be incorrect, or as to which an overpayment is claimed or found to have occurred. Any person aggrieved by any decision of the Treasurer shall have the right of appeal as provided by law. All refunds shall be made in conformance with the procedure prescribed in Ordinance No. 162, approved May 9, 1962.

Section 10. The provisions of this ordinance are severable, and if any of its provisions shall be held illegal, invalid or unconstitutional, the decision of the Court shall not affect or impair any of the remaining provisions of this ordinance. It is hereby declared to be the legislative intent that this ordinance would have been adopted if such illegal, invalid or unconstitutional provisions had not been included herein.

Section 11. Any person, copartnership, association or corporation which shall fail, neglect or refuse to comply with any of the terms or provisions of this ordinance, or of any regulation or requirement pursuant thereto and authorized thereby, shall, upon conviction thereof before any alderman or magistrate, be sentenced to pay a fine of not more than three hundred dollars (\$300.00), and in default of payment of said fine be imprisoned in the Allegheny County Jail or Allegheny County Work-

Any person aggrieved by any decision of the Treasurer shall have the right to appeal to the County Court of Allegheny County as in other cases provided.

(c) The Treasurer is hereby authorized to examine the books, papers and records of any taxpayer or supposed taxpayer in order to verify the accuracy of any return made, or if no return was made, to ascertain the tax due. Every such taxpayer, or supposed taxpayer, is hereby directed and required to give to the Treasurer the means, facilities and opportunity for such examinations and investigations as are hereby authorized.

(d) No deficiency assessment may be made more than five (5) years after the date on which such taxes should have been paid, except where a fraudulent return or no return has been filed.

Section 9. Suit on Collection: Penalty.

(a) The Treasurer may sue for the recovery of taxes due and unpaid under this ordinance. Such suits shall be begun within one (1) year after such taxes have been assessed.

(b) If for any reason the tax is not paid when due, interest at the rate of six percentum (6%) per annum on the amount of said tax, and an additional penalty of one-half of one percentum ($\frac{1}{2}$ or 1%) of the amount of the unpaid tax for each month or fraction thereof during which the tax remains unpaid, shall be added and collected. Where suit is brought for the recovery of any such tax, the person liable therefor shall, in addition, be liable for the costs of collection and the interest and penalties herein imposed.

Section 10. Fine and Penalties. Whoever makes any false or untrue statement on his return, or who refuses to permit inspection of the books, records or accounts of any business in his custody or control when the right to make such inspection by the Treasurer is requested, and whoever fails or refuses to file a return required by this ordinance, and whoever fails or refuses to procure a mercantile license when so required under this ordinance, or fails to keep his license conspicuously posted at his place of business as required herein, shall, upon conviction before any alderman or magistrate, be sentenced to pay a fine of not more than three hundred dollars (\$300.00) for each offense, and in default of payment of said fine to be imprisoned in the Allegheny County Jail or Allegheny County Workhouse for a period not exceeding thirty (30) days for each offense.

Section 11. Saving Clause.

(a) Nothing contained in this ordinance shall be construed to empower the City to levy and collect the taxes hereby imposed on any person, business, or any portion of any business not within the taxing power of the City under the Constitution of the United States, and the laws and Constitution of the Commonwealth of Pennsylvania.

(b) If the tax, or any portion thereof, imposed upon any person under the provisions of this ordinance, shall be held by any court of competent jurisdiction to be in violation of the Constitution of the United States or of the Commonwealth of Pennsylvania, the decision of the Court shall not affect or impair the right to impose the taxes or the validity of the taxes so imposed upon other persons as herein provided.

Section 12. Payment under Protest: Refunds. The City Treasurer is hereby authorized to accept payment under protest of the amount of mercantile tax claimed by the City in any case where the taxpayer disputes the validity or amount of the City's claim for tax. If it is thereafter judicially determined by a court of competent jurisdiction that the City has been overpaid, the amount of the overpayment shall be refunded to the taxpayer. All refunds shall be made in conformance with the procedure pre-

During the past several months the United Steelworkers of America, headed by David J. McDonald, and the Human Relations Committee, of which R. Conrad Cooper, Vice President of the United States Steel Corporation, was Co-Chairman, have worked out an agreement which will be beneficial to all parties concerned, and which agreement will be in effect until 1965.

This agreement was reached by the parties at interest as the result of the free exercise of collective bargaining, and is the means of the avoidance of a strike.

This agreement was concluded after many hours of patient, constructive, hard working efforts on the part of those participating in the negotiations, which provides many benefits for the thousands of workers in the industry.

Therefore, The Mayor and the members of Council of the City of Pittsburgh extend congratulations to David J. McDonald, President, and his associ-

Whereas, To effect said widening it was necessary to raze a building then owned by the Citizens Traction Company, said building being supported on its easterly side by a party wall;

Beginning at the intersection of the southerly line of Penn Avenue, 60 feet wide, with the easterly line of Fifth Avenue, 50 feet wide; thence along the easterly line of Fifth Avenue S 19° 3' 30" E a distance of 112.50 feet to a point on the northerly line of Exchange Way, 15 feet wide; thence along the northerly line of Exchange Way S 71° 00' W for a distance of 1.25 feet to a point, said point being the westerly face of a party wall, 2.33 feet thick; thence along said

John Fitzgerald Kennedy, 35th President of the United States, met his untimely and sudden death at the hands of an assassin on Friday, November 22, 1963.

Mr. Kennedy's tragic death has shocked and stunned the people not only of his own country but the free-loving people throughout the world.

After graduating from Harvard University with high honors, he entered the United States Navy and served with distinction and credit in World War II.

As President he tackled the problems of his office with vigor and determination. His tenure in office was marked by struggles and disappointments, but there were triumphs and glory. Even at the moment when he was struck down by a sniper's bullet, he was enjoying the plaudits of the people of the great State of Texas which he was visiting.

Mr. Kennedy was a family man and loved his children and all children; was a genial, friendly, dynamic, effective and familiar public figure. He was a charming and magnetic speaker, a genial and delightful host. His dedication to those principles upon which our Government was established and must stand has been a source of inspiration to all Americans. His personal life has been a brilliant example for all who cherish and respect the truly great things in life. He was a Christian gentleman, practicing daily all the principles he professed. He gave his life for his country, loyal to the end to the sacred principle of good conduct in both his personal and public life.

His memory will always remain sweet and fragrant in the hearts and minds of every American citizen.

He was loved and honored by the people outside the confines of his country,

and this mark of respect was shown by the dignitaries and high public officials from abroad who came to Washington to pay homage to his memory.

And he leaves a family—Mrs. Jacqueline Kennedy, Caroline, John, Jr.—who long since captured the affections of all peoples.

To them, and to all surviving members of the Kennedy family, our deepest and most heartfelt sympathy.

Now, therefore, the members of Council and the Mayor on behalf of all the people of the City of Pittsburgh mourn the loss of this great American.
